Our Objectives

OUR PHILOSOPHY

- Continuous education is essential if representative government is to function to the benefit of every individual in developing a humane society.
- Continuous education is essential to the development of the informed and responsible citizenry required to cope with the social, economic and political problems of the community, state and nation.
- Continuous education must be comprehensive and responsive to the specific needs of both the individual and the community.
- Continuous education should be available in a formal organizational pattern at a minimal cost to all who can benefit.

OUR GOALS

Every individual should be provided the opportunity to be aware of and develop to maximum potential. The educational opportunity should be directly related to the needs of each member of society and community.

Bellevue Community College subscribes to the following:

1. A liberal admissions policy.
   In accord with statute and desire, the college operates in accordance with an "open-door" admissions policy. The college is a community learning place where individuals of a requisite age, or by special permission, and without reference to previous instructional experience, may enter in the expectancy of finding an appropriate and individualized learning opportunity.

2. An educational opportunity at minimal cost to the student.
   High productivity and efficiencies in instructional, counseling, and management contributions together with a continuous vigilance against increasing tuition and fees will characterize the efforts of the college district's personnel.

3. A comprehensive curriculum expanded to all geographic areas within Community College District No. 8 and designed to include offerings for members of minority and ethnic groups, the poor, the aged, the young, the married, the preparent and the handicapped.

   Four principle areas will be included:
   
   College Transfer Education: A college credit program transferable to a four-year college or university.
   
   Occupational Education: A program for students desiring to complete formal education in one or two years and enter employment. This program will include technical, vocational and semi-professional training.
   
   General Education: A nontransferable program of studies to acquaint the student with scientific and socio-economic developments to better prepare him for intelligent citizenship.
   
   Continuing Education: A program for citizens of the community to improve themselves vocationally and culturally.

4. A program of excellence in individual, vocational and academic counseling to help the student assess his potential capabilities, identify his aptitudes and make wise career choices.

   Innovative and imaginative approaches to counseling which will provide more efficient and effective learning by adapting to the needs, capabilities and motivations of the individuals will be employed by counseling personnel on all campuses.

OUR MAJOR OBJECTIVES

1. An emphasis on excellent teaching.
   Innovative and imaginative approaches to all learning opportunities which will provide more efficient and effective learning by adapting to the needs, capabilities and motivations of all learners will be employed by instructional personnel on all campuses of the district.

2. A wholesome activities program that will meet the needs of all students.
   Appropriate programs for individuals of all ages will be planned in the areas of individual or group activities, athletics and intramurals.

3. Programs of the colleges will be developed cooperatively and articulated with other colleges, agencies, industrial and cultural groups.
In order to enhance the cultural aspirations of all people within the college district, each community college will seek to become a cultural center for its surrounding community.

4. A process of involvement of students, faculty, administrators and trustees in the formation of policies and operating decisions that affect them.

Cooperative government by means of policy-forming councils, committees, and emphasis upon communication by the use of all appropriate techniques and devices, will be used in developing the decisions by those who are affected by the decisions.

To meet its goals and objectives the college has developed the following functions:

1. The Transfer Program

For those students entering Bellevue Community College who seek to transfer to a senior institution and pursue a baccalaureate degree, the college provides preprofessional courses equivalent to the first two years of a university or senior college. It is the intention of the college to ensure that students transferring from Bellevue will be at least as well prepared to enter upper-division work as are students who begin their work at the senior college.

2. The Occupational Education Program

Occupational education is one of the major objectives of Bellevue Community College. Its curricula is designed to meet the changing needs of employment. It is the goal of the Occupational Education Program to help each individual become a productive citizen, as well as to find personal satisfaction in the occupation for which he is preparing.

3. The Continuing Education Program

The college offers a wide variety of continuing education classes in order to meet the changing needs of the college clientele. These include high school completion courses, specialized employment skill classes and courses fulfilling a student’s desire to broaden his cultural and social interests. Continuing education courses are scheduled in several locations within the college district in order to provide educational opportunities convenient for the adults of the community.

4. The General Education Program

The college offers a General Education Program consisting of studies to acquaint the student with scientific and socio-economic developments which better prepare him for intelligent citizenship. It is the college belief that general education has a humanizing effect and students are encouraged to obtain a balanced, comprehensive introduction to the most important areas of man’s knowledge.

5. The Developmental Program

Through its Developmental Program the college offers special programs for those students needing additional preparation before entering into a specific program of study. Developmental clinics and classes are designed to help the student improve his basic academic skills.

6. The Counseling Program

The Counseling Program, through the Student Services Center, supports and facilitates the total developmental needs of all enrolled or potential students served by Bellevue Community College. It is designed to help the student with behavioral problems and includes professional consultation not only for the student, but those involved with him such as faculty, family and other members of the community.

7. The Student Activities Program

Student activities are designed to provide educational experiences basic to the social orientation and personal development of every student. The college believes that its students are competent to participate in decisions affecting their interests; students therefore are represented on all of the college councils. Efforts are made to encourage the involvement of students in social, political, and behavioral problems and projects. The principal concern is the development of all aspects of personality, with particular emphasis on the uniqueness of each student.
8. Community Service
The college recognizes its responsibility to provide educational leadership in the community, to be responsive to the community's needs, and to extend its facilities and influence in community development. Community groups are served with special educational, vocational and cultural offerings. Facilities of the college are available for public groups and the college faculty and staff members are encouraged to become involved in community affairs.

Approved and adopted by:
Board of Trustees
Community College District No. 8
April 7, 1970

Bellevue Community College was created by action of the Thirty-Ninth Legislature of the State of Washington and by the inspired efforts of many citizens of the area east of Lake Washington.
ELIGIBILITY
Candidates for admission to Bellevue Community College must be graduates of an accredited high school or at least 18 years of age. Admission may be granted to other individuals by special permission. In addition, special qualifications must be met for some curricula.

APPLICATION FOR ADMISSION
Students applying for admission to Bellevue Community College are required to complete the “State of Washington Uniform Community College Admission Form.” This form is available in high school offices, in the college Student Information Center — A101 and the Registration Center — A111. It should be completed and sent with the $5.00 application records fee (nonrefundable) to the Director, Enrollment Services and College Relations.

Students will be admitted as matriculated students to Bellevue Community College in the order that their admission materials are completed.

MATRICULATED STUDENT
Students who are admitted as matriculated are those presumably enrolled in programs leading to a Bellevue Community College degree, certificate, diploma (from the adult high school), an organized college transfer program or an approved program of study and who have completed all admission requirements.

NONMATRICULATED STUDENT
A nonmatriculated student is one who has not matriculated. Nonmatriculated students may enroll for credit on a “space available” basis but their enrollment implies no commitment on the part of the college regarding matriculated admission at some later date. Credits earned as a nonmatriculated student may apply toward a Bellevue Community College associate degree, certificate or diploma (from the adult high school). At least 30 credits must be earned as a matriculated student to qualify for an associate degree.

ADMISSION PROCEDURES
To be accepted for admission as a matriculated student at Bellevue Community College, a student must have the following on file in the Enrollment Services office:
1. A completed “State of Washington Uniform Community College Application Form.”
2. Application Records Fee. This $5.00 nonrefundable fee is paid only once by each entering student and should accompany the application for admission. It must be paid before the application can be processed.
3. Transcripts of High School and/or Other College Work. An official eight-semester high school transcript is required of all matriculated students. Currently enrolled high school seniors may submit a copy of their Washington Pre-College test or a seventh semester transcript for admissions purposes, except for students applying for Nursing, Radiologic Technology and Biomedical Photography, who are required to submit seventh semester transcripts. Eighth semester transcripts should be filed upon graduation from high school. Students having previously completed 45 college quarter credit hours or more need not submit a high school transcript unless it is required by the curricular program into which they are seeking admission. It is the student’s responsibility to request that a transcript(s) be forwarded to the college Office of Enrollment Services.
4. Washington Pre-College Test. It is recommended that all matriculated students take the Washington Pre-College Test.
5. Student Data Sheet. Students are to submit the data sheet on which they are to state their major field of study and complete the requested health information.
6. Registration Fee. This $20.00 fee is charged for preparation of registration materials. Students completing registration will have the $20.00 fee applied toward their tuition. Students not completing registration will forfeit the registration fee.

RESIDENCE CLASSIFICATION INFORMATION
Washington state law on residence classification requires that a nonresident student be domiciled; i.e., physically present with the intent to remain in the state of Washington for one year immediately prior to the beginning of the quarter for which he claims the right to pay resident tuition and fees. In addition, the student must...
have established domicile in the state for other than educational purposes. The law also states that "a nonresident student enrolled for more than six hours per quarter shall be considered as attending for educational purposes only — unless such student proves that he has, in fact, established, a bona fide domicile in this state for other than educational purposes."

In determining whether domicile has been established, no single factor or specific combination of factors provides a guarantee that domicile has been established. Factors which may be considered in a determination of domicile include permanent, full-time employment in the state of Washington, registration to vote for officials in Washington, location of bank accounts, location of personal property and payment of taxes thereon, periods of time spent out of the state of Washington, maintenance of a home or continuous commitment for a rental unit in the form of a lease or other agreement, possession of a professional license to practice in Washington, automobile registration, and a Washington state driver's license.

Regardless of age or domicile, the following are entitled to pay resident tuition and fees: any person who is employed not less than 20 hours per week at a Washington public institution of higher education, and the children and spouses of such person; military personnel and federal employees residing or stationed in the state of Washington, and the children and spouses of such persons; and all veterans whose final permanent duty station was in the state of Washington, so long as such veteran is receiving federal vocational or educational benefits conferred by virtue of his military service.

An alien, in order to qualify for residence classification, must have been physically present in the state for one full year after the date shown on his alien registration card, unless he provides proof of his earlier eligibility and application for an immigrant visa.

Any questions concerning residence classification should be referred to the Residency Classification Officer, 641-2218.

**ADMISSION PROCEDURE FOR ACADEMIC PROBATION TRANSFER STUDENTS**

Students dismissed from other institutions for academic reasons who wish to enroll at Bellevue Community College must comply with the following conditions before consideration will be given for admission:

1. Must petition, in writing, to the Academic Standing Committee, c/o Director of Enrollment Services, his request for admission.
2. Have on file with the Admissions Officer all copies of college transcripts.
3. Meet all the admissions procedures required for matriculated students.
4. Foreign students are admitted to Bellevue Community College only under matriculated student status. In order to qualify for matriculated student status foreign students must adhere to the following conditions:
   1. Applicants are to have on file an Application for Admission and the $5.00 records fee.
   2. Applicants must also have on file translated copies of all secondary school scholastic records.
   3. Bellevue Community College is not prepared to teach English to non-English speaking students. Therefore, it is required that all foreign students take the TOEFL (Test of English as a Foreign Language) examination. More information about TOEFL may be obtained by corresponding with the Educational Testing Service, Princeton, New Jersey 08540. E.T.S. will forward the test results to the college.
   4. Foreign students must also provide the college with a Declaration and Certification of Finances or a notarized Affidavit of Support. Estimated expenses for a school year at Bellevue Community College are $2,000. Students unable to provide proof of financial responsibility will not be accepted. The college currently does not have funds available to provide financial assistance to foreign students.
   5. Students are also required to provide the college with the name of a local United States citizen who is their sponsor while in the United States.
Presently, Bellevue Community College is not able to admit all students applying for admission. It is suggested that fall quarter is the most opportune time for gaining acceptance, and students should therefore file an application accordingly. Fall quarter applications are accepted on December first of each calendar year.

FORMERLY ENROLLED STUDENTS

Students who have attended Bellevue Community College but were not enrolled the quarter prior to this registration must complete an application for readmission, student data sheet, and submit the $20.00 registration fee.

PREREGISTRATION ADVISING

A registration appointment will be made for all newly matriculated students as soon as each has completed and submitted all required admissions' materials. These include the admissions' application form, together with the $5.00 application records fee, high school and/or college transcripts, completed student data sheet and payment of the $20.00 registration fee.

Prior to the student's initial registration appointment, educational planning and guidance assistance is available on an individual and group basis. Informal orientation to the College and its available programs and services also is provided following each initial educational planning session for new students, but attendance is voluntary.

Matriculated students are routinely assigned regular advisers, but non-matriculated students also are provided educational planning services each quarter during their registration period.

REGISTRATION — NEWLY MATRICULATED STUDENTS

Each student who enrolls at Bellevue Community College is provided with the opportunity of conferring with an adviser. This adviser assists the student in arranging his program each quarter. The student is required to bring his updated Student Planning Record booklet with him when he reports for his conference.

Following the appointment with his adviser, the student completes all registration forms. A student is not enrolled in classes until he has completed these forms and paid his entire tuition fees.

REGISTRATION — PRESENTLY ENROLLED MATRICULATED STUDENTS

Presently enrolled matriculated students are registered prior to the beginning of each quarter on those days designated on the college calendar.

In order to provide counseling and advising service, students are given scheduled registration appointments by total credits earned.

All matriculated students are assigned an academic adviser from the division of his choice and/or the program in which he expects to major. The student must consult with his adviser during his first quarter in residence at Bellevue Community College and obtain the adviser's signature on the registration form. Each quarter thereafter neither an advising conference nor signature is required (though strongly recommended) until the student accumulates a total of 60 quarter hour credits.

Students may not register before their assigned appointments. If unable to keep an appointment, a student may register later that same day or on any scheduled registration day thereafter except days scheduled for registering new students. However, students who register at their appointed time will have an advantage of greater course selection.

REGISTRATION — NONMATRICULATED STUDENTS

Nonmatriculated students are permitted to enroll in day and/or evening classes to the extent that space is available.

SCHEDULE CHANGES

Students should consult the college calendar for the dates limiting the adding of or withdrawing from a course. Adding a course or withdrawing from a course is accomplished by filling out a "Change of Schedule" form obtained in the Registration Center. A $2.00 fee is charged for each separate course added. There is no charge for withdrawal from a course or for complete withdrawal from college.

WITHDRAWAL FROM A COURSE

Withdrawal from a course is the termination of the student's registration in that course. Withdrawals are classified as official when the student
completes and submits a “Change of Schedule” form at the Registration Center. Unofficial withdrawals are recorded on the student’s record as “NC” (noncredit).

The criteria used for determining grading and recording procedures for official withdrawals are as follows:
1. Through the eighth calendar day of the quarter students should obtain a withdrawal petition form from the Registration Center and return it after completing all required information and signature. The course does not become a part of his transcript record.
2. After the eighth day of the quarter and prior to the 11th week of the quarter, the procedure is the same as number one above. The withdrawal grade of “W” will become a part of the student’s record regardless of his grade status at this time.
3. No official withdrawal will be permitted after the 10th calendar week of the quarter.

WITHDRAWAL FROM COLLEGE
A student who finds it necessary to withdraw completely from the college due to illness or other bona fide reasons, must comply with the procedures listed under “Withdrawal from a Course.” Failure to do this will not constitute an official withdrawal and will cause forfeiture of any refund and a grade of “NC” in all courses. Students who have completely withdrawn from school may not re-enroll or register for the same quarter without the approval of the Registrar.

MILITARY WITHDRAWAL
Students submitting proof of being drafted or voluntary enlistment in the Armed Forces may receive credit and/or refund of fees as follows:
1. During first one-third of course, full refund of fees and no credit.
2. During second one-third of course, one-half credit, without letter grade and with courses unspecified. Unsolicited credit may later be converted to specific credit and grade by examination. One-half of fees refunded.
3. Withdrawal during last one-third of course, full credit, no letter grade and courses specified. Letter grade may be earned by examination upon recommendation of the instructor. No money refund.
4. A student who is drafted in the last one-half of his final quarter and who would obviously have earned his degree if he had not been drafted, whose earned grade average is “C” or better, and who is recommended by his department chairman and the dean, may be granted a degree prior to his induction into the Armed Forces by action of the Graduation Committee.

REMOVING AN INCOMPLETE GRADE
A student who has performed at a passing level during the quarter but because of some reason was unable to complete the course requirements may be graded “incomplete.”

The student is responsible for initiating the removal of his incomplete grade.

A fee of $2.00 is charged for the conversion of each incomplete grade. Incomplete grades are never converted to noncredit if not made up.

Incompletes will be converted to letter grades only after the following procedures have been accomplished:
1. Student is to pay the required $2.00 fee at the Registration Center.
2. Student is to present the validated “Change of Incomplete Grade” card to the instructor.
3. The instructor is responsible for grading the card, recording his signature as proof of validation and returning the “Change of Incomplete Grade” card to the Records Office for processing.

Incomplete grade changes for the quarter enrolled are processed the sixth calendar week of the following quarter. Incomplete grade changes turned in after this period will be updated during the next processing period.

RETENTION OF RECORDS
The credentials of applicants who do not register for the quarter to which they have been admitted are retained in the Records Office for one year. If the student has not notified the college of his intent to register by this time, his records are discarded.

All records forwarded to the Admissions Office become the property of the college and are not returnable to the student or duplicated for any reason.
AUDITING A COURSE

Any person may enroll in a course for audit (noncredit) upon payment of the required enrollment fees. Students should notify the class instructor of their desire to enroll for noncredit. Those who wish to transfer from a credit to an audit basis or from audit to a credit basis in a course for which they are presently enrolled must arrange for this change of status at the Registration Center within the first eight days of a quarter.

CREDITS

Bellevue Community College awards class credit on the basis of the number of class hours registered per week. Example:
1 credit for 1 hour per week
2 credits for 2 hours per week
3 credits for 3 hours per week
5 credits for 5 hours per week

Exceptions are noted on the class schedule where some classes are not scheduled in keeping with the school periods.

Laboratory courses often require two or three clock hours of work for each credit hour.

STUDENT CREDIT LOAD

A full-time student credit load is 10 to 16 credit hours including physical education. However, students enrolled under government sponsored programs should check with the appropriate agency or the Director, Student Information and Financial Services for the proper credit load requirements. Students who are working while attending college should reduce their class load accordingly. To enroll in more than 16 credit hours a student must meet the following minimum cumulative grade-point average:
17 to 18 credit hour load — 2.5
19 to 20 credit hour load — 3.0

The maximum credit hour load allowed by the college is 20 credit hours.

EXAMINATIONS

Final examinations may, at the discretion of the instructor, be held at the end of each quarter.

GRADING

The college grading system consists of one grading period per quarter, the final grade using the letter grades as they appear in the college catalog. Grade reports are mailed to students at the close of each quarter.

Students planning to transfer should examine the catalog of the transfer institution regarding the acceptance of credit for repeated courses.

Bellevue Community College, consistent with its philosophy of giving priority to the welfare of its students, utilizes a grading system which operates within a framework of the student’s achievements. This system produces a permanent record of grades which reflects, to varying degrees, successful course completion. Such an approach to grading encourages the student to assess and possibly re-direct his efforts in areas suitable to his aptitudes and interests without the stigma of failure. Grades and grade points are based on the following criteria:
<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Maximum Achievement 4 points per credit hour</td>
</tr>
<tr>
<td>B</td>
<td>High Achievement 3 points per credit hour</td>
</tr>
<tr>
<td>C</td>
<td>Moderate Achievement 2 points per credit hour</td>
</tr>
<tr>
<td>D</td>
<td>Minimum Achievement 1 point per credit hour</td>
</tr>
<tr>
<td>P</td>
<td>Passing No points are calculated for this grade. &quot;P&quot; is used primarily in Individual Development Center (ID) courses, physical activity courses, continuing education classes, and in those instances specifically approved by the Dean of Instruction upon request by the student.</td>
</tr>
<tr>
<td>NC</td>
<td>Noncredit No points are calculated for this mark. The student will receive this grade if his achievement does not merit the awarding of credit for the course. Students who fail to officially withdraw from a course will also be awarded this grade.</td>
</tr>
<tr>
<td>W</td>
<td>Official Withdrawal No points are calculated for this grade. A student may officially withdraw at any time through the 10th week of the quarter.</td>
</tr>
<tr>
<td>X</td>
<td>Audit Not counted for credit or grade-point average. A student must declare his intention to audit a course within the first eight days of a quarter by filing the required petition in the Registration Center.</td>
</tr>
<tr>
<td>Z</td>
<td>Course in Progress This symbol indicates a course which, by authorization of the Dean of Instruction, officially continues beyond the terminal date of the present quarter. Normally, the course is completed and graded on or before the termination of the subsequent quarter.</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete No points are calculated for this grade. &quot;I&quot; indicates that the student has not completed specific prescribed requirements for a course, generally for unforeseen reasons beyond the student's control. Any deviation from this procedure will require signatures by both the Dean of Instruction and the Dean of Student Services prior to its implementation on an experimental basis. 1. Students are cautioned that there are certain limitations implicit in the &quot;P&quot; grade. Four-year colleges and universities are not bound to accept the &quot;P&quot; grade as meeting either admission or graduation requirements, since the &quot;P&quot; may reflect any level of letter grade performance from &quot;A&quot; through &quot;D&quot;, inclusive. A student intending to transfer to a four-year institution is urged to consult with his transfer school or with the Director, Enrollment Services and College Relations, for an explanation of any restrictions he may encounter in transferring course credit graded &quot;P&quot;. 2. The &quot;NC&quot; grade, separate and distinct from Audit, Course in Progress, Incomplete and Withdrawal marks, may be awarded for but not necessarily limited to the following reasons: a student's decision not to be formally graded in a course, terminating a course without completing an official withdrawal and failure, for any reason, of a student to realize a minimal achievement level required by the course instructor for awarding credit.</td>
</tr>
</tbody>
</table>

3. An "I" will not be posted to a transcript unless the instructor's grade sheet is accompanied by a statement on the contractual form which specifically indicates the work the student must do to make up the deficiency. It is strongly recommended, but not required, that the contractual form be signed by both instructor and student. The contract, when negotiated, shall contain the specifics of the deficiency. Three copies of this contract shall be provided, with copies going to the instructor, the student and the Registrar. The nature of the deficiency must be such that removal of an "I" grade is not contingent on subsequent enrollment in the same course by the student. Whenever possible, an instructor should designate a faculty alternate to act from within the same discipline in his behalf in resolving an "I" grade when subsequent conditions prevent further direct contact between the student and the original instructor. In the event the original instructor does not designate the required area alternate, the same area faculty shall then designate one of their members to serve as such, through simple majority agreement, with ties broken by the department or program chairman. An "I" grade remains permanently on all official records until such time as the defici-
ency outlined is resolved by the student. A student may petition at any time to have the terms of the deficiency modified through subsequent communication with the instructor, or his area designated alternate.

REPEATING A COURSE
A student who has completed a course may repeat the course if he so desires. Both grades received will appear on the student's permanent record and will be used in computing his cumulative grade-point average.

The second grade only will be used in computing grade-point averages for graduation.

HONORS
The College encourages students to achieve the highest level of scholarship in pursuit of their educational goal.

To focus recognition on scholarship achievement, the College publishes quarterly, a scholarship listing containing the names of students who have earned a 3.50 grade-point average for a minimum of 12 credits, exclusive of courses which do not carry grade points.

Students whose quarterly grade-point average is 3.80 or above and who have satisfied all honor roll requirements, will receive a special written acknowledgment from the Dean of Instruction and the Dean for Student Services and Development.

Students who have earned the Associate of Arts Degree or the Certificate of Achievement and have maintained a cumulative grade-point average of 3.50 or above will receive special recognition at the June commencement. All students graduating with honors will have their degree and transcript marked "with honors."

PROBATIONARY STATUS
The purpose of a low scholarship policy and procedure is to provide the student with a fuller understanding of his academic status and to encourage an ongoing evaluation of his educational goals. Any student whose cumulative GPA is below 2.0 will be placed on low scholarship.

Each student on low scholarship will be contacted in writing by the Associate Dean for Human Development Services and encouraged to seek assistance and consultation from his faculty adviser or a staff counselor. Concurrently, each faculty adviser will be notified in writing of low scholarship status among his advisees. Any student on low scholarship status for two subsequent quarters may be referred upon recommendation of his faculty adviser or a staff counselor to the Academic Standing Committee.

A student who has been suspended from another college must allow one quarter of a regular school year to elapse before he will be considered admissible to Bellevue Community College.

A student who has been placed on probation at another college must petition the Academic Standing Committee in writing for permission to enroll.

READMISSION AFTER ACADEMIC DISMISSAL
A student previously dismissed for academic reasons who wishes to re-enroll should secure an application for readmission from the Student Information Center and submit it during the scheduled admission period for the quarter for which he plans to return.

STUDENT FINANCIAL OBLIGATIONS
All students will be held responsible for any outstanding financial obligations to the College; these include tuition, parking fees, parking and library fines, and student loans. Appropriate legal action will be taken, when circumstances warrant, in the event of nonpayment of any such obligations. In any instances involving unredeemed checks which were in payment of college tuition or fees, the student will be considered "not enrolled," as required by state law, and grades, transcripts, degrees, etc. will be withheld until such financial obligations are fully satisfied.

TRANSCRIPTS
A transcript is a copy of a student's official educational record and is signed by the Registrar. Two copies of the transcript will be mailed free of charge upon the student's request to potential employers or to institutions to which the student has applied for admission. A charge of $1.00, payable to the Records Office in advance, is required for each additional transcript. Copies of the transcript will not be released, however, if the student has not fulfilled all obligations
to the college and signed an authorization for the release of his records.

Students wishing to have grade transcripts sent to prospective employers or to other colleges must personally request this service on authorization forms available in the Student Information Center at the Enrollment Services desk.

TRANSFER CREDIT

Transfer credits earned at an institution which has been accredited by its respective regional accrediting association or those from the United States Armed Forces Institute (USAFI) are subject to acceptance at Bellevue Community College.

Students who have completed formal service school courses while serving in the Armed Forces also may be granted college credit. The American Council on Education publication, "Guide to the Evaluation of Educational Experiences in the Armed Services" is used as the reference manual for determining the amount and type of credit, if any, a specific course is worth. Included among creditable military service courses is Basic Recruit Training for which three credits in Physical Education are allowed.

Those who wish to have military experiences evaluated should obtain an application form from the Registration Center. It should be submitted along with all supporting documents that students may have which will show that the course(s) was completed in a satisfactory manner.

College level USAFI correspondence courses which students have completed successfully are accepted for college credit provided completion certification for all such courses is submitted to the Director, Enrollment Services and College Relations, after admission is verified. Since the college-level GED tests are no longer used, credits are not allowed for those examinations.

The maximum number of credits which may be transferred here and applied toward an associate degree is 60. Only 30 credits of the 60 credits may be obtained from military courses, USAFI (or civilian correspondence credits) and all other nontraditional credit programs.

NONTRADITIONAL CREDIT PROGRAMS

Bellevue Community College believes that flexibility, innovation and independent study are essential ingredients in the educational process. What a person knows is more important than how he came to know it. Every effort is made to recognize and grant students credit for education and experiences regardless of the means by which they were obtained.

Though the entire area of nontraditional credit programs is presently under development, the following specific programs are available to students:

CLEP

College-Level Examination Program tests (CLEP) are accepted for credit provided the student obtains a score of 500 (50%) or above on the national norms in any of the five test categories. Up to nine credits may be allowed for successful completion of a general area test and up to five credits for a subject area test. Credits obtained through these sources will become a part of the student's record only after he has satisfactorily completed 24 quarter credits at Bellevue Community College with a minimum cumulative grade point average of 2.0.

No credit will be awarded for any subject examination successfully completed where the student has already earned credit in a course essentially duplicating the content of the examination in question. Students shall not be permitted to repeat any examination for credit.

Credit By Examination

Examinations for credit in courses offered by Bellevue Community College may be taken for work completed in private study or at nonaccredited institutions with the following reservations:

a. Students must be presently registered at Bellevue Community College.

b. Students must have completed 10 quarters hours of credit at Bellevue Community College. Individual departments or programs may require students to complete the next highest sequential course before they receive credit.
c. No student may take an examination in a course for which he has previously been enrolled for credit or audit at this college.
d. No student will be permitted to repeat an examination in which he did not qualify for credit.
e. Within a given field of study no student shall receive credit for a course more elementary than that for which he has previously received credit.
f. A foreign student may not receive credit by examination for 100-200 level courses in his native language.
g. All credits earned by examination apply toward the 30-credit limitation.
h. Credit received by examination will not be included as part of the student grade point, but will be computed for graduation GPA.
i. No credit will be allowed for an examination grade of less than "C".
j. Students applying for credit by examination are to petition the Director, Enrollment Services for a "Certificate of Approval." Upon approval and payment of the required fee, the Records Office will forward the "Certificate of Approval" to the instructor. Upon satisfactory completion of the examination an instructor will complete the "Certificate of Approval" and return it to the Records Office for processing.

VETERANS ADMINISTRATION PROGRAMS

Bellevue Community College has been approved by the Veterans Administration for students eligible under Chapters 31, 34, and 35, Title 38, United States Code.

