The AAS-T combines technical courses required for job preparation and college-level general education courses. These degrees are designed for the dual purpose of immediate employment and preparation for the junior year in a Washington state bachelor of applied science (BAS) degree program. The AAS-T degree generally will not be accepted in transfer-in preparation for bachelor of arts or bachelor of science degrees although the general education component of the degree will be accepted in transfer.

Once required prerequisites are completed, the 6-10 quarter selective admissions nursing program prepares students to become registered nurses (RN). Accredited by the National League for Nursing Accrediting Commission (NLNAC) and approved by the Washington State Nursing Care Quality Assurance Commission, the curriculum provides didactic education and clinical experience in medical, surgical, pediatric, behavioral health, maternity, and gerontological nursing. To be considered for acceptance into the program, students must follow specific admission guidelines, published annually at [www.bellevuecollege.edu/nursing/](http://www.bellevuecollege.edu/nursing/). Students in the Nursing Program must earn a C (2.0) or better in all courses required for a degree or certificate.

**LEARNING OUTCOMES**

**Degree recipients should possess the skills & abilities described below:**

- Apply the standards of professional practice, be accountable for their own actions and practice nursing within legal, ethical and regulatory frameworks.
- Assist the client to manage change, develop more satisfying interpersonal relationships, and integrate new knowledge and skills.
- Collect information in an orderly fashion from multiple sources to establish a foundation for provision of nursing care, identify available resources and perform ongoing assessment to meet the client’s changing needs.
- Identify individualized solutions and deliver accurate, safe care that moves the client and support person(s) toward positive outcomes.
- Create an environment in which cultural values, beliefs, and lifestyles of the client are respected.
- Promote and facilitate informed decision making, and support self-care activities of the client.

- Collaborate with the client and health care team in planning and delivering care.
- Manage client care through efficient, effective use of human, physical, financial, and technological resources.