Applications for the benefits under Chapters 34 and 35 may be obtained in the Veterans' Affairs Office and should be submitted to the Veterans Administration, Regional Office, Sixth and Lenora Building, Seattle, Washington, 98121, as early as possible. Students eligible under Chapter 31 should apply directly to the Veterans Administration Office. Students should be prepared to pay their own expenses for at least two months after registration.

SELECTIVE SERVICE

The Registrar of the College is responsible for maintaining liaison with the Selective Service System. General information regarding Selective Service and student deferments may be obtained at the Registration Center.
INFORMATION FOR TRANSFER STUDENTS

GENERAL INFORMATION

The student who plans to transfer to a four-year college from Bellevue Community College should be advised to give careful attention to the following important steps:

1. Decide early which four-year college he wishes to attend.
2. Obtain a current copy of the catalog from that college. Make a special note of:
   (a) its entrance requirements, particularly any high school prerequisites which the student presently might not have. In almost every instance it will be advantageous for him to make up high school prerequisites in the community college where facilities exist to obtain these courses.
   (b) suggested freshman and sophomore level courses in the student's major field of study. Include these subjects or their equivalents in the student's projected quarterly planning sheet.
   (c) Note carefully the transfer institution’s general or basic education requirement. This is common to most degree programs and may be labeled differently at various schools; e.g., core, breadth, or distribution requirement. It will consist mainly of lower-division courses that the student is expected to complete during his first two years of study. The transfer student is always at an advantage if these course credits are completed prior to his transfer.
   (d) any other pertinent limitations which the four-year institutions place upon their acceptance of transfer students and/or credit.
3. Confer with his Bellevue Community College adviser and/or the Educational Planning and Guidance Office about his plans to transfer and the transferability of given courses. Course numbers do not necessarily assure transferability because numbering systems vary. The final campus authority on the transferability of all courses offered by the college is the Director, Enrollment Services and College Relations.
4. Direct contact with the four-year institution is encouraged. Confer with an admissions officer at the senior college of his choice for any further information he might have concerning the student’s future departmental requirements that are not included in the school’s formal catalog.
5. Start a check, preferably two quarters before he expects to transfer, to be certain all requirements are met or will be met by the time of transfer. Any documents or files required by the senior institution also should be submitted.

OTHER TRANSFER INFORMATION

1. Courses numbered 100 and above, and not strictly of an occupational nature, are generally accepted by four-year colleges. Some occupational classes may be accepted for transfer credit, but this possibility must be explored individually with each respective institution. Courses numbered 1 through 99 may in some cases be accepted by institutions offering similar courses, but their transferability should not be assumed.
2. Most senior colleges and universities limit the amount of credit they will accept from a community college transfer student to a total of 90 quarter hours of academic credit, plus three credits in physical education activity courses. In all instances, however, the senior institution of higher learning reserves the right of finally determining the number of credit hours it will accept in transfer from any student applying for admission with advanced standing.
3. The senior college-university reserves the right to recompute the student's grade-point average according to its own policies and regulations.
4. A student may elect to change his major field of study as well as the senior institution he expects to attend as many times as he wishes, but in most instances he will encounter additional problems when he transfers as a result of frequent change. Such changes should be made only after careful study and consultation with advisers.
5. If the student is uncertain about the senior college-university that he plans to attend and thereby does not have a specific school's recommendation for lower division courses to take during the first two years of college, he is urged to consider pursuing the study program outlined and required for the Associate of Arts Degree in College Premajor.

6. Most senior colleges and universities require students to apply for admission with advanced standing on special application forms. These are available for all state four-year institutions in the Office of the Director of College Relations in the Student Information Center.

**DIRECT TRANSFER AGREEMENTS**

Ten Washington four-year colleges and universities have consummated direct transfer agreements with Bellevue Community College for the acceptance of the Associate of Arts Degree in College Premajor.

Students earning the Associate of Arts Degree in College Premajor, who meet the transfer institution's admission requirements, are admitted as juniors and automatically satisfy the four-year school's general education degree requirements.

The four-year schools with which the college now has agreements are: Central Washington State College, Eastern Washington State College, Evergreen State College, Pacific Lutheran University, Seattle Pacific College, Seattle University, St. Martin's College, University of Puget Sound, Washington State University and Western Washington State College.

### Ongoing Costs

- **Transcript**: $1.00 (First Two, No Charge)
- **GED Test**: $7.50
- **Laboratory breakage card**: $5.00 (Unused portion refunded)
- **Parking permit**:
  - **Full-time students** (10-16 credit hours) per quarter: $7.00
  - **Part-time students** (less than 10 credit hours) per quarter: $4.00
- **Second car** per quarter: $2.00
- **Daily parking** — vehicles without parking decal per quarter: $0.25
- **Insurance**
  - 24-hour coverage, student only (per quarter): $0.25
  - See Registration Packet
- **Graduation fee**: $TBA (includes evaluation, rental of cap and gown and diploma)
- **SPECIAL FEES**
  - **Change of grade**: $2.00
  - **Special examinations**: $5.00
  - **Credit examination**: $4.15 (per credit hour)
REFUND POLICY

A refund of fees is made only when a student withdraws from college. No fees are refunded when a student reduces his credit hour load after completing registration. A student who is requested to withdraw for disciplinary reasons will not be eligible for refund. Upon withdrawal from college the tuition fees are refunded as follows:

**Tuition & Fees**
- Lab Fees — 100% prior to 1st day of classes
- Through first week of classes — 80% of refundable fees
- During second week of classes — 50% of refundable fees
- After second week of classes — NO REFUND

**Reduction of credit hour load** — NO REFUND

**Cancellation of course** — Permission to transfer to another course or full refund upon request

**Parking Fees**
- Prior to first day of classes — 100%
- Through first week of classes — 80%
- During second week of classes — 50%

**Insurance Fees**
- Through eighth day of classes only — 100%**
- After eighth day of classes — NO REFUND

*Refund period varies with summer quarter.
**NO REFUND if insurance claim has been filed.

ORGANIZATION OF THE COLLEGE

Bellevue Community College is a state institution, subject to the rules and regulations of the State Board for Community College Education and under the direct jurisdiction of the local Board of Trustees of Community College District No. 8.

The President is the chief executive officer of the college. Serving him are the Executive Assistant to the President and director of Personnel, Director of College District Planning, Director of Public Information, Dean of Instruction, Dean of Student Services and Finance and Business Manager.

The Dean of Instruction is assisted by an Associate Dean of Instruction: Learning Resources, an Associate Dean of Instruction: Academic and Continuing Education, and an Associate Dean of Instruction: Occupational Education and Special Programs. The Dean of Instruction also is assisted by six division chairmen: Business, Humanities, Individual Development (ID), Physical Activities, Science and Social Science.

The Dean of Student Services and Development assisted by an Associate Dean for Student Information, Services and Systems and an Associate Dean for Human Development Services. He also is aided by a Director for Student Programs and Activities, a Director of Food Services, a Director of Athletics, a Director for Enrollment Services and College Relations, a Director for Student Information and Financial Services and a Bookstore Manager.

The Finance and Business Manager is assisted by a Controller, a Director of Campus Services and a Director of Plant Operations.

It is recognized that faculty and student involvement is essential in dealing with institutional concerns and that group decisions are valuable for dynamic growth. Therefore, Bellevue Community College has adopted a system of policy-recommending councils. The Instructional Council, Student Personnel Council, Budget and Finance Council, Professional Personnel Council, and Research and Development Council recommend policy to the College Management Council for recommendation to the college President. Membership on the respective councils is determined by the college President, the President of the Bellevue Community College Educational Association, and the President of the Associated Students of Bellevue Community College.
GRADUATION

Each student who desires to graduate from Bellevue Community College with the Associate of Arts Degree or the Certificate of Achievement must file an application for graduation with the Registration Center. Applications must be filed prior to the deadline date for the student's anticipated quarter of graduation. Deadline dates are as follows:

- Summer quarter — June 1
- Fall quarter — May 1
- Winter quarter — October 1
- Spring quarter — February 1

Students transferring to Bellevue Community College with 60 acceptable credits should make application their first quarter of enrollment. It is the responsibility of the student to ascertain that he has fulfilled academic and graduation requirements before applying for graduation. His faculty adviser may, upon request, assist him in determining his status. The student must satisfy all general and specific requirements of the college, including all financial obligations.

A student may elect to graduate under either the provisions of the official catalog in force during the time when he last entered the college or under the official catalog which is in force at the time he applies for graduation. When a student makes application for graduation he must specify the catalog under which he elects to graduate.

Credits earned at Bellevue Community College do not assure the student of transfer credit applicable to a baccalaureate degree at a specific four-year college or university. The acceptance of specific credits is the prerogative of the four-year institution of higher learning.

The student who plans to transfer to a four-year college or university from Bellevue Community College is advised to give careful attention to the section in the catalog, “Information for Transfer Students.”

COMMENCEMENT

Commencement exercises are held only at the close of spring quarter. Diplomas are issued at the end of each quarter to students who have completed graduation requirements.

June Commencement Exercises

During spring quarter of each year students are mailed specific instructions regarding participation in June commencement. Participants should follow instructions and return all information requested. Students who have earned an Associate of Arts Degree in the summer, fall, winter or spring quarter are entitled to participate in commencement. Only diploma covers will be issued at time of commencement. Diplomas will be available for distribution approximately eight weeks after completion of the quarter in which the degree was earned.
Associate of Arts Degree

Bellevue Community College grants one basic degree, the Associate of Arts, to students who complete an institutionally recognized curricular program totaling a minimum of 90 quarter credit hours with a cumulative grade-point average of at least 2.00.

Though most curricular programs no longer require physical education activity credits, students are urged to balance their educational endeavors with no less than three, one-credit physical education activity courses. Students who have free elective credit options within their degree programs may use at least six activity course credits to satisfy their elective options.

Specific degree requirements include completion of the following:

1. An approved curricular program as outlined in the “Career Planning” section of this catalog, or
2. The first two years of a baccalaureate program of an accredited four-year college or university provided that the student has satisfied the general admission requirements of the specified four-year institution.

Students who elect to complete curricular programs which require physical activity credits may obtain an exemption by filing a Petition of Waiver with the Division of Physical Activities. Students are eligible for waivers if they are:

- At least 30 years of age, or
- Have had at least one year of active military service, or
- Excused for medical reasons. They require a physician’s statement on an official Bellevue Community College medical examination form (blank forms may be obtained from the Registration Center).

Students with one year or more of active military service are eligible to receive three physical activity credits by completing a petition request form in the Registration Center.

Thirty quarter hours applied toward the degree must be taken at Bellevue Community College. The last 10 credits earned before graduation must be earned at Bellevue Community College.

Certificate of Achievement

Certificates of Achievement are awarded to indicate a satisfactory level of achievement in selected programs as arranged through a division and approved by the Dean of Instruction. The following restrictions apply to such programs:

1. Cumulative grade-point average of at least 2.00.
2. A maximum of one-third of the credit requirements for the program may transfer from another institution of higher learning.

The Certificate of Achievement does not qualify the student to participate in graduation.

Certificate of Completion

At the request of a student, a Certificate of Completion may be issued upon the satisfactory completion of a course. Certificates of Completion are to be issued at the discretion of the appropriate academic division.

The Certificate of Completion does not qualify the student to participate in graduation.
CONTINUING EDUCATION
General Information

Bellevue Community College offers a wide variety of Continuing Education classes which are planned to help people attain their varied goals. The program is continually being reviewed and expanded in order to provide courses of current interest to adults. Suggestions for new courses are welcome; the college endeavors to be responsive to requests from individuals, groups and employers by offering courses whenever sufficient enrollment is assured and qualified instructors are available.

Any person 18 years of age or older may enroll in Continuing Education Courses regardless of educational background. Continuing Education students are classed as special students and need not follow the admissions procedure outlined for those in the transfer credit program. Advance registration is recommended to insure a place in the desired course. Students may enroll during the first week of classes on a space available basis.

The Continuing Education program usually follows the regular Bellevue Community College calendar although exceptions are made for short courses, seminars, and other special cases. Students are required to furnish textbooks and supplies in addition to nominal registration fees. In some courses a laboratory fee is charged to cover the cost of supplies furnished.
Fees are refunded in accordance with the regular Bellevue Community College policy.

In order to provide educational opportunities convenient to the adults of the community, Continuing Education courses are scheduled in several locations within the area. This provides for ease of parking and a minimum of travel.

**High School Completion**

Adults who wish to complete their high school education may do so through the Bellevue Community College Continuing Education Program. The Bellevue Community College Adult High School Completion Program has been approved by the state of Washington. Interested adults are encouraged to make arrangements for a conference with the adult high school director. Credit toward a diploma may be granted for work completed in other accredited secondary schools, courses completed during military service, verification of work experience having educational value, and by achieving a satisfactory score on standardized achievement tests. A minimum of four high school credits must be earned at Bellevue Community College in order to qualify for a high school diploma.

Credits earned in Continuing Education courses may be transferred to other secondary schools. The adult high school diploma is accepted for admission to four-year colleges, subject only to the same conditions as the usual high school diploma.

**General Educational Development (GED) Tests and Certificate**

Older adults who find it impossible to enter a formal high school completion program may be interested in applying for the General Educational Development (GED) tests, the successful completion of which earns for the examinee, the Certificate of Educational Competency.

Students interested in the GED and who are 18 years of age or older may apply in the Registration Center by completing the application form and by paying a fee of $7.50. Once a student applies, he is informed of each regular examination session (approximately once each month). If the student completes each of the five examinations with standard scores equal to or higher than the minimum passing level established by the state of Washington, his results are forwarded to the state Superintendent of Public Instruction. This office issues the certificate, and it is forwarded to the student via the center and the Chief Examiner who administered the tests. Students are not eligible to receive their certificates unless they are 19 years of age or more even though they have satisfied all other requirements.

**Certificates of Completion**

Upon request and satisfactory completion of any Continuing Education course or sequence of courses, students will be issued a certificate of completion.

**Parent Education**

The Parent Education program is designed to help parents understand their children and their own role as parents. Child-study laboratories, toddler observation groups, and special classes provide learning experiences. Parents are made aware of the latest information in child development and family relations through attending classes, by observing and participating in preschool groups and in conferences with preschool advisers. Lecture and discussion sessions feature leaders in such fields as family relations, preschool education, creative learning, speech and hearing, and reading readiness.

Another aspect of the Parent Education program is the preschool leadership course offered through the Continuing Education program.

**Continuing Education Class Schedules and Course Descriptions**

Continuing Education bulletins are issued quarterly giving brief descriptions of all courses, times, locations, fees and other general information and are mailed to most area residents. They also are available on request from the college. Radio, television and area newspapers are utilized to inform the community of registration dates and to highlight specific course offerings.

OCCUPATIONAL EDUCATION

Occupational Education has developed as one of the major objectives of Bellevue Community College. The curricula is constantly revised as the college plans to meet the changing needs of employment. The teaching methods and equipment are continually updated to prepare the student for positions in today's technical society.

The college offers courses in Occupational Education which lead to a certificate or an associate degree. The certificate program is a year or less in length and provides the individual with the skills necessary to function effectively on the job. The two-year associate degree program provides the individual with a general education foundation and provides for the development of required skills. Although some of the courses are transferable to a four-year college, the primary purpose of the occupational program at Bellevue Community College is to prepare the individual for immediate employment.

A student who has not yet decided on a definite vocation will be provided with expert counseling help to assist him in determining his occupational potential through different types of assessment. It is the goal of Occupational Education to help each individual to become a productive citizen, and to find personal satisfaction in the occupation for which he is preparing.

Bellevue Community College offers a range of occupational programs in the following areas: Accountant, Biomedical Photographer, Civil Engineering Technology, Clerk-Typist, Diver Certification, Drafting Technology, Early Childhood Education, Environmental Horticulture, Food Service Management, General Business, Interior Decoration, Graphic Reproduction, Law Enforcement, Marketing, Media Technician, Nursing, Professional Secretary, Professional Ski Instructor, Quality Control, Radiologic Technology, Real Estate, Recreation Leadership, Social Services, Welding Technology and Fashion Merchandising.

Additional occupational programs are being planned continuously. For this information contact the Student Information Center or phone 641-2243.

LIBRARY-MEDIA CENTER

The college's Library-Media Center (LMC) combines library and audiovisual services and makes a wide variety of print and nonprint materials available and readily accessible to students and faculty. Included are approximately 35,000 books, more than 400 current periodicals, numerous pamphlets and documents, filmstrips, slides, records, microfiche, microfilm, overhead transparencies, and audio and video tape recordings.

A dial-access information retrieval system has been installed in the Library-Media Center and is capable of serving 60 users at one time. Using this equipment, students can receive preprogrammed lessons, lectures, stereo music, and other audio or video information. Also, students can "dial" any of the audio programs from their homes, if they have touch-tone handsets.
telephones. In this way, the audio offerings on the dial-access system are available for student use on a 24-hour seven day a week basis.

In calling from home or other "off-campus" locations, "touch-dial" 641-2381 and wait for a ring and a "click." Then dial the "*" (or "1" if the phone has no "*"), and the three numbers of the program code from the weekly schedule. If a weekly schedule of program offerings is unavailable, then "touch-dial" 111. This is the "Voice of Chester" or program information channel. Upon selecting the three-digit code of the program desired, hang up and repeat the process described above.

A television studio has been incorporated into the LMC. It is utilized principally for videotaping lessons and lectures and for transmitting films and televised instruction into the classrooms.

The LMC also is equipped with a graphic arts laboratory and photographic darkrooms. In these areas a variety of audiovisual materials are produced for student and faculty use.

Individual viewing and listening devices such as slide viewers, filmstrip projectors, eight millimeter projectors, cassette and other tape recorders are available in the LMC for independent study. In addition, a small room is equipped with a teletypewriter terminal for computer-assisted instructional purposes.

The Library-Media Center is open from 8:00 a.m. to 9:30 p.m., Monday through Thursday; 8:00 a.m. to 5:00 p.m. on Friday; and from 1:00 p.m. to 5:00 p.m. on Sunday. During these hours professional librarians and assistants are always on duty to serve students and faculty.
It is the purpose of a comprehensive student services and development program to facilitate the movement of each student toward completion of an educational objective as quickly as possible. A focus is provided for self-assessment skills which includes vocational search choice, interests, aptitudes and personal identity awareness.

The following programs and services are included in Student Services and Development:

1. **Student Information, Services and Systems**
   - a. Enrollment Services and College Relations (including admissions, registration, records, high school completion and college relations and nontraditional credit programs).
   - b. Student Information and Financial Services (including preadmission college information services, financial aid, veterans' affairs and placement).

2. **Human Development Services**
   - a. Educational Planning and Guidance
   - b. Counseling Services
   - c. Human Potential Learning Programs
   - d. Student Health Services

3. **Student Programs and Activities**
   - a. Student Union
   - b. Community Involvement Programs

4. **Minority Affairs**

5. **Student Bookstore**

6. **Intercollegiate Athletics**

**STUDENT INFORMATION SERVICES AND SYSTEMS**

Student Information, Services and Systems is a total system of interacting activities designed to plan, price, promote and distribute want-satisfying goods and services to student and potential student consumers. Also provided are forms management, records maintenance, inter-institutional articulation, financial services and precollege development programs all integrated by predetermined objectives, plans and policies.

**ENROLLMENT SERVICES AND COLLEGE RELATIONS**

This program seeks to integrate and expand all those supportive, humanistic functions essential for successful ingress, intramural interaction and development and subsequent egress from the college of all students.

The College Relations Office is responsible for the management, negotiation and continuous development of articulation agreements, for courses and programs, between the college and four-year institutions of higher learning in the state. Annual follow-up surveys of successful Bellevue Community College transfer students are conducted at four-year college-university campuses in order to acquire follow-up data to determine the efficacy of academic transfer curricula and resource services.

**STUDENT INFORMATION AND FINANCIAL SERVICES**

The Office of Student Information and Financial Services offers preadmission, veteran, placement and financial aid information and services to prospective and continuing students.

**Preadmission**

Students interested in college courses or programs can be assisted at the preadmission service desk. Applications, program brochures and informal evaluations are available.

**Veterans' Affairs**

Through the Veterans' Affairs Office, student veterans can receive assistance with the following: admissions and program information, benefit applications and procedures, tutorial assistance, financial aid and job placement and individual and group counseling.

**Placement Services**

Bellevue Community College has established professional placement service to assist its students in securing part-time or full-time employment in the community both during and upon the completion of the student's formal college program. In addition, students interested in establishing a personal set of career placement credentials which can be sent to prospective employers at the student's request should contact the College placement counselor.
FINANCIAL AID

Philosophy

Bellevue Community College believes that every individual should have the opportunity to achieve his educational goals. The College Financial Aid Office provides assistance for those who need it to the limits of the resources available. The criteria used in selecting recipients are need, scholastic standing and professional promise. The Financial Aid Office reviews each applicant's needs and attempts to assemble an individualized program which utilizes one or more of the resources available.

EMPLOYMENT

On-campus Employment

The Higher Education Act of 1965 has expanded part-time job opportunities through the College Work-Study Program. Under this federally-financed plan, the College is authorized to offer part-time work to students from homes of average or below-average incomes. Students may work up to 15 hours per week while attending classes full time. During summer vacation, 40 hours per week are allowed.

LOANS

Emergency Loans — Emergency or short-term loans are available in amounts to cover tuition only. These loans must be repaid prior to the end of the quarter in which the loan is granted. Individual repayment plans are approved for all loans. Promissory notes, signed by the borrower, are required. No loans are made for personal expenses. Students are expected to plan their yearly budget wisely and to pay fees at the time of registration.

Guaranteed Loans — An arrangement among the college, the student's bank, and a federal agency provides long-term loan assistance. This loan allows a student to borrow money for college at a low-interest rate, the federal government paying part of the interest. The loan transaction usually is made with a bank in the community where the applicant and his family are known. Information concerning the applicant's enrollment and academic status is given by the college. Repayment does not begin until after the student is graduated and becomes employable.

National Direct Student Loan Program (formerly the National Defense Student Loan Program) — An eligible student may borrow in one year a sum not exceeding $1,500. The average student loan, however, is approximately $600. Quarterly repayment of the loan begins nine months after the borrower ceases to be a full-time student and must be completed within 10 years. No interest on the loan will accrue prior to the beginning of the repayment period and interest thereafter is at the rate of three percent per year.

GRANTS

Scholarships — The college receives a limited number of scholarships from private sources and community groups each year which are awarded to qualified students. The Financial Aid Office maintains a current listing of all scholarship opportunities. Many community organizations offer scholarships or loans to students. Usually the best source of information about those available is a high school counselor.

STATE TUITION WAIVERS

Waivers of tuition based on financial need are available for students in both the College and High School Completion Programs.

EDUCATIONAL OPPORTUNITY GRANTS — Federally-supported Educational Opportunity Grants are awarded to students with exceptional financial need who would be unable to continue in school without assistance. Awards range from $200 to $1,500 a year. The award amount must be matched from other sources. For example, a student receiving a $500 Work-Study job might receive a $500 Educational Opportunity Grant. Eligible students, those who show academic or creative promise, may receive a grant for each year of higher education.
APPLICATION PROCEDURES

Step 1
Obtain a "State of Washington Uniform Community College Admission Form" from a high school counselor or from the Bellevue Community College Registration Center. Complete and submit by May 1. No financial aid awards will be made unless a student has been accepted for admission.

Step 2
Mail a completed “Parents’ Confidential Statement” (Student Financial Statement if independent or married) to the return address given on the form. This statement is required of all students.

Step 3
Students will receive written notification regarding awards beginning May 15. Applications for financial aid received after that date will be considered if funds are available.

Address all correspondence to Financial Aid Office, Bellevue Community College, Bellevue, Washington 98007.

SPECIAL PROGRAMS

Law Enforcement Education Program (LEEP)
The Department of Justice offers a loan and grant program to eligible students who are either majoring in Law Enforcement or who currently are employed by a local, state or federal law enforcement agency.

Nursing Student Loans and Scholarships
In its terms and conditions, the Nursing Student Loan Program is similar to the National Direct Student Loan Program. The three percent interest on Nursing Student Loans does not begin to accrue until nine months after the student leaves college. Repayment may be made over a period of up to 10 years. The Nursing Scholarship Program offers awards on the basis of “exceptional financial need” to students enrolled in the Nursing Education Program.

HUMAN DEVELOPMENT CENTER
The focal point for a variety of important services for Bellevue Community College students is the Human Development Center located just west of the college bookstore in D-104.

The faculty and staff of the Human Development Center work closely and directly with the entire college community in offering the following programs: Personal Counseling, Human Potential Learning, Educational Planning and Student Health.

Personal Counseling Programs
Activities in this area include individual and small group processes which focus on developmental needs in the areas of educational, career, personal, and social decision-making and problem-solving. Program Director is Bob Carlson who can be reached at 641-2213.

Human Potential Learning Programs
Activities in this area include a variety of more formalized learning experiences in which students enroll for credit. Courses and activities presently offered include self-assessment and personal development, interpersonal relationships, personal communication skills, college and career exploration, and a variety of individualized learning packages coordinated through the ID Center, which is sharing offices in the Human Development Center. Program Director of Human Potential programs is Chuck Doughty who can be reached at 641-2213.

Educational Planning Programs
This program area focuses on planning, implementation and evaluation of the college’s academic advising service. Of direct assistance to faculty, staff and students is the new educational planning specialist, Helen Kermgard, who works primarily in the educational planning area. In addition, educational planning coordinates the psychological assessment and testing activities of the Human Development staff and is preparing to offer a limited program of student follow-up research. Both Helen Kermgard and Tim Meehan, who is Director of Educational Planning, can be reached at 641-2212.

Student Health Programs
This Human Development program was begun in January, 1973 and offers three important services to the campus community: (1) educational programs in health-related areas such as birth control, venereal disease, nutrition and family planning; (2) information and referral services for dealing effectively with any health-related concern or problem; and (3) direct emergency medical treatment in cooperation with the campus Security Office. The Student Health Center is located in C-228 above the Student Center. Program Director for Student Health is Bonnie Sharp.
STUDENT PROGRAMS
AND ACTIVITIES

It is the student with his questioning mind and his youthful vigor who makes the college campus — both academically and socially — what it is today. Educators agree that the total educational experience is a composite of many things, and much of the learning process which takes place on the campus today occurs outside the classroom. It is important that the student be given the opportunity to organize and take part in campus activities which become an integral part of his development and growth.

Relevant programs and experiences are available to all students: (1) community service involvement; (2) human relations and communication labs; (3) campus, city, state politics; (4) lectures, concerts, films, symposiums, festivals, plays; (5) student operated experimental college, and (6) a student ombudsman program — drop-in service center.

New to Student Activities this year is an extension of the student union area to provide a game room, coffee house, and student den for greater variety of recreational, social, and leisure environments.

Clubs and organizations develop each year around specific interest, skills, ethnic derivation, or social action, and all students are urged to participate.

An active intramural program of team competition and sports clubs will be greatly extended through the addition of new gymnasium facilities.

Intramurals serve as one of the most active centers of esprit de corps’ on campus.

BOOKSTORE

The Bookstore offers many services to the student of Bellevue Community College and to the community as well. Textbooks, school and art supplies, magazines, clothing, jewelry, greeting cards, stationery, cigarettes and candy are all carried in the Bookstore. The Bookstore also offers a check cashing service for students ($5.00 maximum).

Bookstore hours are from 9 a.m. until 5 p.m. Monday through Friday with extended hours during the rush period of each quarter.

The Bookstore has established a refund policy for the return of textbooks. Books may be returned for full credit within two weeks of the beginning of the term if accompanied by the cash register receipt and if the books are in unmarked, new condition. Therefore, the student must have his receipt for all returns, exchanges and for the end of the quarter buy-back.

MINORITY AFFAIRS

The Minority Affairs Program at Bellevue Community College functions as an agent through which minority students and minority faculty are recruited to train and work on campus. The Director of Minority Affairs implements this program working closely with the Puget Sound Regional Minority Affairs Consortium. Minority students are aided in areas such as transportation, financial aid, tutorial and other support services, and job placement.

COLLEGE RADIO STATION

Students may participate in a variety of phases of broadcasting on KBCS-FM, the College educational radio station (announcing, engineering, production, operation, traffic control, news reporting). Courses in basic radio are available (MEDIA 141, 142, 143) but not required for participation. However, those who desire to be station operators must hold a Third Class Radiotelephone operator’s permit with broadcast endorsement.

The station broadcasts weekdays on 91.3 MHz. Studios are in House No. 2.

COLLEGE PUBLICATIONS

Students may gain experience in the field of journalism through work on the student-run newspaper, the Pax-Advocate. Interested students may concentrate on their own writing interests or may engage in formal journalism training through JOURN 141 (Newswriting Laboratory). Offices and production facilities are in House No. 2.

All students are invited to contribute stories, poems, essays and photographs to the magazine Nightshade, published once or twice a year. A small number of students edit and produce the publication. Apply to the Journalism Department if interested in editing.
DRAMA

Students enrolled in the drama classes or members of the Bellevue Community College Drama Club present plays throughout the school year. Emphasis is placed upon production as well as upon acting.

LECTURE-ARTIST SERIES

A number of noted speakers and performing artists appear throughout the year under the auspices of the Bellevue Community College Lecture-Artist Series. Admission to the programs is free and students and the general public are invited to attend.

INTERCOLLEGIATE ATHLETICS

Some 100 students participate annually in a six-sport intercollegiate athletic program at Bellevue Community College. As a member of the Northwest Athletic Association of Community Colleges Conference (NWACC), the college fields varsity teams in cross-country, basketball, golf, tennis, track and baseball. Women's athletics are anticipated for the 1972-73 year.

The Helmsmen's strong finish in the state competition for the 1971-72 season is evidence of the high quality throughout the athletic department. The BCC tennis team won the state and divisional championship; the baseball team tied for divisional championship, and golf teams each took their divisional championship and placed second in the state; cross-country placed second in the state, and the track team won the state championship.

All teams are well equipped and provided with a full staff of coaches. Head coaches are all full-time BCC staff members. In the future the BCC athletic program should be even stronger as athletic facilities on campus are now completed.

PARKING

The college provides adequate parking space for all students. Students are required to purchase and properly display parking decals for each car and park in assigned areas. Parking permits (decals) are available only at the time that a student registers and during the first week of each quarter. Students petitioning for a parking refund must return their parking decals.
CAREER PLANNING

The following section concerning career planning is presented in order to assist each student with a systematic approach in planning a program of study for a number of educational and vocational objectives which may be pursued at Bellevue Community College.

Each program presented provides the student with an orderly progression toward an educational goal which will include the fulfillment of an Associate of Arts Degree or a Certificate of Achievement from this college.

An educational goal may include one of a variety of occupational, vocational, or transfer programs.

In all instances, the student should plan carefully with the assistance of his adviser so that he may make the best possible course selections pertinent to his educational goals.

The student will observe that the suggestions contained in the various programs presented in this career planning section will make it possible for the student to learn the appropriate skills and attitudes which are essential to his goals. To insure emphasis upon the student's total personal, intellectual and cultural development, he also is encouraged to select from a varied distribution of courses outside his career area or major discipline.

COLLEGE PREMAJOR PROGRAM

The Associate of Arts in College Premajor is a transfer degree for those students either who do not wish to select a specific plan for the degree or who are interested in pursuing a specific premajor program in a given area.

Candidates enrolled in this program must satisfy all the requirements listed under the graduation requirements for the degree, Associate of Arts in College Premajor, making certain that all course credits earned under the following items one, two and four are equivalent to those offered by any one of the accredited four-year colleges or universities within the state of Washington and are accepted by them for transfer credit.

Requirements are as follows:
1. English 101 or 102 ........ 5 credits
2. A minimum of 10 credits in each of the following three subject areas (total of 30 credits):*
   a. Humanities (exclusive of English 101 or 102) **
   b. Social Science
   c. Science (including mathematics) ................. 30 credits
3. A minimum of 30 credits for the satisfaction of breadth requirements in any one of the accredited four-year colleges or universities within the state of Washington. These credits may not fulfill the distribution requirements listed under item two above ............ 30 credits
4. Electives as recommended by the student's adviser or the bulletin of the four-year college or university to which the student intends to transfer. Students may include in this elective credit option up to six physical activities credits .......... 25 credits

*Lower division major requirements may not be used to satisfy distribution requirements.

**Students with English 101 or 102 credits in excess of the five credits required may use these to meet Humanities distribution requirements.

GENERAL STUDIES PROGRAM

The Associate of Arts in General Studies is a degree for those students not planning to transfer to a four-year institution. All college credit courses regardless of course number may be applied toward the degree requirements. The requirements for the degree are as follows:

1. Completion of a minimum of 90 quarter hours.
2. A cumulative grade-point average of 2.0.
3. At least 30 of the 90 quarter credit hours required for the General Studies Degree Program must be completed in residence at Bellevue Community College, the last 10 of which are to be earned at the College immediately preceding graduation.
The accountant's work is essential to the efficient management of business enterprises. Besides being a vocation in itself, accountancy is indispensable in many other vocations such as business management, law, banking, public administration, and criminal investigation.

Two occupational programs in accounting are offered at Bellevue Community College. One leads to an Associate of Arts Degree in Accounting and the other to a Certificate of Achievement in Accounting.

**Associate Degree Program**

The two-year program is designed to provide for practical skills as well as general education. The broad educational base will facilitate advancement on the job and adaptation to future changes in the labor market. Upon successful completion of the program students are qualified for employment as junior accountants in private, public and governmental (federal, state, municipal) accounting.

**First Year**

| Credit Hours |  
| --- | --- |
| 20 Accounting |  
| 5 G BUS 101 |

DIVER CERTIFICATION PROGRAM

The Diver Certification Program is designed to train highly skilled and versatile divers. The curriculum trains engineering, technical or scientific personnel who have a need to penetrate the marine environment for work or research. The program is versatile in order to meet the many varied needs for diving techniques, and it is predicated upon the use of the most recent diving technology stressing training in environmental factors and diving safety standards. The program will develop the mental and physical aptitude to work and live for long periods in the sea. The program can accommodate candidates at varying skill levels and provides for individual development in the student’s area of special interest.

DRAFTING TECHNOLOGY

A two-year Associate Degree Program is offered by the Engineering Department. Interested students should contact the Science Division for specific details of the program.
The Early Childhood Education two-year program is designed for the student considering employment as a teacher assistant in preschools, child care centers, kindergartens, primary grades or other occupations where a knowledge of the young child is necessary. The student who completes this degree will find the door open to many employment possibilities.

The curriculum is designed to prepare the student to meet the challenge of the young child in a variety of activities including art, recreation, music, literature, dramatic play, science and field trips. Class study incorporates observation, participation and practical experience in the settings where a person will be employed. Emphasis is placed on involving the student in participation and observation from the first quarter to the last, thus giving the student a continued awareness of the child.

The field of environmental horticulture pertains to the aesthetics of outdoor surroundings—landscapes, whether found in home lawn and garden, the seaside and mountain retreats, the state and national parks, or the many diversified recreational areas.

The Environmental Horticulture Program contains three categories from which a student may select an option. These are: Landscape/Environmental Management; Turf Management, and Landscape Design. Completion of one of the major categories offered by Bellevue Community College in Environmental Horticulture will prepare students for such positions as: foreman for landscape contracting and/or maintenance firms, nurseries or garden centers; salesmen for seed, fertilizer, nursery, garden center firms and other supply houses; plant propagators; foremen, or assistant superintendents for nurseries, golf courses, cemeteries, public parks, private estates, botanical gardens, and various other public and private institutions' grounds; representatives of commercial nurseries, landscape service companies, golf course construction companies, and equipment supply dealers; landscape designers and consultants.

Students planning to enter the Environmental Horticulture Program should prepare themselves with high school agricultural sciences, biology, mathematics, chemistry and physics.

A Certificate of Completion may be awarded at the end of the first year program. A student may receive the Associate of Arts degree upon fulfillment of the second year requirements.

FASHION MERCHANDISING

Fashion Merchandising is an interdisciplinary program which provides training in the merchandising of ready-to-wear apparel and/or the construction and merchandising of custom-garments. The curriculum includes a unified combination of business, home economics and support courses.

The Fashion Merchandising Program provides the student an opportunity to work in one or more local businesses. This practical experience is designed to provide a realistic view of the opportunities available in the field of Fashion Merchandising and can be a strong factor in obtaining employment after graduation.

Graduates of the Fashion Merchandising Program will be able to construct and merchandise custom-made garments. Students will be eligible for positions as managers, buyers, salesmen and designers. Career opportunities are available in department stores, boutiques, fabric shops and self-employment.

GRAPHIC REPRODUCTION TECHNICIAN

This two-year program in Graphic Reproduction offers training to the individual so that he may be qualified in a technical area of the printing-publishing industry. Individuals will receive training in skills of preparing a printing job, the reproduction and finishing of the printed materials.

Employment in the Graphic Reproduction industry ranges from print shops in governmental agencies and private shops to large publishers of periodicals and small litho and letter shops.

Completion of this program will qualify students for employment in an industry that ranks in the top 10 of the nation's industries when measured by either the payroll or the total number of employees, and the largest industry when considering the number of establishments.
INTERIOR DECORATION

This program provides preparation for employment in the fields of interior decoration and furniture merchandising.

LAW ENFORCEMENT

This program is designed for young men and women who desire to pursue an education in the Law Enforcement profession and related fields. Many areas such as municipal, county, state and federal agencies, as well as industrial, business and international agencies provide excellent employment opportunities for Law Enforcement graduates.

The Associate Degree Program is available to those students who meet physical, mental and moral standards of the profession. Admissions to the Law Enforcement Program is subject to approval by the program chairman.
### Preservice Program

The preservice program is for men and women who wish to obtain their degree prior to entering the profession.

### In Service Program

The In Service Program is designed for Law Enforcement officers who wish to obtain their Associate Degree in Law Enforcement or who wish to further their education in their chosen profession. In general they are required to take the same Academic subjects outlined above in the Preservice Program together with approximately 30 credits in Law Enforcement subjects of their choice. With three PE credits a total of 93 credits is required for graduation. A certain number of credits from certain law enforcement training academies may be allowed in lieu of the Law Enforcement requirements for successful graduation, subject to approval by the program chairman.

Students who wish to transfer to four-year institutions or who wish to pursue courses related to the Law Enforcement profession will be given special guidance and counseling to meet their particular needs.

Substitutions for required courses may be made with permission of the program chairman to meet individual needs.

The Law Enforcement Program is currently undergoing changes and each student is advised to check with the Law Enforcement program chairman to obtain current and up-to-date information with regard to graduation requirements, course content and curriculum.

### Criminal Justice System

Special arrangements can be made for students interested in probation, parole, juvenile work, social helping agencies and related fields. See the program chairman for further information.
These two-year programs provide several directions for a student interested in library technical services, publishing, or broadcasting. In addition to possible articulation with further study at a four-year college, each program can prepare a student for employment in audiovisual operations in schools or industry, in newspaper publishing, or in radio or television broadcasting.

Media Technician

The two-year Media Technician Program is designed to train students as audiovisual media technicians in schools, business, and industry. The skills learned will include photography, organization and production of instruction materials, audio and video recording techniques, and the operation, maintenance and repair of audiovisual equipment. The two-year program sequence leads to an Associate of Arts Degree. Students successfully completing 45 credits including the required courses and six credits of approved electives qualify for a Certificate in the program.

Required Courses

Broadcasting Support Technician

This proposed program would prepare students in the various skills needed to function as support personnel in the broadcasting industry. For every on-microphone or on-camera person, another eight to 10 persons perform tasks which contribute to the broadcasting operation. Such individuals would work in broadcasting traffic departments, continuity departments, or in library departments.

Courses for this program would include:
1. Broadcasting introduction and basic processes
2. Secretarial and office skills
3. Basic audiovisual media production
4. Continuity, traffic skills and practical experience

Newspaper Support Technician

This proposed program would prepare students in the skills needed to function as support personnel in the community newspaper industry. Individuals completing this program would be prepared to perform a variety of tasks in a newspaper office from machine operating to routine writing and selling.

Courses for this program would include:
1. Secretarial and office skills
2. Basic newspaper writing and advertising skills
3. Tape command typesetting and paste-up
MID-MANAGEMENT

The mid-management program is designed to meet the growing need of business and industry for trained middle management personnel.

The program offers two options for those students who have decided upon a course of study in a specialized area: food service and marketing. These options provide the student with course work directly applicable to the field of his choice and develop employable skills in these areas. The options are flexible and can be altered to suit the needs and the background experience of the individual student. A third general business option is provided for the student who has not decided upon a definite area of specialization.

Food Service

The food service industry, which extends into restaurants, hotels, hospitals, colleges and universities, industrial food services, extended care facilities and school lunch programs offers many opportunities to qualified individuals. The primary emphasis of this program is for middle management and supervisory positions in this field.

The two-year Food Service Program leads to an Associate of Arts Degree in Food Service. For those individuals with experience in the industry there is also a one-year program leading to a Certificate of Completion. Currently the specialized courses in food service are offered during the day. A student may complete the general core requirements in business and accounting at night but should expect to complete the food service courses during the day. Work experience in the field is a requirement for graduation.

This curriculum has been designed for the student who intends to enter the food service industry upon completion of the two-year program. Students planning to enter a four-year Hotel or Restaurant Management Program upon completion of the first two years should see a food service adviser.

The Certificate of Completion Program is arranged to fit individual needs and normally requires 48 credits for completion.

HOMEC 130 (5) is a required course for those students preparing to enter food service in health care institutions.

General Business

Leading businessmen recognize that particular skills are necessary to achieve effective and efficient management in the world of business. Individuals can acquire some of these skills through a program of study in general business and management techniques. For those who plan only two years of college, this program offers a broad background of business courses necessary for entrance into any field of business and offers maximum flexibility to the student. It also is intended for the student who has not decided upon a definite area of specialization.
It is recommended that students have actual work experience in some phase of business prior to graduation. This program is designed for the student who plans to enter the business world upon completion of the program. Students planning to transfer to a four-year college or university in Business Administration should see a business adviser.

**Marketing**

This program is designed to prepare students for the many opportunities which exist in the various marketing related fields such as the retailing, wholesaling and service industries and the marketing activities of manufacturing firms. Students are trained for positions leading to careers in middle management in various organizations, as well as for independent store ownership. Specific occupations include store management, department management, merchandise buying, store operations, personal selling, advertising, product planning, marketing research and many other marketing related areas. Persons interested in the program should contact the Business Division.

**NURSING**

The demand for qualified nurses increases annually. Students who pursue this career at Bellevue Community College acquire both a general and nursing education. Upon successful completion of the two-year program in nursing the graduate will receive an Associate of Arts Degree in Nursing from Bellevue Community College and will be eligible to write the Washington State Board Examinations for licensure as a Registered Nurse. Nursing theory and clinical practice equip the graduate to give quality patient-centered nursing care.

Application for admission should be made to The Registrar, Bellevue Community College, Bellevue, WA 98007. Since the class size is limited, applications will be accepted beginning December 1 each year until the desired number has been received. An admission committee screens all applications to evaluate each applicant's potential for successful performance in and completion of the nursing program. Criteria for selection are being revised. For information regarding criteria, contact the Chairman of Nursing Education.
Admission to the program requires that the applicant be a graduate of an accredited high school with a minimum grade-point average of 2.0. In addition, the candidate's high school record must include the following courses (with a grade of "C" or above): (a) three semesters of English, (b) two semesters of mathematics, and (c) one semester of chemistry.

The Radiologic Technology Program, (X-Ray), prepares the student to become a Radiologic Technologist, (R.T.) capable of carrying out the responsibilities of the staff technologist in hospitals, clinics and in doctor's offices. This program is approved by the American Medical Association, the American Society of Radiologic Technologists and the American Registry of Radiologic Technologists and consists of seven quarters of combined class work and clinical experience, in addition to the summer session following graduation, as an intern in an affiliated hospital.

Upon completion of the program, the student fulfills the requirements for an associate degree and is eligible to write the examination for certification as a Radiologic Technologist.

Students are admitted to the program in September of each year and are an integral part of the college student body. Students in Radiologic Technology may participate in any and all phases of the college's student activities program.

Two programs in real estate are offered at Bellevue Community College. One leads to an Associate of Arts Degree in Real Estate and the other to a Certificate of Completion in Real Estate.

**Associate Degree Program**

The Associate Degree Program is primarily open to regular students interested in a real estate major. The person with an associate degree will be qualified for employment not only in real estate sales but also in the areas of real estate appraisal, property management, mortgage lending and property tax assessment.

**Certificate Program**

The Certificate Program is specifically geared for those individuals already employed and licensed in the real estate field. Designed to provide in depth instruction for those engaged in the sale of real estate, it offers an opportunity for them to increase and broaden their knowledge. The curriculum for the program consists of four required courses plus two electives. The certificate is awarded by the state and Bellevue Community College upon successful completion of the program.

RECREATION LEADERSHIP

The recreation leader may assist the professional recreation leader in planning, organizing and leading recreation activities. The student shall be prepared for positions in city and county recreation, medical institutions, industrial recreation, camping and various youth-service organizations. Students also will be prepared for entry into the upper division courses of four-year colleges or universities in preparation for the professional recreation leader, after completion of their formal education at the end of the two-year period.

SECRETARY

The Professional Secretary Program at Bellevue Community College leads to an Associate of Arts Degree. There is a constantly unfilled demand for secretaries in all phases of business, including specialized fields such as law and medicine. The student's program will vary with the amount of previous experience in typing and shorthand, and with individual objectives. Much more than proficiency in shorthand and typing is required of the secretary today. Elective courses from any area of the curriculum may thus be valuable, although the student will no doubt wish to elect work in the fields of accounting, business, economics and human relations. Students may elect to enter the cooperative work training program by special arrangement through the program chairman.

This program is designed to accommodate individual instruction, and students may enter Welding Technology at any time during the quarter. Courses prepare a student for industrial welding examinations as well as for jobs in industry as certified welders or welding technicians. Positions are available in a wide range of commercial and industrial firms including shipbuilding, aerospace, airplane, truck building and fabrication shops.

First Year

The first year consists of a series of learning experiences under the course title Vocational Welding 101. In this course sequence students will cover the following topics:

- Safety
- Property of Gases
- Welding Symbols
- Oxy-Acetylene Welding
- Cutting and Burning
- Introduction to Arc Welding
- GMA Welding

- Property of Metals
- Electrodes
- Welding Metallurgy
- Arc Welding
- Power Supplies
- PAW Welding
- GTA Welding

Note to Transfer Students

The transferability of the following courses is not guaranteed by Bellevue Community College. Students wishing to obtain information about the transferability of specific courses should contact their advisers or the Office of College Relations.
Business
ACCT 101, 102
PRACTICAL ACCOUNTING (5) (5)
Practice and procedures for reporting business transactions. Use of special journals, general ledger and subsidiary ledgers; payroll accounting; periodic adjustments, closing procedures and preparation of financial statements. (These courses are not recommended for students transferring to four-year colleges.) Prerequisite: ACCT 101 for ACCT 102.

ACCT 103
PRACTICAL ACCOUNTING (5)
Accounting procedures for corporations and branch operations: introduction to basic analysis of financial statements; fundamentals of accounting for manufacturers and cost accounting. (Not recommended for students transferring to four-year colleges.) Prerequisite: ACCT 102.

ACCT 105
PRACTICAL ACCOUNTING FOR SECRETARIES (2)
A continuation of ACCT 101 specifically designed to meet the needs of students in office professions. Prerequisite: ACCT 101.

ACCT 106
PRACTICAL ACCOUNTING FOR MARKETING STUDENTS (2)
A continuation of ACCT 101 specifically designed to meet the needs of students in marketing. Prerequisite: ACCT 101.

ACCT 120
ACCOUNTING CAREER ORIENTATION (3)
An introduction to accounting careers by examination of the various occupational opportunities in accounting.

ACCT 135, 235
CONTEMPORARY PROBLEMS IN ACCOUNTING (2) (2)
An examination of current problems present in the preparation of financial reports for business firms, nonprofit organizations, governmental bodies.

ACCT 210
FUNDAMENTALS OF ACCOUNTING (3)
Nature and social setting of accounting; uses of accounting information; introduction to basic accounting concepts; and some accounting techniques.

ACCT 215
SEMINAR IN ACCOUNTING (2)
Study of special problems in accounting and/or training of teaching assistants for ACCT 210. Prerequisite: permission of instructor.

ACCT 216
SEMINAR IN ACCOUNTING (2)
Study of special problems in accounting and/or training of teaching assistants for ACCT 220. Prerequisite: ACCT 210 and permission of instructor.

ACCT 217
SEMINAR IN ACCOUNTING (2)
Study of special problems in accounting and/or training of teaching assistants for ACCT 230. Prerequisite: ACCT 220 and permission of instructor.

ACCT 220
FUNDAMENTALS OF ACCOUNTING (3)
Basic concepts used in financial reporting; interpretation of financial statements. Prerequisite: ACCT 210.

ACCT 230
BASIC ACCOUNTING ANALYSIS (3)
Analysis and evaluation of accounting information as part of the managerial process of control, planning, and decision making. Concentrates on the use of information by those managing the business and making decisions. Prerequisite: ACCT 220 receiving a grade of "C" or better.

ACCT 240
ACCOUNTING SYSTEMS (5)
A study of accounting systems in small and medium-sized firms with emphasis on accounting records used in different types of business operation.

ACCT 250, 260
INTERMEDIATE ACCOUNTING (5) (5)
Concepts and principles underlying the presentation and interpretation of current items, investments, plant assets, long-term liabilities and stockholders' equities in financial statements. Prerequisite: permission of instructor.

ACCT 270
COST ACCOUNTING (5)
Accounting fundamentals and principles as applied to cost accounting, cost determination procedures, cost control, and cost analysis. Prerequisite: permission of instructor.
ACCT 280
FEDERAL INCOME TAXES (5)
An introduction to federal income taxes, including individual, partnership and corporation returns.

ACCT 290
ADVANCED ACCOUNTING (5)
Advanced accounting concepts and problems with emphasis on partnership, business combinations and consolidated financial statements. Prerequisite: permission of instructor.

ECONOMICS

ECON 100
INTRODUCTION TO BASIC ECONOMIC PRINCIPLES (5)
Introduction to economic thinking with special emphasis on economic issues of the present and problems the consumer faces in the market place.

ECON 140
PERSONAL FINANCE (3)
An exploration of personal budgeting, consumer economics, credit, investments, insurance, real estate, estate planning, and other areas of personal money management.

ECON 200
INTRODUCTION TO ECONOMICS (5)
A theory course on basic concepts; organization, operation, and control of the American economy; problems of inflation, unemployment, taxation, the public debt, monopoly, trade unions, and international trade; economic models (Keynes; Hicks-Hansen); American capitalism compared with communism and socialism. Eligible for Social Science transfer distribution credits unless a required part of program. Prerequisite: 30 college credits or permission of instructor.

ECON 201
PRINCIPLES OF ECONOMICS (5)
An analysis of the operation of the American economy, with emphasis on prices, wages, production, and distribution of income and wealth; problems of the world economy. Prerequisite: ECON 200 or permission of instructor. Eligible for Social Science transfer distribution credits unless a required part of program.

ECON 202
SPECIAL SEMINAR IN ECONOMICS (2)
Discussion of special problems in economics and training of teaching assistants. Prerequisite: completion of ECON 200 and permission of instructor.

ECON 211
GENERAL ECONOMICS (3)
Survey of basic principles of economics; determination of national income, price analysis and allocation of resources. Primarily for engineering and forestry students. No credit if ECON 100, 200 or 201 have been taken.

ECON 260
AMERICAN ECONOMIC HISTORY (5)
An analysis of American economic growth and change interpreted as part of the general expansion of the North Atlantic economy, 1500 to present. Stressles the historical background to contemporary American economic problems. Eligible for Social Science transfer distribution credits unless a required part of program.
GRAPHIC REPRODUCTION TECHNICIAN

G R 100
REPRODUCTION COPY PREPARATION (3)
A study of the techniques involved in the arrangement and design of materials for printing. Graphic Design (ART 205) is recommended to be taken before or concurrently with reproduction copy preparation.

G R 101
TAPE COMMAND TYPESETTING (MTST-MTSC) (5)
An in-depth study in the operating, scheduling and programming of magnetic tape composing and typesetting equipment. Application of these skills and techniques will be those used in job printing, publishing and duplicating.

G R 102
TAPE COMMAND TYPESETTING (790-744) (5)
An in-depth study in the operating, scheduling and programming of perforated tape composing and typesetting equipment. Application of these skills and techniques will be those used in job printing, publishing and duplicating.

G R 103
PROCESS CAMERA TECHNIQUES (5)
A study of the process camera processes using inspection, time and gray scale exposure and developing techniques. The later part of this program includes the making of halftones using the densitometer and exposure calculator.

G R 104
OFFSET DUPLICATOR OPERATION (5)
An introduction to offset lithography using 10 x 15 to 15 x 18 offset duplicators. The emphasis is on quality offset duplication, the ability to make all duplicator operator adjustments, and the trouble shooting of printing problems.

G R 105
NEGATIVE STRIPPING AND OFFSET PLatemaking (5)
Principles and practice of preparing process negatives into flats for metal and foil printing plates, encompassing negative scribing, multiple burns, step and repeat processes, and page and booklet layout. Also principles and operation of electrostatic, photo-direct and direct image platemaking.

G R 106
BINDERY TECHNIQUES (3)
A study of the skills of assembling, collating, folding and securing of printed materials and the operation of related equipment.

G R 201
PRINTING JOB ORGANIZATION (8)
Practical and technical training in printing job organization. Beginning with accepting a printing job, trainees will become familiar with the ordering of special papers, supplies and other printing materials in a realistic production oriented shop. The trainees will experience cost estimating, scheduling for production and arranging for outside services when necessary.

G R 202
OFFSET PRESS OPERATION (5)
A course to develop skill and proficiency in operating large offset duplicators and small offset presses with emphasis on high quality printing. To be taken in conjunction with G R 203.

G R 203
COLOR PROCESSING TECHNIQUES (5)
A study of color processing from color separation through color proofs and offset platemaking. To be taken in conjunction with G R 202.

G R 204
PRACTICUM IN GRAPHIC REPRODUCTION (8)
Practical training in production problems connected with the operation of a printing duplicating facility. Training may be either in the College graphic reproduction facility or on work release to an outside print shop, and will include the taking of inventory and purchasing.
MID-MANAGEMENT FOOD SERVICE

FDSE 90
FOOD SERVICE SEMINAR (2)
A program of on-the-job experience combined with a one-hour weekly seminar. A student may earn up to six credits a year, two each quarter. Prerequisite: permission of instructor.

FDSE 100
FOOD SERVICE ORIENTATION (5)
Historical development and organizational structure of the hospitality service industries. Course will orient students to the industry and allow them to explore the various facets.

FDSE 101
BASIC FOODS (5)
A laboratory course based upon the fundamentals of foods and their preparation, basic food chemistry, nutritive values, and basic quality standards for prepared food products. Food groups to be included: sugars; starches and cereals; fruits and vegetables; fats and oils; eggs; dairy products, meat, fish and poultry; bakery products; and food additives. Topics to be covered within each group are: definition of terms and techniques; characteristics of the food group; principles of cooking; uses of the food group in cooking, quality control and standard products.

FDSE 105
FOOD SERVICE MANAGEMENT I (5)
Course will deal with purchasing as it relates to food service operations. This includes general purchasing practices, staple products, perishable products, supplies, market availability, vendor relations and sanitation and safety standards and practices as they relate to food service industry. Prerequisite: FDSE 101 or permission of instructor.

FDSE 107
TABLE SERVICE DINING AND CATERING FOR THE GOURMET AND RESTAURANTEUR (5)
Students will operate a restaurant-type facility as their laboratory experience. Each member of the class will rotate through the positions of bus person, waiter/waitress, headwaiter, host-cashier and manager in the “front of the house” and plan, organize and prepare gourmet foods in the “back of the house” for the restaurant. There will be opportunity for buffet, banquet and individual cart service at the table. Prerequisite: permission of instructor.

FDSE 201
QUANTITY FOODS (5)
A laboratory course relating to quantity terms the principles learned in basic foods. Laboratory periods are used to further acquaint the students with production methods in quantity food preparation. Students will prepare recipes in quantity. Lectures will stress the organization of food production units, menu planning, food merchandising, cost and scheduling. Prerequisite: FDSE 101 or permission of instructor.

FDSE 205
FOOD SERVICE MANAGEMENT II (5)
Course deals with planning as it relates to the food service industry both in terms of physical and fiscal planning of new or remodeled facilities. The course allows the student to decide upon a concept in food service and then apply knowledge gained in other courses and practical experience to completely plan a food facility. This includes market studies, sales forecasting, financial projections and feasibility, facility master plan and finite planning of a portion of the facility. Prerequisite: FDSE 105 or permission of instructor.

FDSE 207
INTERNAL CONTROL (5)
Specialized course in quantity food service operational control. Items to be covered include an application of general accounting principles to the food service industry with special emphasis on the analysis and interpretation of financial statements as a tool in both planning and control; various methods of control applicable to food service operations in the areas of food, beverage and personnel. Prerequisite: ACCT 102 or permission of instructor.

FDSE 210
FOOD SERVICE MANAGEMENT III (5)
Course deals with special management problems in food service industry in supervision, sales promotion, guest relations, control and other operational problems. Prerequisite: FDSE 205 and FDSE 207 or permission of instructor.
MID-MANAGEMENT
GENERAL BUSINESS

G BUS 101
INTRODUCTION TO BUSINESS (5)
The role of business in a modern economy; its growth, structure, organization and relationship to the environment. Business firms; their objectives, functions and management. Problems of organization, decision-making, controls and related aspects.

G BUS 120
HUMAN RELATIONS (5)
A study of the dynamics of the business organization and its human resources. Attitudes are examined to develop a positive attitude toward the human element in business. Topics include: motivation, leadership, group dynamics, organization theory, participatory management and communication. The course relates the behavioral science approach to management.

G BUS 121
PERSONNEL MANAGEMENT (5)
This course concentrates on the mechanical aspects of personnel work in the business and industrial setting. Topics include: job analysis, recruitment, testing, interviewing, selection, placement, training, wage and salary administration, and performance evaluation. Labor-management relations will be studied relative to history, collective bargaining and grievance procedures. The course is conducted primarily as these subjects relate to the line manager and his role in personnel work.

G BUS 150
SMALL BUSINESS MANAGEMENT (3)
This course deals with organizing and operating a small business. Topics include: success and failure factors in small business, source of capital, record keeping and interpretation of financial statements, taxation, marketing, credits and collections, legal problems, and management principles.

G BUS 154
PRINCIPLES OF MARKETING (5)
A study of the business activities concerned with planning, pricing, promoting and distributing goods and services. Fundamental principles and business cases are combined so the student may understand more clearly the functioning of marketing in our economy and be better prepared to fill a position in the marketing field. A computer-run business game is used as a practical application of the course material. (This course was designated G BUS 254 in 1972-73.)

G BUS 201
BUSINESS LAW — LEGAL FOUNDATIONS (5)
Legal institutions and processes; law as a system of social thought and behavior, a frame of order and authority within which rival claims are resolved and compromised; legal reasoning; the interaction of law and business; the lawyer and the business firm.

G BUS 202
LAW AND BUSINESS (5)
Principles of the law of contracts, sales, personal property security, negotiable instruments, agency, partnerships and corporations.

G BUS 241
PRINCIPLES OF ORGANIZATION AND MANAGEMENT (5)
The principles of organization and management as applied to commercial and industrial enterprises. Realistic case problems in business are used to help the student apply principles to actual management problems. Prerequisite: G BUS 101 or permission of instructor.
MID-MANAGEMENT MARKETING

MKTG 97
MARKETING PROBLEMS (2)
A course designed to aid the Marketing Program student meet his particular occupational goals by working on a marketing problem project tailored to his individual needs. A total of 12 credits (two per quarter) may be accumulated. Not open to students enrolled in MKTG 98. Prerequisite: permission of instructor.

MKTG 98
MARKETING SEMINAR (2)
A program of on-the-job experience combined with a one-hour weekly seminar. Marketing program students working in an approved cooperative training station can receive up to 12 credits, two each quarter. Prerequisite: permission of instructor. Not open to students enrolled in MKTG 97.

MKTG 130
MARKETING ORIENTATION (1)
An introduction to marketing by examination of the various vocational areas concerned with marketing. Students choose a job or job area related to marketing and gather information about the job which then is discussed with the class.

MKTG 131
MARKETING — PRINCIPLES OF SALESMAINSHP (3)
A study of the principles and techniques of salesmanship as a form of persuasive communication basic to business and various types of interpersonal relationships. Sales presentations and case studies are used to develop the students persuasive capabilities.

MKTG 132
SALES TRAINING FOR PROFESSIONAL SALESMEN (3)
A course designed to improve the competencies of current salesmen or provide training for those interested in professional selling. Topics include basic selling skills, communication processes, goal setting, time management, etc.

MKTG 135
PRINCIPLES OF RETAILING (5)
The fundamental principles and practices of retail merchandising. An overview of the field of retailing is given outlining the opportunities and rewards and identifying the qualities necessary for success. A study is made of the types of retail outlets, store policies, location, layout, organization, the buying-selling functions, profit planning, operating controls, advertising and sales promotion. (This course was designated MIDMG 135 in 1971-72.)

MKTG 234
ADVERTISING (5)
The place of advertising in our society. Advertising as a marketing activity and as a communication process. The institutions and media involved in advertising and the planning, preparing and placing of advertisements. The course includes development of an advertising campaign.

MKTG 235
RETAILING MANAGEMENT (3)
This course is designed to help develop managerial capabilities useful to the planning, organizing and controlling functions within a retail business firm. Case studies of actual business problems and readings on retail management are studied in order to develop analytical and decision-making abilities.

MKTG 236
FASHION BUYING (2)
A course designed to prepare the student with the knowledge and skills necessary to effectively perform the functions concerned with buying fashion merchandise. Specific topics include customer demand, budgeting, buying plans, market trips, selection of fashion merchandise, fashion coordination, etc. When feasible the course will include a buying trip to a market.
OFFICE PROFESSIONS

OFF 96
OFFICE SEMINAR (2)
Primarily for secretarial majors — a program of on-the-job experience combined with a one-hour weekly seminar. A student may earn up to six credits. Prerequisite: permission of cooperative chairman.

OFF 101
BEGINNING TYPING (2)
Beginning course in typewriting. Cannot be taken for credit by student with one year or more of high school typing within the last two years. Instruction on IBM selectric typewriters.

OFF 102
INTERMEDIATE TYPING (3)
Prerequisite: OFF 101 or one year high school typing on electric typewriter within the last two years.

OFF 103
ADVANCED TYPING (3)
Prerequisite: OFF 102 or college typing instruction within the last two years.

OFF 104
PRODUCTION TYPING (3)
An operational course in the basic essentials of operating and scheduling of automated typesetting equipment. Prerequisite: OFF 103 or permission of instructor.

OFF 109
BUSINESS COMMUNICATIONS (3)
Composition of effective modern business letters. Typing not necessary. Lecture and discussion.

OFF 112
FILING AND RECORDS MANAGEMENT (2)
Principles of indexing and filing, practice in arranging records by alphabetic, geographic, numeric, and subject methods; systems such as Variadex, Triple-Check, and Soundex; correspondence filing, cross referencing, setting up a filing system. Records management.

OFF 115
BEGINNING GREGG SHORTHAND (5)
Cannot be taken for credit if student has had shorthand instruction within the last year. Necessary to have knowledge of typing on electric OR concurrently enrolled in a typing class.

OFF 116
INTERMEDIATE GREGG SHORTHAND (5)
Prerequisite: OFF 115 or one semester shorthand within the last year. Necessary to have knowledge of typing on electric OR concurrently enrolled in a typing class.

OFF 117
ADVANCED GREGG SHORTHAND (5)
Prerequisite: OFF 116 or one year shorthand instruction within the last year. Necessary to have knowledge of typing on electric OR concurrently enrolled in a typing class.

OFF 120
BEGINNING OFFICE MACHINES (2)
Adding and calculating machines. Basic instruction and practice in the operation of ten-key adding machines, printing and rotary calculators, and the application of these machines to business.

OFF 121
ADVANCED OFFICE MACHINES (2)
Calculating and accounting machines. Designed to develop a higher degree of proficiency and an ability to process more complex business problems. Prerequisites: OFF 120. Machines course in high school not equivalent to OFF 120.

OFF 122
DUPLICATING, REPRODUCING AND OFFSET PROCESSES (2)
Techniques of spirit, ink, offset and other methods of duplicating and reproduction. Designed to give basic skill in the preparation of copy, masters, and plates, and the operation of fluid, ink, and offset equipment. Typing ability required.

OFF 130
MACHINE TRANSCRIPTION (5)
Use of transcription machine and introduction of dictating techniques. Prerequisites: Typing ability equivalent to OFF 102 and use of the IBM Selectric.

OFF 131
ADVANCED MACHINE TRANSCRIPTION (5)
This course is designed to build and strengthen secretarial skills in machine transcription and dictation through realistic office experiences. Prerequisite: OFF 130.

OFF 140
PERSONAL DEVELOPMENT FOR THE CAREER WOMAN (2)
A study of the basic principles of make-up, hair, figure control, visual grace, wardrobe, business and social etiquette.
OFF 230
OFFICE PROCEDURES (5)
"Polishing-up course." The last course in the office professions sequence. Prerequisites: OFF 103, 120, 122, 130.

REAL ESTATE

REST 92
REAL ESTATE SEMINAR (2)
A program of on-the-job experience combined with a one-hour weekly seminar. A student may earn up to six credits a year, two each quarter. The seminar may also be used for individual study of special interest areas in the real estate field. Prerequisite: permission of instructor.

REST 100
REAL ESTATE ORIENTATION (1)
A basic orientation and introduction to the real estate industry. The course will acquaint the student with the characteristics of the various areas within the real estate industry. Areas covered will include appraisal, sales, mortgage lending and property development.

REST 140
PRINCIPLES OF REAL ESTATE (5)
This course is an overview that surveys the entire field of real estate. It encompasses legal titles and instruments, finance, valuation, government, regulations, land economics, urban land problems, and brokerage.

REST 141
REAL ESTATE FINANCE (3)
A study of the procedures and problems associated with servicing real estate loans and the institutions engaged in financing real property transactions. Analysis of practices and risks involved in financing and investing.

REST 142
REAL ESTATE APPRAISAL (3)
Reviews the principles and techniques used in estimating the value of real property. The application of cost, income and market data approaches to value.

REST 143
REAL ESTATE LAW (3)
A study of the principles of law governing the interests in real estate including acquisition, encumbrance, transfer, rights and obligations of parties, and Washington State regulations thereof.

REST 240
REAL ESTATE BUSINESS MANAGEMENT (3)
A study of practical administration of real estate brokerage, including all managerial functions with special emphasis on brokerage, budgets, sales management, sales training, and market analysis.

REST 241
REAL ESTATE ADVERTISING AND SALES (3)
A study of the basic essentials and techniques of salesmanship and advertising as it specifically relates to real estate.

REST 242
PROPERTY MANAGEMENT (3)
This course includes a study of the important functions in building management, property analysis, equipment, rental policies, vacancy and rental surveys, lease provisions, inspection, building codes, tenant relations, operating policies, and financial result analysis.

REST 243
ADVANCED REAL ESTATE APPRAISAL (3)
This course is a continuation of REST 142 and delves more deeply into the three basic approaches to estimating value with major emphasis on the income approach. Prerequisite: REST 142.
ART

The Art Department reserves the right to retain, without monetary compensation to the student, up to three pieces of a student's work from each class the student takes, for class instruction and/or display.

Prerequisites must be followed in all cases. Students in doubt about transferability of art courses from other colleges and art schools to Bellevue Community College should check with the chairman of the Art Department.

Following is an outline of art courses recommended for art majors, commercial art majors, and interior design majors (not to be confused with the Interior Decoration Program offered by the college) who plan to transfer to a four-year college or art school. First year: ART 105, 106, 107; ART 109, 110, 129. Second year: ART 201, 202, 203, plus nine credits of other art courses. Students planning to follow this sequence are urged to see an art adviser for a discussion of their plans.

ART 100
INTRODUCTION TO ART (5)
An introductory studio class integrating the basic principles of art with a variety of studio experiences in different materials and media. Recommended for nonmajors. (Three hours lecture, four hours laboratory.)

ART 105
DRAWING (3)
Students learn to observe and record graphically. Students will work on still-life and landscape, using pencil, charcoal, pen and ink, etc. (Six hours laboratory.)

ART 106
DRAWING (3)
Continuation of ART 105. Emphasis on drawing the human figure. Prerequisite: ART 105. (Six hours laboratory. Lab fee $4.00)

ART 107
DRAWING (3)
Students learn to apply skills gained in ART 105 and 106 to problems of composition in drawing. Originality and independent observation will be stressed. Prerequisite: ART 106. (Six hours laboratory.)

ART 108
MATERIALS AND TECHNIQUES OF GRAPHIC DESIGN (2)
Development of techniques, skills and knowledge of materials used in graphic design. Students will learn to prepare materials for graphic reproduction, TV and sign making. Lab fee: $3.

ART 109
DESIGN (3)
Students learn the elements and principles of two-dimensional design, with special emphasis on creative problem-solving and color theory. Students will find it helpful to take ART 129 in conjunction with this class, although this is not required. (Six hours lab)

ART 110
DESIGN (3)
A basic course emphasizing three-dimensional design. The student will develop design concepts involving mass, space, time, and light. (Six hours laboratory.) Prerequisite: ART 109. Lab fee $2.

ART 112
DESIGN — COLOR THEORY (1)
A programmed course in understanding and using color. The course is divided into two parts: the theoretical and the practical. In the practical portion, students elect color mixing using paints, or choose a project with environmental color evaluating how color is affected by light, texture, planes and space.

ART 129
ENVIRONMENTAL DESIGN (3)
The course is primarily concerned with the visual environment and how various aspects of design interrelate. Included will be discussions of the visual impact of various art disciplines: urban planning, architecture, landscape design, interior design and industrial design.

ART 130
ENVIRONMENTAL DESIGN LABORATORY (2)
Students will design environmental objects, such as park benches, signs, etc. and will be given projects relating to the planning of exterior spaces. The course will be of interest to architecture, landscape architecture, and industrial design students. Prerequisite: ART 129. May be taken simultaneously with ART 129.
ART 150
BEGINNING PHOTOGRAPHY (5)
Basic camera handling, developing, printing, and composition with black and white film. Students should own a camera with manual exposure control. They will be expected to supply their own developing tank, film, and photographic paper. (Three hours lecture, four hours laboratory.) Lab fee: $5.

ART 151
INTERMEDIATE PHOTOGRAPHY (5)
Advanced techniques in black and white photography with emphasis on the creative seeing: the play between light and dark, between soft focus and sharp focus, the use of smaller forms against larger forms, the use of cropping, etc. Discovery of personal style through the use of cameras and dark room techniques. Prerequisite: ART 150 or permission of instructor. (Three hours lecture, four hours laboratory.) Lab fee: $5.

ART 152
ADVANCED PHOTOGRAPHY (5)
Continuation of the development of a personal vision with emphasis on content. Introduction to color photography, including processing and other technical matters. Stresses creative approach to black and white and color photography. Prerequisite: ART 151. Lab fee: $6.

ART 165
DARKROOM LABORATORY TECHNIQUES (1)
Students learn basic darkroom techniques via video tapes and actual lab demonstration. Once students demonstrate competency, they have darkroom use privileges for the remainder of the quarter. Lab fee: $5.

ART 193
INDIVIDUAL PROJECTS (3)
An opportunity for first year students to learn in areas not covered by regular art classes. Students must make arrangements with the instructor they wish to work with before registering. Prerequisites: ART 105, ART 109 and permission of instructor.

ART 201
HISTORY OF WESTERN ART (5)
An introduction to art history terms and concepts. History of the art of ancient Egypt, Mesopotamia, Greece, Rome, Byzantium, and Gothic period in Europe is discussed with slide lectures.

ART 202, 203
HISTORY OF WESTERN ART (3) (3)
A descriptive survey of the art of Europe and America. ART 202: Renaissance, Baroque, and 18th Century Europe. ART 203: The 19th and 20th Centuries in Europe and the United States.

ART 205
GRAPHIC DESIGN (3)
Exploration of creative approaches to simple layout and display techniques. Design and composition of pen and brush lettering will be included. Prerequisite: ART 109. (Six hours laboratory.) Lab fee $3.

ART 246
JEWELRY DESIGN (3)
Course includes design and construction of jewelry, using copper, brass and silver. Basic metal cutting, soldering, and casting, setting of semi-precious stones is included. Prerequisite: ART 110 or permission of instructor. (Six hours laboratory.) Lab fee $5.

ART 250
TEXTILE DESIGN (3)
Introduction to textile techniques with emphasis on the design of the object. Processes include batik, tie and dye, tie and discharge, block printing and silk screening. (Six hours laboratory.) Prerequisite: ART 109 or permission of instructor. Lab fee $3.

ART 252
ADVANCED DESIGN: PLASTICS (3)
Design principles are applied to problems of forming, joining, and casting plastics. Lab fee may be charged to cover buying of plastics available only in bulk amounts. Prerequisite: ART 105, 109, 110.

ART 255
TEXTILE DESIGN (3)
Introduction to textile techniques with emphasis on the design of the object. Processes include simple weaving, stitchery, applique, macrame and rug knotting. (Six hours laboratory.) Prerequisite: ART 109 or permission of instructor.
ART 256
PAINTING (3)
An introduction to painting with instruction in modeling in light and shade, composition, color theory and technique. Prerequisite: ART 105, ART 106, and ART 109 or permission of instructor. (Six hours laboratory.)

ART 257
PAINTING (3)
A continuation of ART 256. Prerequisite: ART 256. (Six hours laboratory.)

ART 259
WATERCOLOR (3)
Painting with watercolors. Prerequisites: ART 105, ART 106 and ART 109 or permission of instructor. (Six hour laboratory)

ART 265, 266
ADVANCED DRAWING (3)
Builds on and further develops skills gained in ART 105, 106, and 107. No lab fee unless included with ART 106. Prerequisite: ART 107 for 265; ART 265 for 266.

ART 272
SCULPTURE (3)
Instruction in techniques of popular contemporary media will be given as well as guidance in composition as appropriate to individual expressive needs. Materials include metal, wood, plastics and plaster. Prerequisites: ART 105, ART 106, ART 109 and ART 110 or permission of instructor. (Six hours laboratory.) Lab fee $3.

ART 273
SCULPTURE (3)
A continuation of ART 272. Prerequisite: ART 272. (Six hours laboratory.) Lab fee $3.

ART 274
SCULPTURE (3)
A continuation of ART 273. Prerequisite: ART 273. (Six hours laboratory.) Lab fee $3.

ART 280
CERAMIC ART (3)
Students learn various pottery processes: handbuilding, potter's wheel, glazing, etc. Prerequisite: ART 105, 109, 110. Lab fee $5.

ART 293
INDIVIDUAL PROJECTS (3)
An opportunity for students to learn in areas not covered by regular art classes. Students must make arrangements with the instructor they wish to work with before registering. Prerequisite: Sophomore standing in art, ART 105, 109 and permission of instructor.

CINEMA

CINE 130
HISTORY OF THE FILM (VIDEO COURSE) (3)
A historical survey of international cinema, its origins and emergence as an art form. In combination with readings and personal projects, students view nine video lectures with accompanying film classics and may progress at their own pace. Contact with instructor is by appointment. Not open to students who have taken CINE 140.

CINE 140
ART OF THE FILM (5)
An introduction to serious film study. To develop in students a fuller understanding and appreciation of the richness and variety of cinema as an artistic medium. Work of major directors is viewed and discussed in terms of cinematic style and technique, and students are acquainted with the different genres of film, including documentary, animation. Readings in film theory and criticism.

CINE 141
BASIC FILM-MAKING I (5)
An introduction to the various stages of 8mm film production with emphasis on scripting, use of the camera, and cutting. Individual and group projects in lighting, directing, editing, framing, camera movement, opticals, camera angle, lighting, cutting. Those who intend to continue the sequence must have produced a filmable script by the end of the quarter. Suggested prerequisite: CINE 140. Lab fee $5.
CINE 142
BASIC FILM-MAKING II (5)
A course devoted to the production of those films scripted in CINE 141. Each student makes an 8mm film of from five to ten minutes length. The class is divided into production units of four or five. The unit is responsible as a group for the production, from shooting to final screening, of all of the films of its members. Every student gains experience in most aspects of production. Prerequisite: CINE 141. Lab fee $5.

CINE 250
THE FILM AND SOCIETY (5)
A seminar course examines the role of the film in mass communications as a force for shaping as well as for perpetuating social values. Special attention will be paid to controversial feature films, to the documentary as propaganda and to the techniques of visual persuasion used by TV commercials.

CINE 299
ADVANCED CINEMA WORKSHOP (5)
The course is designed to give the advanced cinema student the opportunity to work in a semi-professional capacity on the production of a 16mm sound film. In the course of the production, he learns to apply what he has learned of lighting, scripting, shooting, and editing to the practical problems of an ongoing production. In addition, he learns how to prepare film for the laboratory, the techniques of A&B editing and double system sound. Prerequisite: permission of instructor. Lab fee $10.

DRAMA

DRAMA 101
INTRODUCTION TO THE THEATRE (5)
A survey of the modern American theatre and the lively arts: television, radio, legitimate theatre, dance. A lecture-discussion course, with visitations by persons who are engaged in some phase of theatre and its broad spectrum.

DRAMA 102, 103
PLAY ANALYSIS (3) (3)
Descriptive analysis of plays, both modern and historical, to provide tools for the student to read a text creatively and critically.

DRAMA 110
THEATRE PRODUCTION (2) Max. (6)
Actual practice in rehearsal and production, with reference to performing and/or technical experience.

DRAMA 120, 121, 122
STAGECRAFT (3)
Intensive lecture, laboratory course in basic theories, techniques and equipment of stage scenery, lighting, costumes and scene painting. 120: scene construction and scene painting; 121: costume; 122: lighting and technical stage procedures. Crew work required in addition to scheduled class hours.

DRAMA 146, 147
THEATRE VOICE AND SPEECH (3) (3)
Stage vocal techniques and exercises with a concentration on practical application of these techniques for use on the stage and in other performance situations.

DRAMA 151, 152, 153
ACTING (3) (3) (3)
Theory and practice of fundamentals. 151: analysis and practice in aptitudes necessary to acting (focus, recall, imagination, characterization) through improvisation; 152: analysis and practice in rhythm, theory, stage deportment; 153: analysis and practice in styles for modern acting. Courses must be taken in conjunction with DRAMA 154, 155 and 156 respectively.

DRAMA 154, 155, 156
MOVEMENT FOR THE ACTOR I, II III (2) (2) (2)
Basic movement for the actor unified through structure and guided improvisations; use of masks in characterizations, animal rhythms, dance forms. Must be taken in conjunction with DRAMA 151, 152, 153 respectively.

DRAMA 185, 186, 187
HISTORY OF BLACK THEATRE (3) (3) (3)
A survey of the literary figures, styles and themes of black American dramatists. Intensive examination of plays by producing scenes of plays in class. DRAMA 185 covers writers from the period 1800-1900. DRAMA 186 covers writers from the period 1900-1950. DRAMA 187 covers writers from the period 1950 to present.
DRAMA 210
COMMUNITY THEATRE PRODUCTION (5)
A full-scale drama production which will provide possibilities for participation in the production as a member of the cast or technical crew. Provides experience in working with community and college personnel in the theatre. Prerequisite: permission of instructor.

DRAMA 211
CHILDREN'S THEATRE (4)
A course designed to teach potential organizers of Children's Theatre productions the skills of play selection, direction, rehearsal, publicity, and production. Focus will be on the creation of a Children's Theatre production through the utilization of non-specialized inexpensive resources. Strongly advised for students majoring in Recreation Education Drama, and Early Childhood Education.

DRAMA 212
CREATIVE DRAMATICS (5)
Analysis and application of basic principles and techniques of the creative process in informal drama. Emphasis on leader participation in creative dramatics activities. Creative dramatics involves the improvised acting of stories, ideas, and feelings through creative play; it encourages individual and social development of children and young people.

DRAMA 221, 222, 223
IMPROVISATIONAL THEATRE (3) (3) (3)
Intensive development of the voice, body and imagery responses for the actor and the nonactor. Students to be assembled into a theatre company in order to create and perform their own production. Admission by informal auditions only.

DRAMA 225
GREAT PLAYS (5)
An appraisal and analysis of great plays that formulated changes in the main current of dramatic literature and philosophy; concept, story, character, dialogue, and criticism.

DRAMA 226
CONTEMPORARY THEATRE (5)
A study of recent internationally representative plays through the appraisal and analysis of contemporary stage techniques, acting theories and practices. Emphasis will be on the analysis of local theatre productions of contemporary plays.

DRAMA 239
STAGE MAKE-UP (2)
The design and application of theatrical make-up in theory and practice.

DRAMA 243
THEATRE CLASSICS (3)
The plays of ancient Greece and of Shakespeare; a directing-acting-approach to selected classical plays for the teacher, the potential director, the student actor and those interested in the drama.

DRAMA 244
THEATRE CLASSICS (3)
A continuation of DRAMA 243.

DRAMA 227
HISTORY OF WESTERN THEATRE AND DRAMA (5)
Classic and Medieval. Analysis of theatre forms and methods of production with collateral analysis of dramatic literature and critical theories.

DRAMA 227
HISTORY OF WESTERN THEATRE AND DRAMA (5)
Renaissance and Elizabethan. Analysis of theatre forms and methods of production with collateral analysis of dramatic literature and critical theories.

DRAMA 292, 293, 294, 295
INDIVIDUAL RESEARCH (2) (3) (4) (5)
Advanced individual study in the areas of acting, stage design and directing. Prerequisite: permission of instructor.

DRAMA 297
THEATRE MANAGEMENT (5)
An introduction to the managerial/producing aspects of theatre, including budgets, personnel, bookkeeping, advertising, box office operations, facility maintenance, etc.

DRAMA 298
THEATRE MANAGEMENT (3)
Practical application of basic knowledge gained in DRAMA 297 through work in box office, house management, etc. Prerequisite: DRAMA 297.
ENGLISH

ENGL 100
DEVELOPMENTAL ENGLISH (5)
A course in basic English communication skills, its content and goals to be partly determined by the needs and goals of the participants. Emphasis falls upon writer's voice, the focus of writing, and the organization of the parts and the whole of writing. Individual help is available in mechanics.

ENGL 101
WRITTEN EXPRESSION (5)
Practice, on a more advanced level than ENGL 100, in writing clearly and effectively. Particular emphasis upon developing awareness of one's surroundings, acquiring fluency, choosing the kind of language most natural to each writer, and learning to edit the final manuscript. Prerequisite: a score of 41 of above on the Washington Pre-College Examination, grades of "C" or better in high school English, an appropriate score on the departmental placement examination or ENGL 100.

ENGL 102
WRITTEN EXPRESSION (5)
A course which emphasizes research, analytical writing techniques, and the functions of language. Prerequisite: ENGL 101 or an appropriate score on the departmental placement examination.

ENGL 110
INTRODUCTION TO LITERATURE — POETRY (5)
A broad introduction to major poets and poetic styles in English. Its primary objective is to enable the student to more fully enjoy poetry through understanding the conventions of poetic usage and structure. Equal emphasis is placed on classroom explication of poems and group discussion in order to build skill in interpretation.

ENGL 111
INTRODUCTION TO LITERATURE — DRAMA (5)
An introduction to dramatic method through representative examples of dramatic expression.

ENGL 112
INTRODUCTION TO LITERATURE — FICTION (5)
The problems and techniques of fiction with primary emphasis on the short story: the essentials out of which it grows and the means it uses to accomplish its purpose.

ENGL 150
ELEMENTARY ENGLISH FOR FOREIGN STUDENTS (5)
Concentration on pronunciation problems, basic grammatical patterns, and idioms from the point-of-view of oral practice and fluency.

ENGL 151
INTERMEDIATE ENGLISH FOR FOREIGN STUDENTS (5)
Continuation of ENGL 150 with an emphasis on basic writing.

ENGL 152
ADVANCED ENGLISH FOR FOREIGN STUDENTS (5)
Conclusion of the series intended to prepare the foreign student for regular series of English courses. Emphasis on composition, humanities, and reading. Completion of series will satisfy the foreign student English requirement.

ENGL 160
ENGLISH FOR FOREIGN STUDENTS — INTENSIVE (15)
An intensive course specifically intended to prepare the foreign student for the coming academic year. Oral and written work. This course will satisfy the foreign student English requirement. (Offered in summer.)

ENGL 198
BLACK LITERATURE: BEGINNINGS TO HARLEM RENAISSANCE (5)
Includes folk literature, slave narratives, petitions, selected poetry and short stories of Hughes, Hammon, McKay, Toomer, Schuyler and others.

ENGL 199
BLACK LITERATURE: POST HARLEM RENAISSANCE TO 1960 (5)
Selected poems, short stories, essays, and novels of Wright, Ellison, Brooks, Bontemps, Walker, Kelley.

ENGL 200
BLACK LITERATURE: 1960 TO PRESENT (5)
Extensive reading and analysis of selected writers (Williams, Baraka, Giovanni, Neal or others).

ENGL 210
INTRODUCTION TO EUROPEAN LITERATURE (5)
Intensive examination of works of fiction, drama, and poetry from European cultures. Content will vary but will be limited to 19th and 20th Century works.
ENGL 264
ENGLISH LITERATURE: BEGINNINGS THROUGH SHAKESPEARE (5)
An introduction to the major writers and writing styles of the period, including "Beowulf," representative works by Chaucer, and one or more Shakespearean plays. Recommended prerequisite: ENGL 101, ENGL 102, or a literature course in the 100 series.

ENGL 265
ENGLISH LITERATURE: DONNE THROUGH JOHNSON (5)
A survey of major literary figures, styles, and themes of the 17th and 18th Centuries, including early periodicals and the beginnings of the English novel. Included may be such figures as Milton, Dryden, Congreve, Richardson, Fielding, Goldsmith, Pope, and Swift. Recommended prerequisite: ENGL 101, ENGL 102, or a literature course in the 100 series.

ENGL 266
ENGLISH LITERATURE: BLAKE THROUGH HARDY (5)
A survey of the major Romantic and Victorian writers as they reflect the changing attitudes of their time. Recommended prerequisite: ENGL 101, ENGL 102, or a literature course in the 100 series.

ENGL 267
AMERICAN LITERATURE: BEGINNINGS THROUGH CIVIL WAR (5)
Readings from authors such as Edwards, Franklin, Thoreau, Hawthorne, Melville, Twain and others, considering their respective contributions to the American literary scene. Recommended prerequisite: ENGL 101, ENGL 102, or a literature course in the 100 series.

ENGL 268
AMERICAN LITERATURE: CIVIL WAR TO THE PRESENT (5)
Readings in modern American literature, including writers such as James, Crane, Fitzgerald, Hemingway, Eliot, Pound, Stevens, Faulkner, Frost, Bellow. Recommended prerequisite: ENGL 101, ENGL 102, or a literature course in the 100 series.

ENGL 270
REPORT WRITING (3)
Organization, development and expression of ideas with practical problems in logical and concise writing. Technical periodicals and reference works with proper bibliographical usage emphasized. Prerequisite: ENGL 101.

ENGL 271, 272
EXPOSITORY WRITING (5) (5)
A chance for further development of writing skills learned in ENGL 101 or 102. Extended practice in developing ideas and finding the prose form best suited to each subject, with emphasis upon personal essays, information and opinion papers, reviews, profiles, articles based upon interviews, and upon individual projects. ENGL 272 is planned for those wishing to continue work begun in ENGL 271. Prerequisite: ENGL 101, 102, or an equivalent for 271; ENGL 271 for 272.

ENGL 273, 274, 275
VERSE AND SHORT STORY SERIES (CREATIVE WRITING) (5) (5) (5)
Analysis of contemporary styles in poetry and fiction. Class analysis of student manuscripts.

ENGL 291, 292, 293, 294, 295
DIRECTED READING AND RESEARCH (1) (2) (3) (4) (5)
Individual study of given authors or areas of special interest by arrangement with instructor. Prerequisite: permission of instructor.

ENGLISH 299
SPECIAL STUDIES IN LITERATURE (5)
Provides opportunity for class study of literatures infrequently included in curricula and the opportunity to utilize the special knowledge of faculty on an occasional basis. Science fiction, folklore, concentration upon single figures or regional literatures, upon particular themes in literature would make appropriate subject matter for this course, to be announced before the quarter in which offered.
HUMANITIES

HUMAN 101
SURVEY OF THE 20TH CENTURY ARTS (5)
Exposure to current trends and experiments in music, art and literature, from Cubism and electronic music to Ginsberg, through lecture, reading, visiting art shows, concerts, films. A brief survey of historical styles gives perspective for study of 20th Century trends.

HUMAN 200
LINGUISTICS AND COMMUNICATION
See ANTHRO 200

JOURNALISM

JOURN 103
PHOTOJOURNALISM (3)
This course will consider photography as it is used in communications — in newspapers, magazines and advertising. Students will be expected to give birth to a picture story. All aspects of publication will be considered — news peg, feature angle, marketing, caption writing, etc. Prerequisite: ART 151 or permission of instructor.

JOURN 140
NEWSWRITING (2)
Fundamentals of reporting, interviewing, and newswriting. Includes functions of a newspaper, journalistic style, and elements of libel.

JOURN 141
NEWSWRITING LABORATORY (3)
Practice in reporting and newswriting, focused on production of the student newspaper, Bellevue Community College Pax-Advocate. Meets five hours per week. May be taken with JOURN 140. (No more than nine hours of JOURN 141 may apply toward the Associate of Arts Degree.)

JOURN 143
EDITING LABORATORY (2)
Techniques and responsibilities of newspaper editing. (Individualized instruction.) Prerequisite: permission of instructor.

JOURN 145
ADVERTISING LABORATORY (2)
Typography, paste-up, design, and sales. Practical work on student newspaper. (Individualized instruction.) Prerequisite: permission of instructor. MKTG 134 recommended.

JOURN 147
MAGAZINE EDITING LABORATORY (2)
Typography, editing techniques, book design. (Individualized instruction.) Prerequisite: permission of instructor.

JOURN 151
COMMUNITY JOURNALISM LABORATORY (5)
Practical work in community journalism involving 10 hours a week in practical experience with the staff of a local community newspaper under the supervision of one or more departmental editors. Prerequisite: JOURN 140, JOURN 141, and permission of the instructor. Enrollment only by arrangement with the Journalism Department.

JOURN 240
ADVANCED NEWSWRITING (3)
Concentration on covering special assignments, interpretative reporting. Prerequisite: JOURN 140 and JOURN 141 and permission of instructor.
LANGUAGES

FOREIGN LANGUAGE ALTERNATIVE PROGRAM (FLAP)

Students who are interested in the FLAP program will register for the language of their choice and for the designated hour and location of that section. FLAP students will be regularly enrolled members of their classes, but they may also expect greater individualization of instruction in that the instructor will design materials more congruent with their vocational objectives than with regularly enrolled students.

FLAP 101, 102, 103 (5) (5) (5)

The methods and objectives are primarily audio-lingual with practice in the language laboratory being an integral part of the course. Basic reading and writing skills are gradually introduced. Assignments designed to match up with students’ vocational objectives will be prepared in lieu of assignments prepared for the regular student. Prerequisites: 101 for 102, 102 for 103, equivalent, or instructor’s permission.

FLAP 201, 202, 203 (5) (5) (5)

Study of a foreign language as a potential tool in vocations and professions primarily through interdisciplinary courses. So far, open to the programs of Office Professions, Communications, Ski Instructor Training School, and Early Childhood Education. Prerequisites: 201 for 202, 202 for 203, equivalent, or instructor’s permission.

FRNCH 101, 102, 103

BEGINNING FRENCH (5) (5) (5)
The methods and objectives are primarily audio-lingual with practice in the language laboratory being an integral part of the course. Basic reading and writing skills are gradually introduced. Prerequisites: FRNCH 102: 101, college equivalent, one year high school French, or permission of instructor; FRNCH 103: 102, college equivalent, from one to two years high school French, or permission of instructor.

FRNCH 201

BASIC SECOND YEAR FRENCH (5)

Intensive practices in reading and writing French. Systematic review of French grammar. All practice based on selected pieces of French literature. Prerequisite: FRNCH 103 or equivalent.

FRNCH 202

INTERMEDIATE SECOND YEAR FRENCH (5)

Continuation of FRNCH 201. Prerequisite: FRNCH 201 or equivalent.

FRNCH 203

INTRODUCTION TO FRENCH LITERATURE (5)

Continuation of FRNCH 202. Discussion of general topics to develop oral fluency. Transition between reading for content on intermediate level and the critical reading ability which is required for French literature. Introduction to the problems of style, genre, and aesthetics. Prerequisite: FRNCH 202 or equivalent.

GERMN 101, 102, 103

BEGINNING GERMAN (5) (5) (5)

Methods and objectives are primarily audio-lingual. Oral practice in the language laboratory is required. Prerequisites: GERMN 102: 101, college equivalent, one year high school, or permission of instructor; GERMN 103: 102, college equivalent, from one to two years high school German, or permission of instructor.

GERMN 104

INDIVIDUALIZED FIRST-YEAR GERMAN (0-15)

In this individualized language course, the student will bear the major responsibility for his own learning. Emphasis lies on a balanced approach to the “four skills” of language learning: listening, speaking, reading, writing, with ample opportunity to engage in extra practice in any of these skills. With the help of an instructor on a one-to-one basis, the student will proceed at his own pace earning credits based on achievement: any student may earn between zero credits for no work satisfactorily completed during the quarter, to 15 credits for completing the equivalent of an entire year’s study of German in one quarter.

GERMN 201

BASIC SECOND YEAR GERMAN (5)

Intensive practices in reading and writing German. Systematic review of German grammar. All practice based on selected pieces of German literature. Free oral composition. Prerequisites: GERMN 103.

</tbody>
</table>
MASS MEDIA

MEDIA 110
UNDERSTANDING THE COMMUNICATION MEDIA (5)
Survey of Communications History: Study of individual media as to function, organization: radio broadcasting, television broadcasting, newspaper publishing.

MEDIA 115
POPULAR CULTURE AND MASS MEDIA (5)
The course will allow the student to analyze popular culture as he is exposed to it in the mass media. Through this analysis the student will gain a better understanding of the mass media world to which he is exposed daily.

MEDIA 141
BASIC BROADCASTING (3)
Develop skill in announcing and audio operation. Preparation to take FCC licensing test for Third Class Radio-Telephone Operator License.

MEDIA 142
RADIO BROADCASTING LABORATORY (3)
Practice in broadcasting, focused on operation of KBRC. Prerequisite: MEDIA 141 or permission of instructor and Radio-Telephone Third Class Operating permit with broadcast endorsement.

MEDIA 143
RADIO PRODUCTION LABORATORY (3)
Program production focused on operation of KBRC. Prerequisite: MEDIA 142 or permission of instructor and Radio-Telephone Third Class Operating permit with broadcast endorsement.

MEDIA 175
INTRODUCTION TO TV PRODUCTION (3)
This course is designed as an initial exposure to television production. It is intended for those persons who would like an opportunity to know more about television and how to work with it. The goal of the class will be to have the students produce television programs.

MEDIA 176
INSTRUCTIONAL TELEVISION PRODUCTION (3)
Advanced technique in the technical and production aspects of instructional television programming. Emphasis will be on studio and control room operation, program planning, production and direction of instructional programs. Students will produce videotapes for Media Services for utilization by various departments within the college. Prerequisite: MEDIA 175.

MEDIA 177
UTILIZATION OF TELEVISION AND VIDEO RECORDINGS IN INSTRUCTION (2)
Examines ways in which television and video recordings can be used. Includes discussion and evaluation of various video recording techniques.

MEDIA 180
INTRODUCTION TO AUDIOVISUAL MEDIA (3)
Acquaints the student with the role of audiovisual media in the teaching-learning process. Includes brief history of audiovisual movement in education, and an introduction to theories of communication, learning and perception and to the multimedia and systems approaches. Examines the strengths and limitations of each medium. Special attention is given to the newer media and technological devices and systems such as audio cassettes, videotape recordings, computer-assisted instruction, audiovisual and dial-access retrieval systems.

MEDIA 181
ORGANIZATION AND MANAGEMENT OF AUDIOVISUAL MATERIALS AND EQUIPMENT (3)
Introduces the student to the evaluation, selection, acquisition, cataloging, classification, processing, distribution and utilization of audiovisual materials. Sources of media and various methods of organizing and managing audiovisual materials and equipment are examined and evaluated.

MEDIA 182
AUDIOVISUAL EQUIPMENT — OPERATION AND MAINTENANCE (3)
Examines projection techniques, magnetic and optical sound systems and the characteristics of audiovisual equipment. Includes maintenance of audiovisual equipment, development of preventive maintenance procedures to minimize breakdowns, and application of specific equipment for specific instructional or learning situations.
MEDIA 183
AUDIOVISUAL MEDIA
PRODUCTION I (5)
Media production will cover the preparation of audio and video displays. This includes recording techniques, sound-slide shows, overhead transparencies, bulletin boards, 8 mm filming, 35mm slide preparation, ditto and other duplicating techniques.

MEDIA 184
AUDIOVISUAL MEDIA
PRODUCTION II (5)
This course is an extension of Audiovisual Media Production I. Includes multimedia presentations and more elaborate audio and visual displays. Emphasis will be placed on the production of instructional kits and mass duplication of “soft ware,” such as multilith, audio and video tape duplication. Prerequisite: MEDIA 183.

MEDIA 185
PRACTICUM IN AUDIOVISUAL MEDIA (3)
Students will be individually assigned as assistants in Media Services programs to gain practical experience in the production of instructional materials; in the operation, maintenance and repair of equipment; in photography, graphics, and television production; and in the management of audiovisual services. Prerequisite: permission of instructor.

MEDIA 186
INTRODUCTION TO AUDIOVISUAL EQUIPMENT REPAIR (3)
Includes electrical and mechanical repair of audiovisual equipment (tape recorders, projectors, record players, etc.). Also included will be some instruction in electronics. Preventive maintenance procedures will be emphasized throughout the course. Prerequisite: MEDIA 182 or permission of instructor.

MEDIA 241
RADIO NEWS BROADCASTING (3)
Writing, editing, and producing news for radio. Prerequisite: JOURN 140 and MEDIA 141 or permission of instructor.

MEDIA 242
TELEVISION NEWS (3)
Writing, editing, and producing news for television. Prerequisite: CINE 141, MEDIA 175, and MEDIA 241.

MEDIA 243
RADIO TRAFFIC AND CONTINUITY (3)
Control of radio broadcast traffic; basic continuity. Practical application on KBCS. Prerequisite: permission of instructor.

MEDIA 249
BROADCAST INTERNSHIP (5)
Ten hours a week spent working in a local broadcast outlet. By arrangement only with the Mass Media Department. Prerequisite: permission of instructor.

MUSIC
MUSIC 100
COLLEGE CHOIR (3) (Maximum six credits)
Open to all students interested in singing. Selected voices chosen by audition for various ensembles from entire choir membership. Five hours of rehearsal per week plus all scheduled rehearsals and performances. Designed to promote understanding and skills essential to group and choral singing. May be repeated for credit.

MUSIC 102
BELLEVUE COMMUNITY BAND (1) (Maximum of six credits)
An existing community band, composed of high school graduates and college students from the Bellevue area. The band meets once a week to rehearse symphonic band literature. It performs publicly several times each year. Membership for Bellevue Community College students open by consent of director of band. May be repeated for credit. Prerequisite: permission of instructor.

MUSIC 104
SMALL ENSEMBLES (2) (Maximum of 12 credits)
Woodwinds, strings, brass, stage band. Literature and performance to develop technique, independence of part, and sensitivity. Two hours minimum rehearsal per week. May be repeated for credit. Prerequisite: prior instrumental experience.

MUSIC 108, 109
COMMUNITY MUSICAL THEATER (1) (2)
A full-scale musical, opera or operetta which will provide possibilities
for participation in the production through Music, Drama or Dance Departments, experience for solo or choral work, acting and technical production. (See also DRAMA 110, 295, and DANCE 110.) Course and credit will be determined by student’s role in production. May be repeated for credit. Prerequisite: permission of instructor.

MUSIC 110, 111, 112
FIRST YEAR THEORY (5) (5) (5)
A three-quarter sequence intended primarily for music majors and other students who wish to compose or perform. In-depth study of notation and performance of rhythmic patterns, notation and handling of scales and modes, creation of chord patterns, functions and uses of tonal, modal and blues harmonies, combining melody and harmony. Eartraining a part of course. Desirable to have some performance experience on any instrument. If uncertain of ability, confer with music department. Prerequisites: MUSIC 110 or equivalent for 111; MUSIC 111 or equivalent for 112.

MUSIC 119
FUNDAMENTALS OF MUSIC (5)
A one-quarter course which covers material similar to first year theory, but in less depth. Intended primarily for nonmajors and beginners with little or no experience in reading and writing music. To provide basic skills and understanding of creative processes involved in composing and performing music. Reading and writing pitches and rhythms, chord and melody construction, playing simple melody with chordal accompaniment on piano. Students construct simple instruments and write a composition for them.

MUSIC 120
LISTENING TO MUSIC (5)
To help develop a more direct awareness of music, class emphasizes listening to recognize how composer uses the musical materials to create different effects. Studies include texture, rhythm, melodic motion and shape, harmony, sounds of instruments, how the composer organizes his materials, the function of form. Studies drawn from all styles and periods of music. Class concludes with a short historical survey of music from medieval times to present. For the general student.

MUSIC 121
MUSIC IN SEATTLE (3)
A guided tour of music of all types being performed in Seattle. Study of instruments, voices, forms, and varied uses of music accompany attendance at approximately 10 performances, which may include symphony, opera, choral, chamber music, solo recitals, jazz, folk, and rock groups, or rehearsals of these groups. Lab fee covers cost of tickets to performances. (Fee is nonrefundable). For the general student. Usually offered fall quarter only.

MUSIC 130
GROUP INSTRUCTION — PIANO (2)
Basic music reading, keyboard techniques, chording, reading of popular music chord symbols. For the beginner.

MUSIC 140
PRIVATE INSTRUCTION (1)
Private instruction with qualified teacher in instruments listed below. Fees for private study are in addition to normal college fees, and average $40 per quarter for 10 half-hour lessons, the minimum requirement per quarter. Arrangements for lessons must be made through the college music program and a permission signature from that program is required before registration. No previous experience required. Beginning through advanced instruction available in all instruments. (Maximum three credits in three quarters)

MUSIC 170
BEGINNING FOLK GUITAR (1)
Students will learn an accurate tuning method, basic left and right hand technique, the most common course for folk and popular music, and enough fundamentals of music theory and notation to be able to sing and accompany a melody from printed score.

MUSIC 170
CAREERS IN MUSIC (3)
A course designed to assist the student to explore in detail the background required, the rewards and problems, and the demand for different musical careers. In addition to general background, lectures by
guests from various professions will be combined with a project of student's choice to explore one or more careers in detail.

MUSIC 210, 211
SECOND YEAR THEORY (3) (3)
Practical writing and analysis of diatonic and chromatic harmony. Modulation with correlated keyboard and ear-training, harmonization of original melodies and figured bass. Prerequisite: MUSIC 112 or permission for 210; MUSIC 210 or permission of instructor for 211.

MUSIC 216
COMPOSITION AND ARRANGING (3)
Intended for music majors and students interested in gaining skills in composition, lyric writing and arranging. Course is designed for practical experiences in developing and properly notating original musical concepts, instrumental and vocal arranging and ultimately rehearsing and recording the students' musical scores. Prerequisite: MUSIC 110, 111, or permission of instructor.

MUSIC 230
HISTORY OF AMERICAN MUSIC (3)
An exploration of American music and composers from the first "imports" of the settlers of our country to present day informal (rock, jazz, folk) and formal (electronic, instrumental and vocal) compositions. Usually offered once a year.

MUSIC 231
HISTORY OF JAZZ (3)
Development of jazz from its origins through "jazz age" of 20's, the big bands of the "Swing Era," the development of Bop, through foundations of modern jazz to contemporary experiments of past few years. Recorded examples illustrate lectures. Usually offered once a year.

MUSIC 232
HISTORY OF ROCK (3)
Rock is studied, through lecture and recordings, from beginnings in 1954 to present day. The importance of early Rock 'n Roll as an American cultural phenomenon is contrasted with contemporary rock as international music. The class aims to achieve a musical and historical understanding of rock, and to explore why rock has succeeded in satisfying emotional and musical needs of youth while other musical forms have failed. Usually offered once a year.

MUSIC 240
PRIVATE INSTRUCTION (1)
Second year of private instruction. See description under MUSIC 140. Prerequisite: three quarters instruction in instrument at the MUSIC 100 level. (Maximum three credits in three quarters.)

MUSIC 291, 292, 293, 294, 295
INDIVIDUAL PROJECTS IN MUSIC (1) (2) (3) (4) (5)
An individual study course worked out by student and instructor in any area of music approved by instructor. At least five hours of individual consultation with instructor, with a summary paper, performance or presentation. Credit level varies with nature of project. Student must have permission of instructor supervising project before registering for course. May be repeated. Prerequisite: permission of instructor.

PHILOSOPHY

PHIL 100
INTRODUCTION TO PHILOSOPHY (5)
An introduction to the problems and history of philosophy through a careful study of some original writings of the great philosophers on issues of lasting importance.

PHIL 110
INTRODUCTION TO SOCIAL ETHICS (5)
The nature of a good social order and right social action. Examination of the concepts of human rights, civil disobedience, revolution, individualism, and collectivism.

PHIL 120
INTRODUCTION TO LOGIC (5)
A thorough study of the formal conditions of valid argumentation. The student may profitably apply this knowledge in all fields of inquiry.

PHIL 215
INTRODUCTION TO ETHICAL THEORY (5)
The appeals to custom, theology, reason, human nature and happiness as standards for the solution of moral problems are studied in Plato, Hume, Kant, Mill, Nietzsche and/or others. Prerequisite: PHIL 100 or 110 or 120 or permission of instructor.

PHIL 220
SURVEY OF THE HISTORY OF WESTERN PHILOSOPHY: GREECE AND ROME (5)
A study of the philosophy of the Pre-Socratics, Plato, Aristotle, the Stoics and Epicureans, Plotinus, and Augustine. Prerequisite: PHIL 100 or 120 or permission of instructor.
PHIL 221
SURVEY OF THE HISTORY OF WESTERN PHILOSOPHY: EUROPE AND GREAT BRITAIN (5)
A study of the philosophy of Descartes, Hobbes, Kant, and/or other modern philosophers as well as more recent and contemporary sources. Prerequisite: PHIL 100 or 120 or permission of instructor.

PHIL 250
SURVEY OF ORIENTAL PHILOSOPHY (5)
A study of the philosophy and doctrines of substance, self, nature, happiness, and morality in Hinduism, Buddhism, Taoism, and Confucianism. Prerequisite: PHIL 100 or 120 or permission of instructor.

PHIL 267
INTRODUCTION TO PHILOSOPHY OF RELIGION (5)
A systematic study of philosophical writings designed to affect the understanding of the nature of God and the relation of religion to truth and morality. Prerequisite: PHIL 100 or 120 or permission of instructor.

PHIL 280
CONFERENCE IN PHILOSOPHY (5)
Selected readings on a topic in philosophy or a philosopher of the student's choice. A paper will be written in conjunction with five to 10 hours private conference with the instructor. Prerequisite: PHIL 100 and 120 and permission of instructor.

SPEECH
SPCH 100
BASIC SPEECH IMPROVEMENT (5)
Training in the fundamentals of good speech such as organization, effective use of voice, and meaningful communication. Emphasis will be on informative speaking; three-fourths time devoted to student performance.

SPCH 140
ORAL INTERPRETATION (5)
A study relating to the analysis and performance of literature: prose, poetry, and dramatic dialogue, through which the student may enhance his perception and appreciation of the various literary forms.

SPCH 220
INTRODUCTION TO PUBLIC SPEAKING (5)
A beginning course in public speaking; preliminary selection, analysis and organization of material; audience analysis, oral style, use of visual aids, preparation and delivery of various types of speeches. Emphasis will be upon persuasive speaking. Two-thirds of time devoted to student performance.

SPCH 225
INTRODUCTION TO GROUP DISCUSSION (5)
This course will focus on understanding and utilization of interpersonal communication skills in problem-solving and fact-finding groups. Various facets of group dynamics will be explored including leadership and member group functions, conformity and deviation, cooperation, role behavior, problem-solving and fact-finding methodologies.

SPCH 249, 250, 251
READER’S THEATRE (3) (3) (3)
A study of the reader's theatre presentation style with the oral presentation of literature before audiences on and off campus.
Individual Development
INDIVIDUAL DEVELOPMENT

Bellevue Community College's newest division is the Individual Development Division. This Division's Center and its personnel provide educational guidance to help students develop personal and meaningful courses of study which are commensurate with their ability.

Improvement Skills courses are based on a high degree of interaction with Center staff. The reading-discussion core of Readings is instrumental in expanding vocabulary skills and comprehension. Career Exploration provides the opportunity for individual assessment and direct experience with employment opportunities.

The timing of instruction, as well as its content, is primarily on an individually prescribed basis, with reference to the individual student's need.

Either Pass/NC or letter grades are available. Courses above 100 transfer as Social Science electives to the University of Washington. Up to 15 credits.

ID 071-075
INDIVIDUAL IMPROVEMENT (MATHEMATIC SKILLS) (1-5)
This course is designed to assist the student needing basic skills in algebra, in preparing for other mathematics courses, or in arithmetic (formerly MATH 080). Individual testing and consultation assist the student in contracting appropriate units of study. Variable Credit.

ID 091-095
INDIVIDUAL IMPROVEMENT (COMMUNICATION SKILLS) (1-5)
Communication skills assists students who are having problems with the basic language skills — reading and writing. The course is individually designed so that each may develop language skills necessary for college level work. Variable Credit.

ID 160-169
READINGS: ON READING, THINKING, AND BECOMING (1-10)
This course is designed to assist the student develop his reading skills and thinking processes. The course deals with the pertinent issues of our times, the ideas of great men of the past and present. It also assists him in coping with his own thought processes. Variable Credit.

ID 180-189
READINGS: ON READING AND CHANGE (1-10)
This course assists the student in understanding the concepts of theories of reading and change. Pertinent applications from the literature of reading and change will be made to their own personal lives. Variable credit.

ID 172-175
COLLEGE AND CAREER EXPLORATION (2-5)
Individualized course designed to facilitate student development of a career identity. Activities designed to assist understanding of those aspects of the world of work which affects the student including resources available through higher education. Individual and small group discussions, resource classes and seminars, direct exposure to career areas, and opportunities to assess student interest, aptitude, personal preference and values. Variable Credit.

ID 192-195
VOCATIONAL AND CAREER EXPLORATION (2-5)
Course objectives generally parallel ID 172-175, for students who have completed ID 172-175, or wish to explore specific career areas in greater depth through special projects, or are unable to schedule ID 172-175. Variable Credit.

ID 291-295
INDIVIDUAL COURSES (1-5)
Individual study courses in specific subjects. Possible subject matter areas depend on the availability of instructors who will approve initial designs, consult with student on progress and evaluation, and coordinate with the ID chairman. Achievement level will determine the nature and extent of credits. Variable Credit. May be repeated.
ACTIVITY COURSES

P E 105
CANOEING (1)

P E 107
BASKETBALL (1)
Fundamentals of ball handling, passing, shooting, pivoting, dribbling; practice in basic elements of offensive and defensive play; rules.

P E 108
TENNIS (1)
Men and women. Fundamental techniques of the serve, forehand drive, backhand drive, volley, grip and footwork; rules and etiquette.

P E 110
GOLF (1)
Men and women. Fundamentals of driving, putting and approach shots; stance, grip and swing; rules and etiquette.

P E 111
INTERMEDIATE GOLF (1)
Men and women. Review and analysis of the fundamental skills of driving, pitching, chipping, and putting; trouble shot techniques; golf strategy from tee to hole; match and medal play. Prerequisite: P E 110 or golfing experience.

P E 113
FENCING (1)
Men and women. Emphasis on fundamental techniques as well as competitive bouts and judging.

P E 114
INTERMEDIATE FENCING (1)
Men and women. Intermediate Fencing techniques and strategy, knowledge of rules, and competition in outing. Prerequisite: P E 113 or permission of the instructor.

P E 115
GYMNASTICS (1)
Men and Women. Beginning through intermediate instruction is presented on all competitive events as well as tumbling and trampoline. Emphasis is placed on skill development.

P E 116
RIDING I (1)
Men and women. Basic riding includes the walk, sitting trot, posting trot and canter. Fundamentals covered are: mounting and dismounting; position of reins and hands; use of weight, hand and leg aids.

P E 117
WRESTLING (1)
Men only. Techniques of positions standing and on the mat; methods of taking an opponent to the mat, riding an opponent and securing pinning holds; rules of timing and scoring.

P E 118
VOLLEYBALL (1)
Men and women. Basic skills of serving, setting up and spiking the ball; court strategy of play in front and back courts and from the net; rules of rotations, scoring and play.

P E 119
SKATING (ICE) (1)
Men and women. Emphasis on fundamental techniques and etiquette used in skating. Laboratory experience at a designated ice arena.

P E 120
KARATE (1)
Men and women. Emphasizes the philosophy as well as the skills and etiquette of Karate. The class will stress the development of self-reliance and self-confidence.

P E 121
INTERMEDIATE KARATE (1)
Men and women. Intermediate skills and techniques of Karate. Instruction and the practice in defensive and offensive methods used in self defense.

P E 122
BADMINTON (1)
Men and women. Fundamental techniques; grips, footwork, body balance, forehand and backhand strokes, serve; rules; techniques of singles and doubles games.

P E 123
ARCHERY (1)
Men and women. Fundamental techniques of stringing and handling a bow and handling an arrow and shooting; safety and upkeep of equipment.

P E 124
BODY CONDITIONING (1)
Men and women. Exercises and routines designed to improve the body function and appearance. Concept of body mechanics and figure control to normalize body proportions. Mats, jump rope and other gym equipment and apparatus are used.
PE 125
SKIING (1)
Men and women. Fundamentals and skills in skiing. Mastery of techniques and knowledge of skiing, emphasizing its recreational phase with some instruction in competitive skiing, rules and ethics, equipment, cold weather survival and first aid.

PE 126
RIDING II (1)
Men and women. Extensive work on individual control of the horse in the walk, sitting trot, posting trot, canter and hand gallop. Stress is on correct position, leads and use of the weight, hand and leg aids. English style emphasized.

PE 127
BOWLING (1)
Men and women. Rules, bowling etiquette, scoring, equipment, footwork and ball handling techniques.

PE 128
WEIGHT TRAINING (1)
Men only. Emphasis on physical conditioning, strength development and lifting techniques.

PE 129
SAILING (1)
Men and women. Procedure for capsize, theory of sailing, points of sailing, getting underway, coming about, jibing, wearing, docking and safety procedures.

PE 130
INTERMEDIATE SAILING (1)
Men and women. Study of Aerodynamics, trimming of sheets, rules of the road and racing techniques.

PE 133
INTERMEDIATE ARCHERY (1)
Men and women. Advanced techniques of target archery, field archery and bow-hunting. Skill development for both barebow and freestyle tournament shooting. Prerequisite: PE 123 or permission of instructor.

PE 135
HIKING (1)
Men and women. Principles and techniques of basic hiking. Topics included are safety, basic equipment, survival and related areas. Taught in conjunction with summer field trips.

PE 136
BASIC MOUNTAIN CLIMBING (1)
Men and Women. Principles and techniques of rock climbing, snow climbing and glacier travel. Other topics included are clothing, equipment, map reading, first aid, foods, and camping. Weekend field trips. Students will furnish own equipment.

PE 138
RHYTHMIC EXERCISES (1)
Men and women. Emphasis on methods of figure control, relaxation and general conditioning. Exercises are performed with musical accompaniment; rope and ball routines are included.

PE 151
CONTEMPORARY DANCE I (1)
Men and women. Designed for the beginning student, this course includes basic movement and dance technique. Students will be introduced to the scope and trends of concert and theater dance. (Maximum of two credits may be earned while at the college.)

PE 152
CONTEMPORARY DANCE II (1)
Men and women. Intended for the student with previous experience in dance, this course offers contemporary dance technique plus beginning improvisation. Use of video tape will allow the student to see himself perform movement combinations.

PE 141, 241
VARSIY BASKETBALL (1) (1)
Varsity players only. Winter quarter.

PE 142, 242
VARSIY CROSS COUNTRY (1) (1)
Varsity players only. Fall quarter.

PE 144, 244
VARSIY TRACK (1) (1)
Varsity players only. Spring quarter.

PE 146, 246
VARSIY BASEBALL (1) (1)
Varsity players only. Spring quarter.

PE 147, 247
VARSIY TENNIS (1) (1)
Varsity players only. Spring quarter.

PE 148, 248
VARSIY GOLF (1) (1)
Varsity players only. Spring quarter.

PE 156
BEGINNING SWIMMING (1)
Men and women. For nonswimmers and elementary swimmers. Simple water safety techniques, development of confidence, adjustment to water, floating, treading, elementary back, back crawl, side stroke, crawl, and elementary diving. Red Cross Certificates issued.
PE 157
INTERMEDIATE SWIMMING (1)
Men and women. Review of elementary strokes, introduction of breast stroke, overarm side, turns, surface dives, underwater swimming, and diving approach. Special attention to form and endurance. Red Cross Certificates issued.

PE 168
SKIN & SCUBA DIVING (2)
Men and Women. Diving theory covering safety, physiological aspects, equipment and environment. Pool skills leading to open water orientation and certification.

HEALTH EDUCATION
HLTH 250
HEALTH SCIENCE (5)
Student involvement, health visitations in the community, discussions on drugs, health sexuality, marriage and family, emotional problems, environment, physical well-being, consumer health, communicable and degenerative diseases, and subjects selected by students.

HLTH 292
FIRST AID AND SAFETY (3)
The student may meet requirements for both standard and advanced American Red Cross First Aid certification.

OUTDOOR EDUCATION
OUTED 149
INTRODUCTION TO SKI INSTRUCTION (3)
Basic introduction to ski teaching, its terminology, and technical definitions; historical background, and theories of skiing. On-the-snow clinic during the last two weeks (includes four all-day sessions).

OUTED 149A
SKI INSTRUCTOR CONDITIONING (1)
Exercises and routines designed to improve the body function and coordination for skiing.

OUTED 150
AMERICAN SKI TECHNIQUE (2)
Strive to master the finished technical forms of American Ski Technique: on-the-snow training.

OUTED 151
APPRENTICE TRAINING FOR SKI INSTRUCTORS (3)
Directed on-the-job experience in observing and developing instructional techniques in the American method of skiing.

OUTED 152
SKI TEACHING METHODS (3)
The exercises and maneuvers used to teach a person to ski the American Ski Technique, class handling, public relations, on-the-snow training.

OUTED 249
SKI PROGRESSION ANALYSIS (3)
Analyzing ski techniques of the world, the American Ski Technique, studying various exercises. On-the-snow clinic during the last two weekends.
OUTED 250
RECOGNITION, ANALYSIS, AND CORRECTION OF SKIING ERRORS (3)
Study of equipment, terrain, physiological, psychological, technical, and mechanical aspects of skiing, on-the-snow.

OUTED 270
SKI INSTRUCTOR SEMINAR (3)
Discussion of ski mechanics, biomechanics, exercises and problems related to ski schools. On the snow four days.

OUTED 290
PNSIA CERTIFICATION EXAM (1)
On-the-snow examination for an associate or certified ski instructor. By permission only.

PROFESSIONAL COURSES

DANCE 110
DANCE PRODUCTIONS (1) (Maximum of six credits)
Laboratory course for dancers performing in operas, plays or dance productions. Experience in solo or choral work. Prerequisite: audition or permission of instructor.

DANCE 209
SKILLS AND MATERIALS OF RECREATIONAL DANCE (2)
Practice of skills in folk, square and social dance. Presentation of background, terminology and rhythmic analysis of dances. Methods of teaching and presenting dances.

DANCE 252
SKILLS AND MATERIALS OF CONTEMPORARY DANCE (2)
Designed for dance teachers, the course covers a review of basic techniques, intermediate movement combinations, ways of stimulating movement exploration, and discussion of contemporary dance and its use in other disciplines (i.e., gymnastics, theater).

P E 161
SKILLS AND MATERIALS IN LIFE SAVING (2)
Understanding of the mechanics and development of skills in lifesaving activities. Red Cross Lifesaving Certification given to those who fulfill the necessary requirements.

P E 164
SKILLS AND MATERIALS IN AQUATICS (2)
Development of techniques and skills in teaching aquatic activities of various age and skill levels.

P E 165
SKILLS AND MATERIALS IN GYMNASTICS (2)
Understanding the fundamental concepts and application of skills and techniques in the teaching of gymnastics; progressive sequence of learning and teaching gymnastic skills.

P E 166
SKILLS AND MATERIALS IN TEAM SPORTS (2)
Baseball, basketball, field hockey (women only), football, volleyball, softball, soccer, touch football — practical experience.

P E 190
INTRODUCTION TO HEALTH AND PHYSICAL EDUCATION AND RECREATION (5)
Survey of and orientation to the professional fields of physical education, health education, recreational leadership and coaching. History and philosophies; personnel qualifications, training and preparation opportunities; organizations, related fields.

P E 223
FUNDAMENTALS OF BASEBALL (3)
Application of general teaching, coaching and playing techniques for baseball with emphasis upon current concepts, materials and skills in this area. Practical experience in fundamentals of baseball and perfection of these skills.
PE 264
SKILLS AND MATERIALS IN TRACK AND FIELD AND WEIGHT TRAINING (2)
Principles of training; development of performance for each track and field event; selection of individuals for the various events, coaching philosophy, practice organization, conducting meetings and administrative problems. Principles and methods of weight training. Development of weight training programs.

PE 265
SKILLS AND MATERIALS FOR ACTIVITIES OF THE ELEMENTARY CHILD (2)
Progressive activity skills for games, relays, team activities; practical instruction; opportunity to analyze performance of children of various ages.

PE 266
SKILLS AND MATERIALS IN INDIVIDUAL AND DUAL SPORTS (2)
Archery; bowling; badminton; golf; tennis; fencing; track and field; wrestling; recreational games; practical experience.

PE 285
PUBLIC RELATIONS IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3)
Designed to develop the skills needed in meeting the taxing public and supervising employees. Major topics covered include community public relations, delegation of authority, writing newspaper releases, speaking before public groups, understanding different community attitudes and customs, and legal liabilities.

PE 290
SPORTS OFFICIATING (3)
Rules, mechanics, and procedures for competitive sports; enforcement of rules, use of signals; personal appearance and conduct, public relations duties of officials; suggestions for coaches, code of ethics, and qualifications for officials rating.

RECREATION EDUCATION
RECED 100
HISTORY AND PHILOSOPHY OF PARKS AND RECREATION (5)
Designed to give prospective park and recreation leadership students the historical and philosophical background of the total park system in the United States. Contemporary needs, problems and managerial opportunities will be studied. Field and classroom work will be given.

RECED 154
RECREATIONAL RESOURCES (3)
Directed observations of recreational resources including general and community, public, school, youth-serving agencies, hospitals, institutional and industrial organizations, etc.

RECED 240
CAMP CRAFT (3)
Training in conservation, safety, and camp craft experiences; emphasizing hiking, trailing, stalking, and route finding.

RECED 242
BACKPACKING (5)
A two and one-half week workshop during summer field trips. Topics to include organization of and materials taken on backpacking trips, care of equipment, safety, outdoor living, survival, camp craft, sanitation and cooking.

RECED 244
CAMP COUNSELING (3)
The educational and social significance of camping; qualifications and responsibilities of the counselor; planning and operating.
RECED 245
RECREATIONAL USE OF ART CRAFTS (3)
Various mediums of particular interest to age levels, hobby interests, cost of equipment and materials.

RECED 254
PLAYGROUND LEADERSHIP (5)
Motivating and conducting a diversified program; techniques; program planning and organization; operational methods. Directed on the job experience in recreational activities and program services for the enhancement of leadership techniques.

RECED 274
SOCIAL RECREATION (2)
Games for family recreation, parties, picnics, clubs, and civic centers.

RECED 290
ADAPTIVE RECREATION (3)
Study of the value of recreation for physically and socially handicapped and adaptation of recreation activities for various atypical groups. Practical experience at local social service agencies.

RECED 295
BASIC SEAMANSHIP & PILOTING (5)
An introductory course in the principles of seamanship and piloting with emphasis on professional techniques for safeguarding life and property at sea. Small craft handling; stability and seaworthiness; sea and weather; rules and regulations; safety methods and emergencies; equipment and maintenance; piloting and basic navigation. Practical applications on a marine vessel.

RECED 296
FUNDAMENTALS OF NAVIGATION (5)
Intensive study and practice of piloting and basic navigation techniques. Piloting; inland and coastwise navigation; light and buoyage systems; publications and services; charts and projections; instruments and methods; plotting and dead reckoning. Fundamentals of celestial navigation; coordinate systems; the sailings; time, sextant and observations; sight reductions and plotting.

RECED 297
INTERMEDIATE NAVIGATION (5)
Continuation of celestial navigation; nautical astronomy; sights and methods of sight reduction; special problems. History of the development of marine navigation. Electronic navigation systems; radar, radio compass, Loran, Omega, Decca, Conso-lan, satellite navigation. Prerequisite: RECED 296.

RECED 298
MARINE CLIMATOLOGY & METEOROLOGY (5)
An introduction to marine weather systems and the principles of meteorology, with particular reference to marine operations. Dynamics and distribution of world weather systems. Meteorology for mariners: basic weather dynamics, instruments and observations, forecasting and advisory systems, operational planning, heavy weather tactics.

DIVING

DIVING 100
ADVANCE DIVING I (5)
Theory covering open water rescue, search recovery, underwater exploration, underwater hunting, food care, and marine natural history for northwest divers. The course provides for 50 hours of practical open water diving experience. Prerequisite: Basic Skin & Scuba Certificate.

DIVING 150
ADVANCE DIVING II (5)
Theories and techniques of umbilical diving. Advance scuba equipment, recompression and decompression theory and applications of scientific-engineering diving. Fifty hours of practical diving experience. Prerequisite: Diving 100 or permission of the instructor.

DIVING 160
UNDERWATER PHOTOGRAPHY (3)
Fundamentals of various types of films and cameras, underwater housings, the physics of underwater light absorption, and special lighting effects will be included. Prerequisite: Basic Skin and Scuba Diving Certificate.

DIVING 200
ADVANCE DIVING III (5)
Introduction to the use of special diving systems. Theory and practical field sessions. Studying and operating hyperbaric chamber equipment. Environmental control and gas analysis. Practical experience includes the operation of undersea station systems. Prerequisite: DIVING 150 or permission of instructor.
DIVING 250
INSTRUCTOR PREP (5)
A course designed to orient the potential diving instructor to the requirements of national scuba instructor certification examining boards. The course provides for cadet classroom teaching experience, teaching of pool skills and open water conduct of diving classes. This course will prepare the diver to demonstrate his scuba teaching ability in the safest and most effective manner. Prerequisite: DIVING 150 or permission of instructor. Requires two quarters of teaching assistantship with a certified instructor. Any of the prerequisites may be waived by permission of the instructor.
BIOMEDICAL PHOTOGRAPHY

BIOMD 110
BIOMEDICAL CLINICAL PHOTOGRAPHY (15)
Handling the patient and similar prerequisites, bedside photography, studio photography, surgical operating room photography, autopsy room photography, patient's records, diagnostic cross reference filing, technical records, safety and aseptics. Prerequisite: official acceptance into the program.

BIOMD 210
BIOMEDICAL PHOTOGRAPHY AND MICROSCOPY (15)
Processing, correcting and retouching of color film, exhibit transparencies, prints and portraits. Operation of equipment for photomicrography and photomicrography to include bright field, dark field, polarized light, fluorescent light, phase contrast and interference. Prerequisite: BIOMD 110.

BIOMD 211
BIOMEDICAL MOTION PICTURE AND TV PRODUCTION (15)
Lenses, lighting, set building and arranging, location work, laboratory processes, sound mixing and recording, video tape production, multiple camera operation, script writing and presentation of exhibits. Prerequisite: BIOMD 210.

BIOLOGY

BIOL 101
GENERAL BIOLOGY (5)
Major concepts of biology as they relate to structural and functional analysis of biological organization. Includes survey of cell physiology, reproduction, genetics, growth, development, evolution and ecology. Intended as an introduction to all other life sciences. Prerequisite: BIOL 101 or permission of instructor.

BIOL 102
GENERAL BIOLOGY (5)
Survey of man's basic life processes, plant and animal phyla and animal behavior. The position of man in the biological world. Prerequisite: BIOL 101 or permission of instructor.

BIOL 114
MARINE BIOLOGY (3)
Structure, occurrence, distribution and identification of marine plants and animals in their habitats. Emphasis on ecological relationships. Prerequisite: BIOL 101 or permission of instructor.

BOTANY

BOTAN 111
ELEMENTARY BOTANY (5)
Structure, physiology and reproduction of plants with emphasis on seed producing groups.

BOTAN 112
PLANT KINGDOM (5)
An introduction to the major groups of the plant kingdom, to include structure, reproduction and theories of evolutionary development. Prerequisite: BOTAN 111 or BIOL 101.

BOTAN 113
TAXONOMY OF FLOWERING PLANTS (5)
An introduction to plant classification; field study and laboratory identification of the common plant families and the conspicuous flora of Western and Central Washington.

BOTAN 114
FIELD TAXONOMY (3)
An on-site field study of British Columbia or other regional flora.
CHEMISTRY

CHEM 101
GENERAL CHEMISTRY (5)
A simplified introduction to atomic and molecular theory. Quantitative relationships in chemical processes requiring basic mathematics skills are presented. Chemistry of solutions, gases, and solids is described. Properties of elements in terms of periodic table.

CHEM 102
GENERAL CHEMISTRY (5)
Continuation of CHEM 101. Special emphasis on organic chemistry and bio-chemistry. Prerequisite: CHEM 101 or permission of instructor.

CHEM 140
GENERAL CHEMISTRY (5)
An introduction to atomic and molecular structure; oxidation reduction reactions; stoichiometry; properties of solids, liquids, gases, solutions; acids and bases; other topics also included. Prerequisite: CHEM 101 or equivalent.

CHEM 150
GENERAL CHEMISTRY (5)
An introduction to kinetics, equilibria, thermodynamics, electrochemistry, and properties of hydrogen and oxygen along with selected topics. Prerequisite: CHEM 140 or equivalent.

CHEM 160
GENERAL CHEMISTRY (6)
A systematic study of the properties of the elements. Laboratory consists of semi-micro qualitative analysis for common cations and anions; separation and identification procedures. Prerequisite: CHEM 150 or equivalent.

CHEM 192, 196
CHEMISTRY INSTRUMENTATION
(3) (3)
An introductory course sequence in quantitative and qualitative analysis with emphasis on some contemporary instrumental techniques. Prerequisite: Two quarters of Chemistry for 192; CHEM 192 for CHEM 196.

CHEM 199
SPECIAL PROBLEMS (1 or 2, Maximum 6 credits)
Individualized work on projects in experimental chemistry. Prerequisite: Permission of chemistry instructor and two quarters of college chemistry.

ECOLOGY

ECOL 100
INTRODUCTION TO ECOLOGY (3)
A basic coverage of scientific ecological principles and an examination of the role of the natural and social sciences in relationship to ecology. Emphasis is placed on how these disciplines, guided by ecological criteria, can be used to create an improved environment.
ENGINEERING

ENGR 100
ENGINEERING ORIENTATION (1)
Lectures, discussions, and reading assignments on the functions of engineering, and the various fields of the profession. (Offered on pass-no credit basis only.)

ENGR 101
ENGINEERING GRAPHICS (3)
Orthographic projection and principles for solution of problems involving points, lines, and planes. Layout drawings, lettering and standard practices on engineering drawings. Sketching, sectional views and dimensioning.

ENGR 102
ENGINEERING GRAPHICS (3)
Continuation of ENGR 101. Introduction to basic steps in the engineering design processes. Tolerances, threads and fasteners, assembly and detail drawings. Comprehensive design project. Prerequisite: ENGR 101.

ENGR 103
APPLIED DESCRIPTIVE GEOMETRY (3)
Principles and techniques of descriptive geometry. Intersection of surfaces, plane evaluation and revolution principles. Graphical solution of engineering problems. Prerequisite: ENGR 101.

ENGR 111
ENGINEERING PROBLEMS (3)
An introduction to some fundamental principles, including dimensional analysis, theory of measurements and vector algebra. Designed to develop the ability to analyze and solve engineering problems. Instruction in effective methods of work and study, and in systematic arrangement and clear workmanship. Prerequisites: high school physics, trigonometry, and MATH 105.

ENGR 112
STATICS (4)
A fundamental and rigorous course in engineering statics using the vector notation. Prerequisites: ENGR 101, ENGR 111, and MATH 125. (MATH 125 may be taken concurrently.)

ENGR 121
PLANE SURVEYING (3)
Plane surveying methods; use of engineer's level, transit and tape; computation of bearings, plane coordinates, areas; theory of measurements and errors, and the application of probability to engineering measurements; use of stadia surveying and study of the public land system, and topographic mapping. Prerequisite: trigonometry. Corequisite: ENGR 101 or permission of instructor.

ENGR 230
DYNAMICS (4)
A general treatment of the dynamics of particles and rigid bodies using vector analysis. Kinematics, kinetics, momentum and energy principles for particles and rigid bodies. Euler's Equations of Motion. Prerequisite: ENGR 112, MATH 125, PHYS 121.

ENGINEERING TECHNOLOGY

ENGR 104
ENGINEERING TECHNOLOGY FUNDAMENTALS I — SLIDE RULE (1)
Introductory problem solving methods and format, use of slide rule for multiplication, division, square roots, ratios, trigonometry and logarithms.

ENGR 105
ENGINEERING TECHNOLOGY FUNDAMENTALS II — APPLIED PROBLEMS (3)
An introduction to fundamental engineering problems including dimensional analysis, theory of measurements and direct application of algebraic and trigonometric concepts to engineering problems. Prerequisites: ENGR 104, MATH 074; and corequisite of MATH 101.

ENGR 106
ENGINEERING TECHNOLOGY FUNDAMENTALS III — APPLIED PROBLEMS (3)
Further study of fundamental engineering problems involving use of graphing, formula rearrangement, systems of equations, quadratic equations, logarithms and exponents. Prerequisite: ENGR 104 and MATH 074.

ENGR 154
ENGINEERING TECHNOLOGY MECHANICS (5)
A study of vectors, methods of solving for forces in structures by mathematical and graphical means; use of method of joints, method of sections, friction, mass properties centroids, moment of inertia. Beams. Prerequisite: ENGR 105 or permission of instructor.
ENGRT 161
MECHANICS OF MATERIALS (4)
Introduction to stress, strain and material properties. Tension and compression, Hooke's law, temperature beam, shear and moment diagrams, section properties, centroids and moment of inertia. Bending stresses, beam deflections; use of handbooks and tables. Columns critical loads, combined loads and joints. Prerequisite: ENGR 111, ENGRT 154.

ENGRT 163
PROPERTIES OF MATERIALS (3)
Use, analysis, handling of engineering materials, mechanical, thermal, and electrical properties, microstructure, phase diagrams, elastic and plastic deformations, creep, temperature stress and strain relationship, heat testing, thermal conductivity, conductors, semi-conductors, and insulators. Prerequisites: ENGR 111. Prerequisite or corequisite: ENGRT 161 and PHYS 116.

ENGRT 180
CIVIL ENGINEERING DRAFTING (4)
A study in the preparation of plans, drawings, maps and associated techniques used in the field of civil engineering. Topics include reduction of rigid data; highway alignment problems; plan and profiles; topographic maps; hydrographic charts and property description maps. Prerequisite: ENGR 101, 103 and corequisite ENGR 102, 121.

ENGRT 230
CONSTRUCTION PRACTICES (5)
A study of construction methods, materials, equipment inspection, estimation and safety, introduction to specification codes, contracts and scheduling of typical civil engineering construction projects. Prerequisite: ENGRT 260, 266.

ENGRT 244
HYDRAULICS LABORATORY (2)
Measurement techniques, manometers, orifices, pipe flow, flow measurement; modeling Reynolds number, Froude number, laminae and turbulent flow. Open channel flow, wiers and spillways. Prerequisites: ENGR 111, ENGRT 156, ENGRT 266 or may be taken concurrently.

ENGRT 246
MATERIALS LABORATORY (3)
Taking and reduction of data, significant figures and accuracy, sampling and probability. Testing of metals, wood, and soil samples in compression tension and shear to determine strength and elastic and plastic properties. Prerequisites: ENGR 103, ENGR 111, ENGRT 161.

ENGRT 260
STRUCTURAL DRAFTING (2)
Drafting of bridge and building structures of steel, concrete and timber. Shop drawings. Prerequisite: ENGR 103, ENGR 111, ENGRT 161.

ENGRT 261
STRUCTURAL DESIGN (3)
Design of beams, columns and connections in steel, concrete and timber. Simple design of footings. Prerequisite: ENGRT 161, ENGRT 260.

ENGRT 264
INTERMEDIATE SURVEYING (3)
Design and layout of highway and railway curves, solar and stellar observations, adjustments of instruments, basic photogrammetry, use of electronic distance measuring equipment. Prerequisites: ENGR 121 or permission of instructor.

ENGRT 265
ADVANCED SURVEYING (3)
Precise leveling, including effect of earth's curvature, public land surveys, subdivision design, use of computers in traverse computations, use of photogrammetric plotting equipment. Prerequisite: ENGR 121 or permission of instructor.

ENGRT 266
HYDRAULICS (3)
Hydrostatic forces, buoyancy, metacentric computation, flow of gases and liquids in pipes, flow in open channels, orifices, wiers, stream flow culverts, basic hydrologic theory, Hazen Williams formula, Manning's formula, dimensional analysis and modeling. Prerequisites: ENGR 111, ENGRT 156, ENGRT 161.

ENGRT 267
WATER AND SEWAGE TREATMENT (3)
Hydrology, estimation of demands, runoff, storage and distribution systems, piping and channels. Introduction to design and operation of septic tanks, sewage lagoons, Imhoff tanks, trickling filters, activated sludge plants, sedimentation tanks, bar screens, sand and diatomacens earth filters, flocculation systems and chlorinators. Prerequisite: ENGRT 266.
ENGRT 290
FIELD WORK EXPERIENCE (1-5)
Field experience in the technical area of civil engineering. Arrangements
and registration must be completed prior to start of quarter. May be re-
peated for a maximum of five credits. Prerequisite: permission of instructor
only.

GEOLOGY

GEOL 101
SURVEY OF GEOLOGY (5)
A study of the physical processes
which have been important through-
out geological times, both on and be-
neath the surface, in giving the earth
its present form. Includes field and
laboratory study of minerals and rocks.

GEOL 103
GENERAL HISTORICAL
GEOLOGY (5)
Study of the geologic history of the
earth and the important life forms
which dominated each phase. Ele-
ments of stratigraphy and paleontol-
ogy. For nonmajors. Laboratory. Pre-
requisite: GEOL 101 or permission.

GEOL 106
GENERAL ECONOMIC GEOLOGY (5)
A study of the geologic formation, oc-
currence, distribution, and production
of the important industrial minerals,
coal and petroleum. Includes consid-
eration of ground water and engineer-
ing geologic problems. Identification
of important ore minerals and coals.
For nonmajors. Laboratory.

GEOL 150
FIELD GEOLOGY (3)
Basic geologic principles will be dis-
cussed and applied to pertinent areas
within the region. Field methods will
be examined to determine rock and
mineral types and the corresponding
environments of deposition, structure
and deformation. Also studies will be
the relative ages of various rock units
as determined by fossils and other
criteria.

GEOL 205
PHYSICAL GEOLOGY FOR SCIENCE
MAJORS (5)
Origin and development of minerals,
rocks, earth structures and land-forms.
Prerequisite: high school chemistry.
Two laboratories a week; field trip in
spring.

GEOL 208
GEOLOGY OF THE NORTHWEST (5)
A course in geologic processes, using
local examples to enable full understand-
ing of the evolution of present
landscapes. The historical approach
beginning with oldest rocks and moun-
tain chains. Prerequisite: GEOL 101
or permission of instructor.

GEOL 210
MINERALOGY (5)
An introduction to mineralogy includ-
ing mineral identification, elementary
crystallography, and optical theory.
Prerequisite: GEOL 101 or GEOL 205.
ENVIRONMENTAL HORTICULTURE

HORT 081, 082
MANUAL AND MECHANICAL TOOLS (3) (3)
An introduction to equipment and tools used in the industry, and a study of their care, maintenance and safety precautions. Includes the sharpening of hand tools, manual and power lawn mowers and other related equipment; also the troubleshooting and repair of small engines.

HORT 099
A SURVEY OF ENVIRONMENTAL HORTICULTURE (3)
Classes are scheduled to visit a golf course, nursery, fertilizer processing plant, a sod farm and stolon nursery, a propagator-grower, a seed processing plant, an equipment manufacturer, a spray application business, a large wholesale-retail firm, and other related horticultural businesses to study the various areas of employment opportunities, their management procedures and their integral functions within the horticulture industry.

HORT 101, 102, 103
PLANT IDENTIFICATION (3) (3) (3)
Identification of environmental plant materials used in the landscape with respect to growth form; leaf and flower structures; exposure; soil; nutrients and moisture; landscape uses; aesthetics and ecology.

HORT 111
SOILS (5)
An introduction to soils with regard to the chemical, physical, and biological properties; the conservation and management procedures for plant growth and productivity.

HORT 112
IRRIGATION AND DRAINAGE (3)
A study of the basic principles of irrigation, drainage and soil conservation with application of techniques through field observation and construction.

HORT 113
SOIL CHEMISTRY (3)
A study of the soil soluble salts and their effect on plant growth and soil structure. Includes a study of fertilizers, their sources, availability, deficiency signs and symptoms, formulations, analyses, rations, field application and cost comparisons. Prerequisite: HORT 111, CHEM 102, or special permission.

HORT 121
TURF AND TURF GRASSES (5)
A study of soils and mixes for turfs, the field preparation and planting of lawns, golf greens, etc., mowing and maintenance practices, irrigation, feeding, etc.

HORT 131
INSECTS AND INSECT CONTROL (2)
Identification of insects and related pests, their control methods and the field application of pesticides. A study of the principal animal pests of turf, trees and shrubs.

HORT 110
PSYCHOLOGY (3)
A study of the psychological aspects of human behavior, motivation, learning, perception, thinking, and decision making.

HORT 141
PLANT PROPAGATION AND GROWING PROCEDURES (3)
Propagation of plants from seeds and cuttings. Planting, balling, burlapping, transplanting, irrigation and feeding methods and related plant management practices.

HORT 142
ORNAMENTAL PRUNING (3)
Horticultural and artistic aspects of pruning, shaping and training of environmental trees and shrubs, fruit trees, berries, grapes, etc. used in the landscape or home gardens.

HORT 143
GROWING STRUCTURES (1)
The construction of plastic and glass greenhouses, lath houses, cold frames, etc. and the location, heat, light, humidity and ventilation requirements for same.

HORT 209
DENDROLOGY (3)
Classification and identification of trees; application as environmental, shade trees, street trees, specimen trees, etc.
HORT 223
TURF MANAGEMENT (5)
A study of turf construction and maintenance problems throughout the season. Includes lawns for residences, institutions, parks, etc., with special emphasis on golf courses; there will be field training.

HORT 261
PLANT DISEASES (2)
A study of trees and shrubs with respect to plant diseases, their identification, nature, causes and methods of control. The influence of environment and the role of microorganisms. Offered as needed.

HORT 291, 292, 293, 294, 295
SPECIAL PROBLEMS (1) (2) (3) (4) (5)
Current problems may be investigated by the student with the scientific approach to obtain data that may be used for future research or may be applied to the principles in the field.

LNDES 204
ADVANCED DRAWING (5)
Advanced drawing techniques, special effects, and the development of residential and commercial landscape plans, utilizing the basic elements of design. (One-hour classroom, eight hours drawing.) Offered as needed.

LNDES 205, 206
DESIGN PROBLEMS (5) (5)
The use of advanced drawing techniques applied to special design problems. (One hour classroom, eight hours drawing.) Offered as needed.

MATHEMATICS

MATH 074
INTRODUCTION TO ALGEBRA (5)
An axiomatic introduction to mathematics with an emphasis upon problem solving. Includes sets, arithmetic processes and their function in algebra, equations of one or more variables, quadratic equations, rational and real numbers. Equivalent to one year of high school algebra.

MATH 075
GEOMETRY (5)
An introduction to the methods of mathematical proof, with emphasis on the relation of geometry to other branches of mathematics. Study of points, lines, planes and three-dimensional topics. Use of deductive reasoning with direct application to geometric proofs is emphasized. Equivalent to high school geometry. Prerequisite: MATH 074 or equivalent.

MATH 101
INTERMEDIATE ALGEBRA (5)
Extended development of the axiomatic approach in a course including a study of mathematical systems, solutions of equations, inequalities, functions, exponents and logarithms, and coordinate systems. Similar to second-year algebra in high school. Prerequisite: MATH 074 or equivalent.

MATH 104
PLANE TRIGONOMETRY (3)
This course will serve both the scientific and liberal arts student. Its approach will be real number and analytical, rather than computational. Topics include the development of circular functions, multiple angle functions, inverse functions, graphs, equations, identities and applications. Similar to high school trigonometry. Prerequisite: MATH 101 or equivalent.

MATH 105
COLLEGE ALGEBRA (5)
Real and complex number systems; sets and equations; simultaneous equations and matrices; inequalities; functions and relations; algebraic, exponential and logarithm functions. Prerequisites: One and one-half years high school algebra or MATH 101.

MATH 114
ELEMENTARY COMPUTER PROGRAMMING (2)
A first course in computer programming with applications to science and engineering including flow charts, format, branching, loops, arrays, and subprograms. Prerequisite: MATH 101.

MATH 124, 125, 126
ANALYTICAL GEOMETRY AND CALCULUS (5) (5) (5)
Plane analytic geometry, differentiation of algebraic and transcendental functions, antiderivatives, definite integrals, technique of integration, vector algebra, solid analytic geometry, multiple integrals, partial derivatives, applications. Prerequisites: MATH 104 and MATH 105, or permission for MATH 124; MATH 124 for MATH 125; MATH 125 for MATH 126.
MATH 157
ELEMENTS OF CALCULUS (4)
A survey of the differential and integral calculus. Intended for students who wish only a brief course in calculus, particularly those who desire the business and social science application. No more than five credits from MATH 124 and MATH 157 may be counted toward any degree. **Prerequisite:** MATH 105.

MATH 170
THEORY OF ARITHMETIC (3)
The study of the structure of arithmetic, systems of numeration, sets, relations and number systems, and the integration of these concepts.

MATH 171
INTRODUCTION TO STATISTICAL ANALYSIS (5)
The application of statistical data and methods to business and economic problems, with emphasis on descriptive measures, statistical inference (probability, sampling, quality control), and forecasting (correlation). **Prerequisite:** College Algebra or equivalent. (Same as QM 201).

MATH 191, 192
TECHNICAL MATHEMATICS (5) (3)
A nonrigorous approach to mathematics essential in technical areas including integrated studies of functions and graphs, trigonometric functions, equation solving, systems of equations, inequalities, vectors, exponents, logarithms, and ratio and proportion. **Prerequisite:** MATH 074 or equivalent and MATH 075 or equivalent.

MATH 205
INTRODUCTION TO LINEAR ALGEBRA (5)
Methods of solving linear equations, structures and algebras of matrices and determinants, linear transformations, vectors and vector spaces. **Prerequisite:** MATH 105 or equivalent.

MATH 224
INTERMEDIATE ANALYSIS (3)
Foundations of single-variable calculus. This course is designed for students who plan to pursue theoretical mathematics. **Prerequisite:** MATH 126.

MATH 238
ELEMENTS OF DIFFERENTIAL EQUATIONS (3)
Elementary methods of solution, linear differential equations of second and higher order. **Prerequisite:** MATH 126.

NURSING
NURS 100
FUNDAMENTALS OF NURSING (8)
A study of the effects of illness on man's ability to meet his basic physiological and psycho-social needs. The learning of selected technical, interpersonal and therapeutic nursing activities concomitant to the satisfaction of these needs. **Prerequisite:** official acceptance into the program.

NURS 101, 102
MEDICAL-SURGICAL NURSING I, II (8) (8)
Theory, laboratory and clinical practice are designed to assist the student to meet the needs of patients who have common medical and/or surgical pathophysiological problems and to understand the similarities in the care of all patients, yet to recognize the differences in the needs of each. **Prerequisite:** NURS 100 for 101; NURS 101 for 102.

NURS 200
MATERNITY NURSING (6)
Theory and clinical practice are centered around the care of women going through the maternity cycle (from conception through the post-natal period), and care of the normal newborn. **Prerequisite:** NURS 102.

NURS 201
PSYCHIATRIC NURSING (6)
Theory and observation, field trips and selected clinical practice in psychiatric units, mental health clinics and community programs which will assist the student to more fully understand behavior demonstrated by persons having psychological problems in society today. **Prerequisite:** NURS 102.
NURS 202
NURSING OF CHILDREN (6)
Selected observations and experiences in caring for the well, handicapped and ill child. Concurrent theory emphasizes growth and development and the similarities and differences in the nursing care offered to adults and children. Prerequisite: NURS 102.

NURS 203
ADVANCED MEDICAL-SURGICAL NURSING (10)
This course is designed to assist the student to utilize all the knowledge and understandings, intellectual, perceptual and manual skills that she has acquired in the two-year educational program to the nursing care he/she gives to the patient. Prerequisite: NURS 202

NURS 204
TRENDS (1)
A review of current trends and developments in society and the nursing field with emphasis on their effects upon the changing role of the nurse. Prerequisite: NURS 102.

OCEANOGRAPHY
OCEAN 101
SURVEY OF OCEANOGRAPHY (5)
Origin and extent of the oceans; cause and effects of tides and currents; nature of the sea bottom; animal and plant life in the sea.

PHOTOGRAPHY
PHOTO 101
BEGINNING PHOTOGRAPHY (5)
Basic theory and technique of photographic reproduction, lighting, exposure, camera technique and film processing.

PHOTO 102
BEGINNING PHOTOGRAPHY II (5)
Continued basic theory and technique of photographic reproduction, lighting, exposure, camera technique and film processing.
PHYSICS

PHYS 100

PHYSICAL SCIENCE (5)
A nonmathematical introduction to the basic laws that govern all physical sciences. Topics include satellites, stars, galaxies, geological history of the earth, heat flow, weather, smog, wave motion, sound, music, color, light, atoms, molecules, and nuclear power. Not for science majors.

PHYS 114, 115, 116

GENERAL PHYSICS (5) (5) (5)
Designed to give the principles of physics needed in the fields of architecture, dentistry, pharmacy, medicine, oceanography, and physical education. High school trigonometry is recommended but not required if math background is strong.

Topics of PHYS 114 include: Vectors, static forces, motion, work and power, circular motion, orbits and gravity fields. Properties of solids, liquids and gas. Simple harmonic motion waves, sound, acoustics and music.

Topics in PHYS 115 include: Heat and temperature, heat transfer and the atmosphere, meteorology, thermodynamics and rocket engines. Electric fields, current laws, magnetism, alternating current, electrical equipment that can be used in homes, cars and planes. EM waves, radio, radar and TV; light as an EM wave; properties of light, lens action and optical instruments, color, polarization, diffraction, atomic spectra and the photo electric effect. Prerequisite: PHYS 114.

Topics in PHYS 116 include: The quantum theory and atomic structure.

The laser. Radioactivity, particle accelerators, the nucleus, fission and fusion, nuclear energy, elementary particles, relativity and current problems of the structure of the nucleus, the atom, molecules, the world, stars and the universe. Prerequisite: PHYS 115.

PHYS 121, 122, 123

GENERAL ENGINEERING PHYSICS (5) (5) (5)
This series of courses is designed for majors in engineering, mathematics, physics or chemistry. The fundamental principles are taught at a mathematical level that involves some calculus. Problems constitute a large part of the lab and course work. Prerequisite: MATH 124 and one year high school physics or equivalent.

Topics in PHYS 121 include: Vectors, dynamics of a particle, work, energy and power. Momentum rotation, static and dynamic systems, periodic motion and elastic properties of liquid and solids.

Topics in PHYS 122: Kinetic theory, temperature and thermal energy, heat transfer, ideal and real gases, thermodynamics. Wave motion and sound. Light as a wave, diffraction, reflection and refraction, optical systems, polarization. Quantum properties of radiation. Prerequisite: PHYS 121.

Topics in PHYS 123: Electric statics and currents, electrochemistry thermal electricity, magnetism, induction, alternating currents. EM waves, Nuclear reactions, elementary particles, theories of nuclear forces. Current theories and problems in basic physics. Prerequisite: PHYS 122.

QUALITY CONTROL

QCTRL 112
QUALITY CONTROL CONCEPTS (3)
Functions of quality control in industry, quality control concepts and techniques. Included are quality system concepts, organization, costs, new design control, incoming material control, product control, and special process studies.

QCTRL 113
INSPECTION PRINCIPLES (3)
Evolution of inspection, specifications, measurement errors, defect reporting, record systems, process control, control of discrepant material, and sampling.

QCTRL 114
STATISTICAL TECHNIQUES (3)
Probability concepts, acceptance, sampling techniques and applications, and control chart techniques and applications.

QCTRL 115
MATERIALS TESTING (3)
Introduction to materials testing theory and procedures, proper use of test methods, identification of the advantages and disadvantages of each test method.

QCTRL 116
QUALITY CONTROL DATA (3)
Types of data, recording of data, processing of data, decisions based on data, importance to economic control of quality.
QCTRL 117
QUALITY CONTROL ENGINEERING (3)
Identification of functions, responsibilities, and organization of modern industrial programs, preparation to understand, manage quality control problems. Prerequisite: QCTRL 114.

RADIOLOGIC TECHNOLOGY
RATEC 101
RADIOLOGIC TECHNOLOGY (3)
Basic radiologic technology and the types of and operation of radiology departments in hospitals. Study of the photographic effect of X rays; films, screens, chemistry of film processing, methods of processing, construction of film processing areas. Prerequisite: official acceptance into the program.

RATEC 102
RADIOGRAPHIC PHYSICS (3)
Components of X-ray circuits; tubes; X-ray equipment, design and application, troubleshooting and maintenance; test equipment, etc. Prerequisite: RATEC 101.

RATEC 103
PRINCIPLES OF RADIOGRAPHIC EXPOSURE (3)
A study of the prime factors of radiologic technique and other factors influencing radiographic technique. Prerequisite: RATEC 102.

RATEC 107
RADIOGRAPHIC POSITIONING (1)
A study of principles of positioning to include the extremities and the spine. Prerequisite: official acceptance into the program.

RATEC 108
RADIOGRAPHIC POSITIONING (1)
A study of positioning to include thoracic and abdominal cavities and routine procedures requiring special preparation (i.e., UGI, IVP, IVC, etc.) Prerequisite: RATEC 107.

RATEC 109
RADIOGRAPHIC POSITIONING (1)
A study of positioning of the skull and facial bones. Prerequisite: RATEC 108.

RATEC 111
X-RAY PRACTICUM (1)
Clinical experience in affiliated hospitals. Students perform support work under supervision (film filing, processing, etc.). Prerequisite: acceptance into the program.

RATEC 112
X-RAY PRACTICUM (1)
Clinical experience in affiliated hospitals. Students perform simple radiographic procedures under the supervision of registered technologists. Prerequisite: RATEC 111.

RATEC 113
X-RAY PRACTICUM (1)
Clinical experience in affiliated hospitals. Students perform routine radiography and mobile radiography under the supervision of registered technologists. Prerequisite: RATEC 112.

RATEC 120
NURSING PROCEDURES (1)
Basic nursing procedures to acquaint the radiologic technology student with nursing procedures and techniques used in the general care of the patient with emphasis on the role of X-ray technician in various nursing situations.
RATEC 190 — Summer Qtr, 1st Yr.
X-RAY PRACTICUM (5)
Students perform routine radiography to include mobile radiography and simple specialized procedures under the supervision of registered technologists in addition to daily film conferences for continued and additional experience in clinical atmosphere. Prerequisite: RATEC 113.

RATEC 199 — Summer Qtr — 1st Year
X-RAY PRACTICUM (5)
Students perform routine radiography to include mobile radiography and simple specialized procedures under the supervision of registered technologists in addition to daily film conferences for continued and additional experience in clinical atmosphere. Prerequisite: RATEC 113.

RATEC 205
ADVANCED RADIOGRAPHIC PROCEDURES (4)
The theory and principles of the use of contrast media in radiologic examinations; specialty areas (nuclear medicine, radiation therapy, etc.) Prerequisites: RATEC 103, RATEC 109.

RATEC 206
ADVANCED RADIOGRAPHIC EQUIPMENT (2)
A study of special procedure implementation (generators, equipment, i.e. film changers, image intensification, cine, T.V., tape, physiological monitoring). Prerequisite: RATEC 205.

RATEC 207
RADIOGRAPHIC PRINCIPLES (2)
A basic review in preparation for taking National Registry Exam. Prerequisite: RATEC 206.

RATEC 211, 212, 213, 215
X-RAY PRACTICUM (5) (5) (5) (5)
Clinic experience in affiliated hospitals. The student performs routine and special radiographic procedures as well as assisting in Radiation Therapy under the supervision of a registered technologist to develop ability to master these procedures. Prerequisites: RATEC 199 for 211; RATEC 211 for 212; RATEC 212 for 213 and RATEC 212 for 215.

VOCATIONAL WELDING
WELD 101
FULL-TIME VOCATIONAL WELDING (15)
This is a full one-year vocational welding program aimed at preparing a student for a job in industry. The course includes classroom discussions on safety, welding theory, welding metallurgy, power supplies, blueprint reading, welding symbols, and other related subjects. Students will be trained in oxy-acetylene, shielded metal arc (SMAW), gas tungsten arc (GRAW), gas metal arc (GMAW), and plasma arc (PAW) welding. Emphasis will be placed on individual progress and enrollment will be on a continuous registration basis based upon need and numerical order of application. All inquiries and applications for entry are handled through the Welding Department, either in person or by telephone (641-2321). A maximum of 45 credits may be earned.

WELD 101A
FULL-TIME VOCATIONAL WELDING (10)
Similar to Vocational Welding 101. Offered summer quarter.

WELD 201, 202, 203
WELDING SEMINAR (1)
A study in current and new welding processes. Students will be required to investigate the newest welding techniques and processes which are currently used in this area. Some laboratory work will be done on new techniques and processes.
ZOOLEGY

ZOO 111, 112
GENERAL ZOOLOGY (5) (5)
Introduction to general principles of zoology and to major groups of animals. ZOO 111: invertebrate phyla through mollusks; protoplasm and cell metabolism; Mitosis; principles of embryology; ZOO 112: annelids through chordates; gametogenesis; speciation; organ systems; evolution; ecology. Prerequisite: BIOL 101 or permission of instructor.

ZOO 113, 114
ANATOMY AND PHYSIOLOGY (5) (5)
The study of the structure and function of the cells, tissues, organs and systems of the human body. Prerequisite: BIOL 101, CHEM 101, or instructor's permission for ZOO 113. Prerequisite for ZOO 114: ZOO 113.

ZOO 199
ANATOMY AND PHYSIOLOGY — SPECIAL TOPICS SEMINAR (3)
A special topics seminar with intensive study of selected human physiological processes. Designed primarily for students in allied health programs. Prerequisite: ZOO 114 or permission of instructor.
ANTHROPOLOGY

ANTH 100
INTRODUCTORY
ANTHROPOLOGY (5)
The study of man's origins, physical character and social relations through investigation of the remains of past human life, of the divisions of the races of man, of their distribution, interrelations, and human speech and its relation to human development.

ANTH 200
INTRODUCTION TO
LINGUISTICS (5)
An introduction to the scientific study of language, semantics and communication, relationship of linguistics to human behavior and the mechanism of understanding and misunderstanding as related to the problem of communication.

ANTH 201
PHYSICAL ANTHROPOLOGY:
MAN IN NATURE (5)
(Credit given as Natural Science also)
An introduction to physical anthropology. The basic principles of human genetics, the evidence for human evolution, and the study of race.

ANTH 202
CULTURAL ANTHROPOLOGY (5)
A comparative study of man's behavior and social institutions in various human cultures around the world. Ethnographic studies will be used to illustrate both the unity and diversity of the ways of men in different cultures.

ANTH 205
PRINCIPLES OF
ARCHEOLOGY (5)
The aims of archeology and methods of reconstructing prehistory. World culture history as shown by archeological data.

ANTH 210
INDIANS OF NORTH AMERICA (5)
Analysis of the Indian groups of North American Continent, including Indians of the Eastern Woodlands, Great Plains, Southwest, California, Great Basin, Northwest Coast, McKenzie area and Eskimos. Study of their cultures before they were significantly influenced by non-Indians: i.e., their language, clothing and housing, religion, social structure, tools and technology, economy.

ANTH 254
ANTHROPOLOGY AND WORLD
PROBLEMS (5)
Data and techniques of physical and cultural anthropology applies to the solution of social and political problems. Particular emphasis on anthropology as a means of exploring and better understanding the conditions of accelerated social change in today's world. Prerequisite: any previous course in anthropology.

ANTH 280
SEMINAR IN ANTHROPOLOGY (5)
Investigation of a particular topic in anthropology. Each time the seminar is offered a subject such as methods in cultural anthropology, primitive religion, modern American culture, etc., will be dealt with in depth through readings, lectures and discussion. Prerequisite: 10 credits in Anthropology and permission of the instructor.

ANTH 290
INTRODUCTION TO CULTURE
AND PERSONALITY (5)
A survey of the field concerned with the interaction of culture and personality and the psychological study of cultures. The basic concepts and methods of this sub-field of anthropology will be illustrated through specific studies. Prerequisite: ANTH 202 and PSYCH 100 or permission of the instructor.

ANTH 296, 297, 298, 299
SPECIAL PROJECTS IN
ANTHROPOLOGY (2) (3) (4) (5)
Supervised reading and/or research in selected areas in anthropology. Prerequisite: permission of instructor.
EARLY CHILDHOOD EDUCATION

EC ED 171
INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3)
An introduction to the theories and practices of Early Childhood Education. Observations in preschools, day care centers, Headstart agencies, Kindergartens and elementary schools. Two hours lecture and two hours observation.

EC ED 172
FUNDAMENTALS OF EARLY CHILDHOOD EDUCATION (5)
Materials, methods and professional practices relevant to early childhood education. Consideration of the influence of the cultural environment on the developing child. Three hours lecture-discussion, four hours directed supervision.

EC ED 181
CHILDREN'S CREATIVE ACTIVITIES (5)
Practical aspects of planning, selecting, preparing and presenting creative curriculum materials and activities to the young child. Three hours lecture and four hours directed participation.

EC ED 183
ART EXPERIENCES FOR EARLY CHILDHOOD EDUCATION (3)
A study of art in the development of the young child. Experiences in working with various media and materials as used with the young child. Lecture, discussion and participation are included.

EC ED 185
INSTRUCTIONAL AIDS (5)
A basic course designed to acquaint students with the new instructional materials and media used in the classrooms for early childhood education. Students will become skilled in the use of audio-visual aids and some office equipment. Four hours lecture and two hours directed participation.

EC ED 191, 192, 193
PRACTICUM (5) (5) (5)
Supervised learning experiences in a specific school situation at the primary levels or preschool, day care center, or Headstart agency. Participation will be closely supervised by a qualified instructor. Seven hours directed participation; one and one-half hours lecture. Prerequisite: five hours in EC ED or permission of instructor.

EC ED 201
PARENT EDUCATION (3)
A lecture and discussion class in interviewing techniques, emphasizing the development of competency in parent contacts. Skills to involve the parent in understanding the child's home and school environment. Use of community resources, referral agencies.

EC ED 203
DAY CARE (3)
Supervised care for the child from two and one-half to five years of age. The parent/student will participate in the child care center. A weekly class will involve the parent/student in understanding the child and developing techniques for effective home and family living. (One and one-half hours lecture, three hours laboratory, directed participation.) Use of center for up to 15 hours per week. Lab fee. Prerequisite: permission of instructor.

EC ED 205
DAY CARE (5)
Supervised care for the child from two and one-half to five years of age. The parent/student will participate in the child care center. A weekly class will involve the parent/student in understanding the child and developing techniques for effective home and family living. (One and one-half hours lecture, seven hours laboratory, directed participation.) Full use of the center. Lab fee. Prerequisite: permission of instructor.

EC ED 210
TEACHERS INTRODUCTION TO MANAGEMENT OF AUXILIARY HELPERS IN THE CLASSROOM (1)
A short course designed to assist teachers with the task of training students enrolled in Early Childhood Education programs to become aides, assistants, associates or nursery school and day care teachers. The teachers will have the assistance of the college instructor in an on-the-job training program and will learn the skills for managing auxiliary helpers in the classroom.
EC ED 293
BASIC TECHNIQUES & NEW IDEAS FOR THE PRESCHOOL TEACHER (3)
Class will explore fundamental aspects of good teaching and preschool techniques. Observations, lectures, demonstration, films and discussion will be included. Special topics will explore teacher attitudes and new approaches in the field. Resource speakers will include transitions, music, puppetry, science, and special techniques with the individual child.

EC ED 295
SPECIAL TOPICS IN EARLY CHILDHOOD EDUCATION (5)
A study of selected topics or approved work experience in the field of Early Childhood Education. Prerequisites: Early Childhood Education major and permission of instructor.

EC ED 296
SPECIAL SEMINAR IN EARLY CHILDHOOD EDUCATION (5)
A study of selected topics or special seminars in Early Childhood Education. Prerequisite: EC ED major and permission of instructor.

EDUCATION
EDUC 110
INTRODUCTION TO EDUCATION (5)
An introduction to the history, development, purposes, and processes of education. Class sessions and laboratory experiences are used to clarify and focus feeling and thought involved in the teaching-learning process.

GEOGRAPHY
GEOG 100
INTRODUCTION TO GEOGRAPHY (5)
A survey of the concepts and methods of geography, examining man's relationship to his environment. Selected geographic problems focusing on urbanism, population, and man's changing use of the earth's lands and resources.

GEOG 200
HUMAN GEOGRAPHY (5)

GEOG 207
ECONOMIC GEOGRAPHY (5)
An introduction to the areal distribution of man's economic activities on the face of the earth and impact on the environment. A consideration of the geographical aspects of production, exchange and consumption of goods, with emphasis upon resource use, agriculture, industrialization and urbanism.
HISTORY

HIST 101
HISTORY OF CIVILIZATION: THE GREAT CULTURAL TRADITIONS (5)
The historic foundation of civilizations — Mesopotamia, Egypt, India, China; economy, society, government, religion, and culture; the elaboration of culture and institutions in Greece, Rome, and the Orient; Christianity and the beginning of civilization in Western Europe; early medieval civilization in the West.

HIST 102
HISTORY OF CIVILIZATION: THE WESTERN TRADITIONS IN WORLD CIVILIZATION (5)
The beginning of modern civilization; the Renaissance; the Protestant Revolt, the state commercial revolution and mercantilism; the rise of science; the "era of revolutions:" the Industrial Revolution and the rise of democracy; the western world of the Middle Ages.

HIST 103
HISTORY OF CIVILIZATION: THE CONTEMPORARY WORLD (5)
The meeting of East and West: the "one-world" community in the 20th Century; imperialism, communism, fascism, democracy, internationalism; 20th Century science; present day philosophy; religion; literature, and art; the meaning of history for the citizen of the contemporary world.

HIST 150
AFRO-AMERICAN HISTORY: FROM SLAVERY TO FREEDOM (5)
Major emphasis is on the history of West Africa and the role of Afro-Americans in the development of American Society from slave beginnings to freedom and emancipation.

HIST 151
AFRO-AMERICAN HISTORY: FROM FREEDOM TO PRESENT (5)
The struggle for equal rights from Emancipation to the present. Special emphasis on an understanding of the "Black Rage" in White America.

HIST 170
HISTORICAL AND CULTURAL PROBLEMS OF NATIVE AMERICANS (5)
Comprehensive, exploratory course to promote awareness and understanding of historical and cultural problems facing contemporary native Americans on and off the reservation. Native American philosophy is included as the basis for the survival of native Americans as a people.

HIST 189, 190, 191, 192, 193
SPECIAL TOPICS IN HISTORY (1) (2) (3) (4) (5)
Selected studies in various Social Sciences. See current quarterly schedule for details.

HIST 201
FOUNDATIONS OF AMERICAN CIVILIZATION (5)
The synthesis of European heritage and colonial experience to form distinctive American ideas and institutions. The War of Independence and formation of the Federal Union as a reflection of this synthesis. Important aspects such as puritanism, mercantilism, westward expansion, colonial self-government, and Anglo-American constitutional thought will be discussed.

HIST 202
AMERICAN CIVILIZATION: THE FIRST CENTURY OF INDEPENDENCE (5)
The problems involved in creating a new nation. The establishment of a federal government and the formation of political parties. Such developments as the democratization of American society, national expansion, increasing sectionalism, the Civil War, and reconstruction will be discussed.

HIST 203
MODERN AMERICAN CIVILIZATION (5)
The emergence of modern America. Attempts to solve the problems created by industrialization and urbanization are seen in such movements of reform as populism, progressivism, and the New Deal. America's reaction to world power status in the 20th Century.
HIST 210
THE FAR EAST IN THE MODERN WORLD (5)
The emergence of the Far East from areas of exploitation to importance in economic, political and cultural affairs of the modern world. A recognition of the value systems of these cultures and of their problems in today's world. Emphasis is on the 20th Century, with necessary background.

HIST 223
TWENTIETH CENTURY RUSSIA (5)
A basic overview of the cultural, social, economic and political development of Russia and the Soviet Union from the turn of the century to the present, with particular emphasis on the ideology, institutions and practice of a totalitarian state.

HIST 230
REVOLUTIONS IN THE MODERN WORLD (5)
A study of the forces which produce significant changes in the social, economic, or political ideas and institutions of a nation. An understanding of the concept of revolution will be developed by comparing and contrasting important "revolutions" such as those in England, America, France, Russia and China.

HIST 245
THE UNITED STATES IN WORLD AFFAIRS: 1898 TO THE PRESENT (5)
A survey of the main concepts and practices of America's foreign relations, with emphasis on the 20th Century.

HIST 251
HISTORY OF CHINA (5)
From earliest times to the present, with emphasis in the modern period. The value system from Confucianism to Maoism.

HIST 264
WASHINGTON AND THE PACIFIC NORTHWEST (5)
Establishes the physical background of the settlement of the area by aboriginal and white inhabitants. Traces the broad historical themes and environmental factors that influenced the development of the social, economic, and political structure of the Pacific Northwest today.

HIST 270
ENGLISH SOCIAL AND POLITICAL HISTORY: 1500 to 1914 (5)
The course begins with Henry VIII, emphasizes the Reformation, Puritanism, and the Civil War in the 16th and 17th Centuries, and traces England's rise to world dominance through industrialization and the expanding Empire. Origins of American institutions are noted in the development of English common law, political thought, and parliamentary government.

HIST 295
INTRODUCTION TO JAPANESE CIVILIZATION (5)
Survey study of Japan's cultural development from early times to the Meiji period. Japan's cultural borrowings from China and the Japanization of these; the Shogun-Emperor system of government, the Feudal Age and the traditional society.

HOME ECONOMICS
HOMEC 100
INTRODUCTION TO HOME ECONOMICS (1)
An orientation to the field of home economics with emphasis on philosophy and subject matter content. Attention is given to individual interests and abilities and the necessary requirements to achieve personal and professional goals.

HOMEC 109
HISTORICAL DEVELOPMENT OF FASHION (2)
A study of the history and development of fashion in the United States and of the economic, social, and psychological factors that influence fashion.

HOMEC 110
TEXTILES (5)
A study of the physical and chemical properties of natural and man-made fibers and finishes, identification of construction methods, and principles related to use and care of fabrics. (Two lab periods) (Satisfies science credit)

HOMEC 111
CLOTHING STUDY (3)
A study of the aesthetic, economic, psychological, and sociological aspects of clothing selection and of the custom techniques of construction in cotton and linen fabrics. (One lab period)

HOMEC 130
HUMAN NUTRITION (5)
A study of foods and nutrition in relation to health and disease, and the processes by which nutrients function in the human body. (Satisfies science credit)
HOMEC 169
HOME FURNISHINGS AND EQUIPMENT (3)
A study of furniture and appliances in reference to the home including construction, selection, use, and care.

HOMEC 170
INTERIOR DESIGN I (3)
A study of the elements and principles of design in relation to achieving an aesthetic interior of the home with emphasis on furniture selection and arrangement, color, window treatments, floor coverings, lighting, texture and space relationships.

HOMEC 198
PRACTICUM IN FASHION MERCHANDISING (3)
Selected observations and experiences in the merchandising of ready-to-wear apparel and/or the constructing and merchandising of custom-made garments. Prerequisite: permission of instructor.

HOMEC 199
PRACTICUM IN INTERIOR DECORATION (3)
Selected observations and experiences in interior decorating and furniture merchandising. Prerequisite: ART 109, HOMEC 169, 170.

HOMEC 212
CLOTHING CONSTRUCTION (5)
A study of basic clothing construction techniques, including problems of fitting and alteration; flat pattern techniques are applied to the construction of wool garments. (Two lab periods) Prerequisite: HOMEC 111 or permission of instructor.

HOMEC 220
HOME MANAGEMENT (3)
Principles of management related to family activities throughout the family life cycle; the effect of values, standards, goals, and resources upon decision making.

HOMEC 221
FAMILY FINANCE (3)
A study of the acquisition and utilization of family economic resources and the effect of values, standards, and goals on family spending.

HOMEC 222
CONSUMER EDUCATION (3)
A critical analysis of consumer information, problems, and practices. Discussion topics include: role of the consumer in the American economy, factors influencing consumer behavior, factors influencing price, identifying quality, some legal aspects of consumership, and consumer protection agencies.

HOMEC 255
MARRIAGE AND THE FAMILY (5)
The family as an institution and mode for personal living; marital adjustment; parent-child relationships; changing family patterns; family disorganization and reorganization. (Same as SOC 255) Prerequisites: SOC 110, PSYCH 100.

HOMEC 256
CHILD DEVELOPMENT AND GUIDANCE (3)
A study of the physical, social, and emotional development of the child from infancy to adolescence and of the guidance necessary for optional development.

HOMEC 270
INTERIOR DESIGN II (5)
A study of the field of interior design and of the use of design elements to create a favorable environment. An analysis is made of interior spaces and furnishings in relation to human needs including study of materials, procedures, scale drawing and presentation. (Two lab periods) Prerequisite: HOMEC 170.

HOMEC 298
PRACTICUM IN FASHION MERCHANDISING (5)
Study, analysis and practice in the merchandising of ready-to-wear apparel or the construction and merchandising of custom-made garments.

HOMEC 299
PRACTICUM IN INTERIOR DECORATION (5)
Study, analysis, and practice in interior decorating and furniture merchandising. Prerequisite: HOMEC 199.
LAW ENFORCEMENT

LAWEN 100
INTRODUCTION TO LAW ENFORCEMENT (5)
A survey of the historical development of law enforcement; functions and jurisdictions of local, state and federal law enforcement agencies. Development of the American Legal System.

LAWEN 101
CRIMINAL JUSTICE SYSTEM (5)
A survey of the whole criminal justice process from arrest through release; explaining the relationship and respective responsibilities of the police, the prosecutor, the courts, the prisons, the probation and parole systems as each integrates into a system designed to reduce criminal behavior.

LAWEN 102
POLICE ORGANIZATION AND ADMINISTRATION (5)
The structure of organization according to functional responsibility, staff and line concepts, chain of command in a hierarchy with its advantages and limitations, survey of model organization charts for various size agencies. An introduction to police budgets and financing.

LAWEN 103
INTRODUCTION TO FORENSIC MEDICINE (1)
Designed to give the student knowledge of the human body, its vital, life-sustaining functions, thus making investigation of violent crimes against the person more exacting in areas of homicide, assault and suicide. (This is an optional course subject to availability of the instructor.)

LAWEN 104
CRIMINAL LAW (5)
A study of constitutional law, the role of the legislature, the difference between civil law and criminal law, classification of felonies and misdemeanors, requirements for arrest, search and seizure, rules of evidence, and a brief survey of the Revised Code of Washington.

LAWEN 111
INFORMATIONAL SYSTEMS (5)
A study of how information within the criminal justice system is obtained, stored and transmitted with emphasis on the uses of modern communication systems and the present and future role of computers and data processing in the criminal justice system.

LAWEN 202
PRINCIPLES OF INVESTIGATION (5)
A survey of fundamental investigative techniques that can be used within the criminal justice system including the discovery, preservation, and presentation of evidence, the methods of obtaining information from people, the development of informational sources and a brief survey of the interrelationship of the criminal laboratory functions together with agencies in the criminal justice system.

LAWEN 206
CRIME PREVENTION (5)
A survey of the causes of crime and juvenile delinquency and the methods used by criminal justice system agencies to deter crime and prevent recidivism with emphasis on innovative practices in crime prevention within the criminal justice system.

LAWEN 250
BASIC ELEMENTS OF FIRST LINE SUPERVISION
A study of the basic fundamentals of supervision designed to give criminal justice system practitioners and students an insight into field supervision. Includes a study in planning, reporting, improving, directing and evaluating.

LAWEN 251
HUMAN RELATIONS IN SUPERVISION (5)
An advanced study in interpersonal relations, supervision, and communication, as applied to real life situations within the criminal justice systems.

LAWEN 252
CRISIS INTERVENTION (5)
Designed to provide criminal justice system practitioners and students with new and innovative ideas for dealing with persons in crisis including suicide, drug related problems, interfamily crisis, mentally disturbed persons. Includes a study in personal emotion and energy, territories, conflicts, problems in communications, and community dynamics.

LAWEN 253
DRUGS AND ALCOHOL (3)
A study of the effects of drugs and alcohol on present day society designed to give criminal justice system practitioners and students an insight into laws relating to the use, possession, and sale of various drugs and the identification of drugs together with effects of drugs and alcohol on contemporary society.
POLITICAL SCIENCE

POLSC 101
MODERN GOVERNMENT (5)
Political life in the modern world; the ideas behind its democratic and non-democratic forms. It is a systematic and comparative study of political structures, institutions, behavior and processes.

POLSC 102
AMERICAN GOVERNMENT AND POLITICS (5)
The nature of constitutional government in America in terms of the theory and practices of democracy. Problems of individual rights, popular representation and responsible leadership are emphasized.

POLSC 103
INTERNATIONAL RELATIONS (5)
International struggle for power and peace; present day methods by which affairs are conducted between national states.

POLSC 104
STATE AND LOCAL GOVERNMENT (5)
Designed to introduce concepts of lobbying, executive power and judicial selection and review on the state level; political machines, race and urban ecology on the local level. The student is introduced to fictional as well as nonfictional readings with the objective of developing the tools for modern theory building and comparative analysis of state and community problems.

POLSC 160
THE A, B, C'S OF POLITICAL CAMPAIGNS (5)
The course is designed to prepare students in the understanding of modern techniques used in political campaigns. It will also emphasize how to be effective in political campaigns.

POLSC 205
COMPARATIVE GOVERNMENT (5)
A comparative study of Western liberal political institutions, the welfare-state and the Common Market. Specific countries discussed are Great Britain, France, Germany and Sweden. Attention is given to theoretical and institutional-procedural aspects characteristic of modern government and society.

POLSC 206
COMPARATIVE GOVERNMENT (5)
A comparative study of Marxist Socialist governments as they are represented by the governments of the Soviet Union, the People's Republic of China and Yugoslavia. Special attention is given to Marxist-Leninist-Maoist-Titoist theories of society, government and economics and their application to the practical task of government.

POLSC 207
COMPARATIVE GOVERNMENT (5)
A comparative study of Third World governments (African, Asian, Latin American). Special emphasis is given to the problems of political development and modernization such as nation-building, economic development and social transformation faced by the Third World societies.
POLSC 210
BLACK POLITICS (5)
A survey of political, economic and social developments leading to the contemporary black-white situation in the U.S. with emphasis on inner city politics.

POLSC 211
INDEPENDENT BLACK STUDIES (5)
Course will expand, amplify, and analyze patterns in the “Black Experience” based on a theoretical model developed previously in POLSC 210. The goal of this class will be to prepare and publish a series of scholarly essays. Prerequisite: POLSC 210.

POLSC 230
REVOLUTIONS IN THE MODERN WORLD (5)
A study of the forces which produce significant changes in the social, economic, or political ideas and institutions of a nation. An understanding of the concept of revolution will be developed by comparing and contrasting important “revolutions” such as those in England, America, France, Russia and China.

POLSC 270, 271
THE LEGISLATIVE PROCESS (5) (5)
Organization and procedure of state legislative politics, including relation with the executive department, pressure groups, and the public. Prerequisite: POLSC 201, 202, or 203 or permission of instructor.

PSYCH 280, 281
INDIVIDUAL CONFERENCE AND RESEARCH (4) (5)
Open to qualified majors in the field in order to offer an opportunity to exceptional students to acquire a working familiarity with independent research work and deeper knowledge in the particular area under study. Prerequisite: permission of instructor.

POLSC 297, 298, 299
THE UNITED NATIONS (1) (1) (3)
A seminar meeting once a week each quarter designed as a prerequisite for those students who hope to participate in Model United Nations delegation in the spring. Fall and Winter: structure and purpose of the United Nations organization; Spring: particular country assigned to the college. Prerequisite: a course in political science or permission of instructor.

PSYCHOLOGY
PSYCH 100
INTRODUCTION TO PSYCHOLOGY (5)
The major emphasis will be terminology, methodology, concepts, principles and problems of various areas of psychology. Areas may include, but not be limited to, psycho-physiological processes, perception and learning related to critical developmental stages in self and social action. Participation as subject in psychological experiments may be required.

PSYCH 110
APPLIED PSYCHOLOGY (5)
An introductory look at ways of evaluating ourselves and others objectively as well as developing an awareness of feelings, emotion and the kinds of relations we have with other people. A second emphasis will be the application of these principles to industrial and business settings.

PSYCH 120
BEHAVIOR MODIFICATION OF DELINQUENTS (3)
The course includes theory and training in the principles of operant conditioning, included are reinforcement, fading, extinction and generalization. Lecture discussion will be supplemented by supervised laboratory experience in programming behavior.

PSYCH 150
INTRODUCTION TO PERSONAL RELATIONS (5)
Experiential approach to the dynamics of behavior. Emphasis on developing awarenesses and relating to group members and self. Particular
reference to more effective and pro-
ductive communication awareness
and performance.

PSYCH 180
FIELDS OF PSYCHOLOGY —
SYSTEMS OF APPROACH (5)
The emphasis of this course is vari-
able from quarter to quarter. Content
will take into consideration instructor
and student interest. Proposed topics
to be covered include, but are not
restricted to behavioristic theory,
Gestalt theory, etc. Prerequisite:
permission of instructor.

PSYCH 190
INTRODUCTION TO RESEARCH
METHODS IN THE SOCIAL SCIENCES
(5) (Same as SOC 223)
An introduction to the philosophy,
methodology and evaluation of be-
havior. Illustrations will be through
reference to reported studies. Stu-
dents will conduct and report on
studies. Prerequisite: PSYCH 100 or
permission of instructor.

PSYCH 200
HUMAN LEARNING AND
EDUCATION (5)
Introduction to the history, theories
and application of human learning to
broad area of education. Particular
emphasis will be given to: (1) stages
of development and learning, and (2)
effective learning within both formal
and informal settings. Prerequisite:
permission of instructor.

PSYCH 201
INTERMEDIATE PERSONAL
RELATIONS (5)
Experientially oriented group activi-
ties related to nonpsychiatric beha-
vior in encounter related class set-
ting. Particular reference to integrat-
ing self, group, and school concepts.
Prerequisite: PSYCH 150 or permi-
tion of instructor.

PSYCH 204
GENERAL DEVELOPMENTAL
PSYCHOLOGY (5)
An over all survey of developmental
psychology encompassing the full
life circle. Emphasis will be on the
interaction of human maturational
and environmental factors with par-
ticular interest being paid to critical
stages of development. Major con-
temporary theories will be discussed.
Prerequisite: PSYCH 190 or permi-
tion of instructor.

PSYCH 205
INTRODUCTION TO
PERSONALITY (5)
A theoretical and developmental ap-
proach to the study of appropriate
and inappropriate behavior. Empha-
sis being given to: (1) the antecedents
of self development, and (2) individ-
ual differences in the organization of
experiences and behavior. Prerequis-
itive: PSYCH 190 or permission of the
instructor.

PSYCH 240
SOCIAL PSYCHOLOGY (5)
(Same as SOC 240)
An introductory study of the influence
of the social structure upon the indi-
vidual. Emphasizing aspects of social
learning on perception and personal-
ity during critical developmental pe-
riods. Prerequisite: PSYCH 190, or
SOC 100, or permission of instructor.

PSYCH 243
SOCIAL PSYCHOLOGY OF
PREJUDICE (5)
The course will examine social psy-
chological theory and research regard-
ing the development, maintenance,
and dissolution of prejudicial attitudes,
with particular emphasis on anti-
Black sentiment. Prerequisite: psych
100 or SOC 110 plus PSYCH 240 or
permission of instructor.

PSYCH 255
ADVANCED PERSONAL
RELATIONS (5)
Deals with adjustment problems, the
inadequacies of escape and defense
reactions. Development of self-knowl-
geedge and self-actualization. Prerequis-
ite: PSYCH 201 or permission of in-
structor. (Both courses must be taken
to receive credit.)

PSYCH 260
SEMINAR IN PSYCHOLOGY (5)
A study of approved selected psychol-
ogy topics which are of current inter-
est. Prerequisite: permission of the
instructor.
SOCIAL SCIENCE

SOCSC 140, 141, 142
SPECIAL TOPICS IN SOCIAL SCIENCE (2-5)
Selected studies in various social sciences. Courses offered will include such opportunities as administrative internships, college governance, legislative processes, campus, and community involvement. See current quarterly schedule for details.

SOCSC 201, 202, 203
SOCIAL INTERACTION (1-15)
A variable credit course including both a personal growth laboratory and a student initiated and planned contracted learning project. The main purpose of this course is to assist the student in understanding and relating to others and to assist him in developing meaningful relationships with those whom he encounters. Prerequisite: SOCSC 201 for 202; SOCSC 202 for 203.

SOCSC 201L, 202L, 203L
SOCIAL INTERACTION LAB (3)
This lab is to be taken as part of SOCSC 201, 202, 203.

SOCIOLOGY

SOC 110
INTRODUCTION TO SOCIOLOGY (5)
A survey of basic principles and perspectives in the analysis of interpersonal and intergroup relationships.

SOC 223
INTRODUCTION TO QUALITATIVE METHODS OF SOCIAL RESEARCH (5) (5) (5) (Same as PSYCH 190)
Methods and sources of investigation in the behavioral sciences emphasizing the qualitative strategies. Prerequisite: SOC 110 or PSYCH 100, or ANTH 100 or permission of instructor.

SOC 240
SOCIAL PSYCHOLOGY (5)
(Same as PSYCH 240)
An introductory study of the influence of the social structure upon the individual, emphasizing aspects of social learning on perception and personality during critical developmental periods. Prerequisite: one course in Social Science.

SOC 250
PROJECT ACCOMPLISH (5)
This course provides opportunities to explore practical career possibilities by voluntary service to community agencies.

SOC 251
SOCIOLOGY PRACTICUM (5)
Provide an opportunity to explore practical sociology vocational possibilities by voluntary service in community agencies while stimulating interest and awareness of meeting society's needs. This is a work-study program to develop field research methods. Prerequisite: permission of instructor.

SOC 255
MARRIAGE AND THE FAMILY (5)
(Same as HOMEC 255)
The family as an institution and mode for personal living, marital adjustment, parent-child relationships, changing family patterns, family disorganization and reorganization. Prerequisite: SOC 110, PSYCH 100 or permission of instructor.

SOC 256
INTRODUCTION TO SEX AND SEXUALITY (5)
A rational and sober approach to sexual knowledge, attitudes, and behavior. Topics included are sex anatomy and physiology and development. Gender analysis, sexual stimulation, behavior, problems and ethics. Emphasis is on both academic and personal development. Prerequisite: one course in Social Science or permission of instructor.

SOC 262
RACIAL AND ETHNIC GROUP RELATIONS (5)
An analysis of selected racial and ethnic group relations in the United States, with emphasis on the concepts of race and culture. Topics covered include anti-semitism, racism and others. Prerequisite: one course in Social Science.
SOC 265
**URBAN COMMUNITY (3)**
A comparative and analytic study of the organization and activities of urban communities. Major problems presented by urban environments, sources of change, and the effectiveness of attempts at change are examined.

SOC 270
**SOCIAL DISORGANIZATION AND DEVIANT BEHAVIOR (5)**
Analysis of the processes of social and personal disorganization and reorganization in relation to poverty, crime, suicide, family disorganization, mental disorders and similar social problems. Prerequisite: one course in Social Science.

SOC 291, 292, 293, 294, 295
**SPECIAL TOPICS IN SOCIOLOGY (1) (2) (3) (4) (5)**
An intensive investigation of a given topic. See quarterly bulletin for details. Prerequisite: one course in Social Science or by permission of the instructor.

SOCIAL WORK

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCWK 100</td>
<td>ORIENTATION TO HUMAN SERVICES (1)</td>
<td>A setting in which the core-group technique is used to provide training, counseling, discussion, and feedback related to job experiences, group identity, and relationships with others.</td>
</tr>
<tr>
<td>SOCWK 105</td>
<td>SOCIAL WELFARE (3)</td>
<td>The origin, development and present status of social service programs in the United States.</td>
</tr>
<tr>
<td>SOCWK 110</td>
<td>PRINCIPLES OF INTERVIEWING (2)</td>
<td>A study of the essential concepts of personality as prerequisite for the use of the professional interview as a tool in social service. Particular attention is given to personality determinants, verbal and nonverbal cues, selective perception and perception checks.</td>
</tr>
<tr>
<td>SOCWK 112</td>
<td>PRINCIPLES OF INTERVIEWING (3)</td>

</tr>
<tr>
<td>SOCWK 165</td>
<td>COMMUNITY RESOURCES (2)</td>
<td>An introduction to community resources including ways of utilizing community resources to aid clients.</td>
</tr>
</tbody>
</table>

SOCWK 190, 290
**FIELD EXPERIENCES IN HUMAN SERVICES (5) (5)**
Supervised experiences in selected human service agencies.

SOCWK 200
**INTRODUCTION TO SOCIAL WORK METHODS (5)**
This course provides an introduction to casework, group work and community organization. Emphasis is placed on the similarities and differences which characterize these helping processes and on their application in Social Services settings. Prerequisite: SOCWK 100, 105, 165 or permission of instructor.

SOCWK 210
**SOCIAL CASEWORK (3)**
A discussion of the dynamic components which make up the casework situation, with the helping process given special emphasis and the beginning phase of casework as the cross section in which these components can be viewed in interaction. A study of socialization as a prescribed technique, and finally a brief look at crisis intervention and reality therapy. Prerequisite: SOCWK 200.
THE ADMINISTRATION & FACULTY
The Administration

BELLEVUE COMMUNITY COLLEGE / Established 1966
Accredited by the Northwest Association of Secondary and Higher Schools

THE BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 8
Mr. Roy S. Peterson, Chairman
The Reverend Robert F. Hayman, Vice-Chairman
Mr. C. W. Duffy
Mrs. Harriet S. Jaquette
Mr. Bob T. Gardner

ADMINISTRATION AND SERVICES OF COMMUNITY COLLEGE DISTRICT NO. 8
Dr. Merle E. Landerholm Executive Officer
Dr. Louis Kahn Director of College/District Planning

ADMINISTRATION OF BELLEVUE COMMUNITY COLLEGE
Office of the President
Dr. Merle E. Landerholm President
Mr. M. Craig Merrill Executive Assistant to the President and Director of Personnel
Mr. Everett Reagan Director of Public Information

Office of Finance and Business
Mr. George L. Bennett Finance and Business Manager
Mr. Alan Bremner Director of Campus Services
Mr. George L. Cowan Controller
Mr. David C. Wallbom Director of Plant Operations

Office of Instruction
Dr. Roy P. Wahle Dean of Instruction
Dr. Boyd M. Bolvin Associate Dean of Instruction: Learning Resources
Mr. Stanley J. Jones Director of Library-Media Center
Mr. Richard C. Klein Associate Dean of Instruction: Academic and Continuing Education
Mr. J. Allen Suver Associate Dean of Instruction: Occupational Education and Special Programs
Mrs. Kathryn W. Norris Chairman, Division of Business
Dr. Anita I. Tyra Chairman, Department of Accounting, Economics & Quantitative Methods
Miss Molly A. Clough Chairman, Department of Office Professions; Chairman, Professional Secretary and Clerk
Typist Programs
Mr. Lisle C. Russell Chairman, Graphic Reproduction Program
Mr. H. A. Divine, Chairman, General Business Program; Chairman, Food Service Management Program;
Director of Food Services
Mr. James E. Shuman Chairman, Marketing Program
Mr. Douglas L. McFall Chairman, Real Estate Program

*Should the college quota for matriculated status be filled, it will not be possible to consider you for matriculated enrollment status even though your application has been received prior to application filing dates. It is suggested that you attempt to enroll as a nonmatriculated student on a “space available” basis and reapply for matriculated status for a subsequent quarter.*

+ To be arranged.

ACCREDITED — Certified as fulfilling standards or requirements. Accreditation means that the constituent parts of a college or university are satisfactory and that its courses are recognized as being equal to or compatible with those of other collegiate institutions.

ADVANCED PLACEMENT — The assignment of a college student to an advanced class in a sequence on the basis (1) of previous work and/or experience, and (2) the successful completion of an examination on the subject. Advance placement may be granted with or without credit.

ADVANCED STANDING — The status given a student who has taken work in another collegiate institution and has earned acceptable credit there, or who has earned college credit by taking an examination.

AUDIT STUDENT (NONCREDIT) — A person who attends classes regularly, but does not wish to take the final examination nor receive grades or credit for work undertaken.

COUNSELORS — College personnel with special preparation in the social and behavioral sciences who assist students with concerns or questions related to scholastic success, personal problems, self-realization and human potential development.

CREDIT HOUR (SEMESTER HOUR, QUARTER HOUR, TERM HOUR) — A measurement of curricular work completed satisfactorily. Ordinarily, one credit hour is given for one “clock hour” of class attendance a week for the period of a quarter. However, in some cases such as laboratory courses, two or three “clock hours” of attendance a week are required to earn one credit hour. A specified number of credit hours must be earned for a degree. A quarter or term hour is two-thirds of a semester hour.

CURRICULUM (Plural CURRICULA) The complete list of courses offered by a college. Also, the series of courses required for a specific degree.

ELECTIVE — A subject or course which is open to choice; that is, a subject which is optional and not required.

FACULTY ADVISER — A member of the faculty who confers regularly with students concerning career selection, objectives and demands. Each regularly enrolled student is assigned an adviser from his area of major interest. Advisers may be changed by student or faculty request.

GRADE POINT — A numerical value given a grade conventionally as follows; for each credit hour of A, 4 grade points are assigned; for B, 3 points; for C, 2 points; for D, 1 point.

GRADE-POINT AVERAGE (GPA) — The numerical average computed by dividing total grade points (see above) by total credit hours attempted in a quarter. For example:

<table>
<thead>
<tr>
<th>Credit Hours Attempted</th>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>A</td>
<td>12</td>
</tr>
<tr>
<td>3</td>
<td>B</td>
<td>9</td>
</tr>
<tr>
<td>3</td>
<td>C</td>
<td>6</td>
</tr>
<tr>
<td>3</td>
<td>D</td>
<td>3</td>
</tr>
<tr>
<td>NC</td>
<td></td>
<td>0</td>
</tr>
</tbody>
</table>

Total 12 30 2.5

A cumulated grade-point average is the total grade points on a student’s record divided by the total hours he has attempted. A grade-point deficiency is a lack of sufficient grade points to meet minimum scholastic requirements.

INCOMPLETE — A grade indicating that a student’s work in a course is not complete, usually allowed because of conditions beyond his control.

LOWER-DIVISION COURSES — Courses ordinarily completed during the freshman and sophomore years of a baccalaureate degree program. Lower-division courses are often numbered in the 100’s and 200’s.

MAJOR — The subject or field of study selected by a student in college in which he concentrates his academic efforts.
MATRICULATED STUDENT — Students who are admitted as matriculated are those presumably enrolled in programs leading to a Bellevue Community College degree, certificate, diploma (from the Adult High School Program), an organized college transfer program or an approved program of study and who have completed all admission requirements.

MINOR — The subject or field of study which is second in interest and concentration to the major study. "Minors" are required in some colleges and universities, but are not formally defined in others.

NONMATRICULATED STUDENT — A nonmatriculated student is one who has not matriculated. Nonmatriculated students may enroll for credit on a "space available" basis but their enrollment implies no commitment on the part of the college regarding matriculated admission at some later date. Credits earned as a nonmatriculated student may apply toward a Bellevue Community College associate degree, certificate or diploma (from the Adult High School Program). At least 30 credits must be earned as a matriculated student to qualify for an associate degree.

NONRESIDENT STUDENT — (See RESIDENT STUDENT)

PLACEMENT SERVICE — A college or university office which assists students and graduates to secure employment.

PRECOLLEGE TESTS — Achievement tests given students as a part of admissions procedures.

PREPROFESSIONAL — Referring to courses which prepare students for later specialized or technical training. For example, "premedicine" includes preprofessional courses in chemistry and biology preliminary to later specialization in medicine upon transfer. A preprofessional program usually includes general or cultural courses.

PREREQUISITE — A requirement for registration in a particular course. For example, a beginning course in psychology may be a "prerequisite" to an advanced course. In some cases, the prerequisite may be concurrent enrollment in the complementary course. This information is included in the course descriptions under Curricular Divisions.

PROBATION — A status imposed upon a student because of consistently low grades or improper conduct, usually with specific conditions which must be met within a given period.

REGISTRATION — The process of official enrollment in a college. Registration is usually required at the beginning of each quarter and includes process of selecting courses of study for that period, payment of fees, etc.

RESIDENT STUDENT — A student who because of his legal residence within the state of Washington is not subject to special nonresident fees. If the student's transcript is from out of the state, his address or that of his parents is out of the state, or the student is an alien, the burden of proof must rest with the student to show that he is actually domiciled within the state and thus qualified for the lower resident student fees.

TERMINAL COURSES — Courses arranged specifically for students who expect to enter business or industry immediately after completing one or two years of college. Terminal courses generally do not carry credits which are transferable to senior institutions.

TRANSCRIPT — An official copy of a student's academic record, showing courses completed, grades and credit earned, and other data concerning the student.

UNIT — A measurement of high school work representing two semesters or one full year of work in a single subject. A specified number of units, and in some cases specific units, are required for admission to four-year colleges and universities.

UPPER-DIVISION COURSES — Courses usually completed during the junior and senior years of a baccalaureate degree program. They are frequently numbered within the 300's and 400's.

STUDENT RESPONSIBILITY FOR
CATALOG INFORMATION

Bellevue Community College expects its students to adhere to the college rules and regulations. In those cases where no clear avenue of appeal is stated, students are encouraged to submit appeals to the Dean of Instruction for academic matters or to the Dean of Student Services and Development for nonacademic matters. The respective Deans' offices will seek the necessary means for providing a student with a decision.

Bellevue Community College reserves the right to change any provisions or requirements appearing in this catalog at any time — and to add or withdraw courses without prior notification.
